OUR
ANNUAL CATALOG
OF
"PURE & SURE" SEEDS

St. Louis Seed Co.

613-615 N. 4th St., ST. LOUIS, MO.

WHAT I WANT TO TELL YOU!

I want to Give you a Beautiful \$10 Portrait. Send for it To-Day.

I have one of the greatest surprises in store for you imaginable, a surprise that will please and satisfy you beyond doubt, a surprise that is not merely a vision in name but a surprise that is in the form of one of the greatest, the grandest and most exquisite presents known,

A BEAUTIFUL LIFE SIZE PORTRAIT

Just think! a beautiful life-size portrait of yourself, your father, your mother, your sister, your brother, or last but not least, your sweetheart, an exact life-size bromide portrait, size 16 x 20 inches, studio price \$10, to you it is

FREE! FREE! FREE!

When I say **free** I mean **free**; I do not want one penny; I do not ask you to do any work for me; I do not ask you to send me money for packing, etc.; I pay for everything out of my own pocket; the present is sent to you with my compliments, **absolutely free!**

— O —

I Want to Give Each and Every One of My Customers a

\$10 Present

ABSOLUTELY FREE!

WHY I DO IT: Every house has their own theory for increasing their trade. This is ours. We feel that if you have never planted our **"Pure and Sure" Seeds**, our offer to you of a beautiful \$10 portrait will induce you to send us at least a trial order this season. Next season we will not need to offer you a present to obtain your order; you will be so elated over the marvelous yields obtained from the seeds we send you that we will get both yours and your neighbors' orders without any argument. Last season we spent over \$100,000 in the newspapers and received thousands of new customers. This year we will increase our appropriation and give our customers the benefit. Remember, our old customers are just as welcome to one of these beautiful portraits as our new customers. **What to do:** When you send us your order, send us your photograph (a square cabinet if possible, clear and distinct, otherwise we cannot guarantee a first-class reproduction); our artists will then reproduce a life-size 16 x 20 bromide-finished portrait which will look exactly like the miniature copied from (except the finish); as the camera reproduces exactly like copy, you need have no fear of not obtaining the likeness, which is nearly always the case when copied by hand in crayon. The portrait which we send you will please and surprise you beyond doubt. Your small photograph will be returned to you in the same condition received by us. All life-size portraits must be shipped by express; of course you must pay the transportation charges, which will be from 25c to 35c, according to distance; transferring by express companies where necessary, may slightly increase the above charges, but for all through points the above rate will apply. **What you must do:** In order to receive one of these handsome life-size portraits **free**, you must send us an order for seeds in packets amounting to at least \$1.50; **remember, packets**, not ozs., ¼ lbs., ½ lbs., lbs., pks., bus., or bulk seed of any kind, neither tools, implements or supplies. The above present is for you when your order contains packet seed to the amount of \$1.50, and we positively cannot allow you any special discount when giving you this beautiful present. If you want one of these elaborate portraits, send us your order today. **Please note:** It usually requires about five days for copying and finishing bromides, therefore on account of the enormous rush, your photo must take its turn and it will be shipped to you as soon as completed, which may be a few days later. However, you may rest assured we will forward it as soon as possible.

Yours very truly, WM. F. NICHOL, Pres. & Gen. Mgr. St. Louis Seed Co.

The fact that our growth has attracted the news world should be enough to convince you that "Pure and Sure" seeds are the best that is known.

The World's Greatest Seed Establishment

THE HOME OF "PURE AND SURE" SEEDS.

10,000 ORDERS FILLED DAILY.

St. Louis now ranks first in the seed world. Statistics show that the St. Louis Seed Co. of 613-615 North Fourth-st, fill more mail orders for seeds than any other two seed houses combined. Their record last season eclipsed all previous marks by 50 per cent.

From every civilized country on the globe orders pour in for their celebrated "Pure and Sure" seeds, a name that has become a house word in almost every gardener's home. This firm has one of the largest trial grounds in existence, upon which a host of expert gardeners and originators are continually experimenting, producing new wonders in the gardening world. At the Louisiana Purchase Exposition, 1904, their products were awarded seven medals, a record no other seed house can equal, one of their gorgeous displays being the Great Floral Clock, which is still fresh in the minds of the millions who gazed upon it.

A solid train load of paper is required upon which to run the spring edition of their annual garden guide and catalog, which is mailed free to their customers and those who ask for it. Their beautiful catalog can be seen upon the tables of gardeners in any land.

10,000 ORDERS A DAY.

It takes great skill and system to handle such an amount of orders in one day

during the busy season, which is January, February, March, April and May. Two shifts are worked day and night getting out the orders to the anxious customers throughout the land. Beginning in June and continuing through until the fall months, birds, including parrots, canaries, etc., are distributed throughout the United States. This firm is making a specialty of the bird business, having buyers in Mexico, Cuba and Germany to select for them only the finest species for their trade, a special bird and fish catalog is issued each season. Beginning at this time and continuing until winter approaches their bulb season is on. Owing to the fact that their bulbs were awarded the world's fair gold medal they enjoy the largest trade on bulbs of any other house in America. Their new bulb catalog is fresh from the press and is mailed free to all who write for it.

Mr. William F. Nichol, who is president and general manager of this firm, is one of the best known seedsmen in the United States. It is to his management that all credit is due for this marvelous enterprise. As a national advertiser he is second to none. His firm's advertisements appearing in over 3,000 papers each season. With a few more industries like the above, St. Louis will soon lay claim to the million count, as this house's motto is always "To The Front."

Clipping from St. Louis Star Chronicle 8/25/06
 one of American leading daily newspapers

The Highest Tribute Ever Paid any Seed House

A GLANCE at the above clipping, taken from one of St. Louis' leading newspapers, will convince the reader as to the high esteem in which we are held in our own city; also as to our reliability. It is indeed gratifying to know that our business methods are approved of at home as well as by our million of satisfied customers throughout the world, as will be seen by the testimonials throughout this book; that we not only attain the honor of being the "Fastest Growing Seed House in America," but we attain the honor of sending out the "Purest and Surest" seeds that can be grown, which is more essential to the grower than anything which anybody might say. This season we have the finest assortment of new introductions ever created, as you will note by referring to the following pages, and we are prepared to fill your orders with accuracy and dispatch as never before. On the following page we show you an interior view of AMERICA'S GREATEST MAIL ORDER SEED HOUSE, as well as the foreman of each department, into whose hands your order will pass during the filling process. A glance at this magnificently equipped structure is enough to insure you that your order will receive the same care and attention as though you were here ordering in person. Our commodious quarters, together with our shipping facilities from St. Louis, is a guarantee that rapid delivery of your order to you is assured. May we not have your valued order today?

SHIPPING DEPARTMENT

SEED POTATO STORAGE

Interior View of Our Retail Store.

ABOVE we illustrate a sectional view of our retail department, located at 613-615 North Fourth St., which is noted as headquarters for market gardeners and farmers for St. Louis and adjacent counties. It is indeed interesting to see the amount of customers making their purchases in our store at the early hour of 3 a. m. during the marketing season. Our store is located in the heart of the commission district. Therefore we are in a position to observe the returns and yields from our seeds daily, as the products are mostly sold on Third and Fourth Sts. The past season, which has just closed, was a noticeable one. In view of the fact that our New Wonder Magnus Tomato, our Nichols Greenback Cucumber, the New Bountiful Bean, the Early Surprise Sweet Corn, also our French Market Pea, St. L. S. Co.'s New American King Cabbage, Jersey Cream Lettuce, New Green Erfurt Spinach and New Colorado Queen Muskmelon, as well as our other new introductions which you will find listed on the following yellow pages, each and every one demonstrating their superiority in their respective classes above all competitors, new offerings by other houses were clearly out-classed by the above varieties, as well as by our "Pure and Sure" staple varieties which you will find listed throughout this book, this season we offer you the choicest assortment of new seed novelties ever produced, and we are in a position to quote you rock bottom prices on any large bill of seeds you may submit us. Therefore we trust you will favor us with your orders, whether large or small, and in conclusion we desire to say

JUST ONE WORD.

BEFORE making out your order we want to impress upon you that seeds purchased from us cannot be excelled by any other firm in the country. We devote our time to looking after our growing crops. We take pains to keep each variety's vitality strengthened, thus insuring our customers with perfect seed. Every variety listed in this catalog is "O. K.," and has our name and recommendation back of it. Our packets contain the amount of seeds quoted at wholesale, not retail, as you have been used to buying heretofore.

If you desire to purchase a large amount of seeds it will pay you to compare our bushel prices with other firms' catalogs before ordering elsewhere. All seeds are tested as soon as received from our growers, and any lot that is not perfect is destroyed.

We carry on extensive experimental grounds, and you may rest assured that if you are looking for novelties in the seed line we can please you at all times.

**"PURE and SURE" Seeds Carried Off the
 WORLD'S HONORS**

Louisiana Purchase Exposition, 1904—A RECORD THAT SPEAKS FOR ITSELF. You can Carry off all the Honors and Prizes at your Home or State Fair by planting them this season.

OUR TERMS and GENERAL INFORMATION ABOUT ORDERING.
 Please Read Carefully Before Sending Your Order.

WHAT WE PAY THE POSTAGE ON—We pay the postage on goods priced in this Catalog only where we say "Postpaid" after the price or somewhere else on the page. Generally speaking, we pay postage on Vegetable and Flower Seeds in packets, ounces and ¼ lbs., also on half pints, pints and quarts where specified and on Bulbs where noted. Seeds ordered at freight or express prices cost you 10c extra per pound for postage when requested sent by mail, which must be remitted when ordering. Mexico and Canada Postage same as United States and possessions.

HOW TO REMIT—Money may be sent to us in the following manner: Postoffice order, draft on St. Louis or New York, or by express. Remittances for small amounts may be made in 2c postage stamps. If you send personal checks, add 15c additional, as it will cost us 15c each to collect. In remitting, purchasers will be particular to send a sufficient amount to cover their orders. When only a part is remitted, goods will be sent to the amount of the remittance only.

IF ON A "RURAL ROUTE," please see that we have your mail properly directed. If this Catalog was not correctly addressed, please advise us.

ABOUT WARRANTING—While we thoroughly test each and every variety, and we positively will not send out any seeds which we do not believe to be "Pure and Sure" in every respect, yet owing to the many contingencies on which the success of any crop depends, such as the weather being too dry or too wet, sowing too deep or too shallow, an attack of insects, etc., etc., hence it would be unwise, folly, for us to guarantee a perfect crop. Therefore, St. Louis Seed Company gives no warranty, express or implied, as to description, quality, productiveness or any other manner, of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.—St. L. S. Co.

Every order for goods named in this Catalog will be executed on these conditions only. This is the same disclaimer as used by other responsible seed houses.

SHIPPING DIRECTIONS—We deliver our goods to any railroad depot or express office in St. Louis, as you may direct, the purchaser to pay transportation upon receipt of goods, except where ordered at prices including postage for forwarding by mail. Give your shipping instructions plainly, and if none are designated we shall exercise our best judgment as to forwarding. The day a shipment leaves we always advise by a card through the mail that goods are coming by express or freight. It is often necessary to ship different goods in two separate packages. Frequently we find that goods can be forwarded cheaper and safer by prepaid express than by mail, although you may instruct us to mail them. Please Note—We will not send any shipment weighing 20 lbs. or less by freight. All heavy orders will be shipped by freight unless otherwise ordered. If you are in a hurry for your seeds and desire them shipped by express, state so; also mark your order **RUSH**.

PACKET DISCOUNT—We sell 25 5c packets of seeds for \$1.00. 10c pkt counts as two 5c pkts; 25c pkt as five 5c pkts, etc. We allow discount on packet seed only, and then only when portrait offer on inside front cover page is not taken advantage of. Should you not make your selection, we will add discount packets gratis, or you may add the additional variety of seeds you prefer. **FOR EXAMPLE:** Remit us \$1.00 for each \$1.25 worth of packets ordered.

WHOLESALE PRICES for quantities not listed, after varieties throughout this Catalog, will be found on pages 17, 18 and 19. Write us for special prices on large orders.

The Plow is used to designate our own private strains, which are the best that can be grown. Watch for it throughout this Catalog.

A BEAUTIFUL GUARANTEED-TO-TALK

PARROT

FROM \$3.25 UP

We ship Birds to any Express Point in the United States with Perfect Safety.

WRITE FOR OUR BIRD BOOK IT'S FREE

We ship more Parrots, Canaries and Fancy Gold Fish in one week than most other bird houses ship in a whole season. Read what the St. Louis Star-Chronicle says on page 1 of this catalogue. Remember, we offer you genuine imported Birds and Fish at lower prices than any other house in the United States. If you are interested in purchasing a Household Pet of any description it will pay you to get our Bird and Fish Catalogue today—it's free. **BIRDS THAT TALK**—We make a specialty of Birds that talk. When we say talk we do not only mean two or three words but complete sentences and many of them. The Parrots that make good talkers are the kind that are hand raised and hand fed; the breeders when raising are continually talking to them, hence their "mockery." Parrots that are trapped are wild and seldom become tame, much less learn to talk. Our Parrots are raised in captivity with tame birds and experienced breeders, being continually handled from the time they are hatched until they are shipped, hence the result: talking is their nature, tameness is their nature. We now have the reputation of handling more Parrots than any other house; in fact, during the Parrot season we usually ship several hundred every day, each one going to a different village or city, until today we are known throughout the entire land as "America's Greatest Bird and Fish Emporium." Write for our Bird and Fish Catalogue today; it's free.

GARDEN SEED TABLE.

Quantities here estimated are large enough to insure a good "stand," even if the soil or weather be somewhat unfavorable after sowing the seed.

AUGUST—Sow in Open Ground.—Bush Beans, Corn Salad, Cucumber, Endive, Lettuce, Early Peas, Radish, Spinach, Squash, Turnip. Plant Winter Onions. Write for St. L. S. Co's Wheat Circular.

SEPTEMBER—Sow in Open Ground.—Cabbage or Cauliflower in Cold Frames, Corn Salad, Kress, Kale, Lettuce, Mustard, Winter Radish, Spinach, Turnip. Plant Winter Onions. Write for St. L. S. Co's Bulb Catalogue.

OCTOBER—Sow in Open Ground.—Corn Salad, Cress, Kale, Lettuce, Mustard, Spinach. Plant Hyacinth, Tulip, Narcissus and other Dutch Bulbs in open ground, pots or glasses.

NOVEMBER—Plant Hyacinths, Tulips, Narcissus and other Dutch Bulbs in open ground, pots or glasses.

"OUR BUSINESS GROWS BECAUSE OUR SEEDS GROW."

WE DO NOT sell to stores or dealers; we sell direct to consumer, hence saving you the middleman's profit, which we add to your order by selling you big packets at small packet prices.

WE FILL YOUR ORDER the same day we receive it if possible. We send you only fresh Seed, Seeds that we make our reputation on. In other words, we send you Seeds that are "Pure and Sure."

PURE & SURE SEEDS TOO GOOD TO BE SOLD IN STORES **PREPARED ONLY FROM US**
St. Louis Seed Co. St. Louis, U.S.A.

OUR NEW VEGETABLE OFFERINGS

Nichol's Genuine Old Time Butter Bean

The reason we offer you this, the Old Time Butter Bean, on our first page of new introductions, is because to those who have never eaten them they will prove a treat. Greater than any new bean offering. We offered these old time favorites for the past two seasons, and the demand for them has since grown phenomenal. Gardeners say they made more money from them last season than anything they ever raised. Remember, it is the original old-time *Butter Bean* so much sought after by our parents and grandparents years ago. Ask any elderly person. They will tell you that the old-time *Butter Bean* is by far superior to any bean raised today. Vines grow very vigorously, and are laden with mammoth wide pods, containing from 3 to 5 beans each. When cooked they are of the most delicious flavor. To our market gardening friends, this is your opportunity to make more money than you ever have before, as everybody will be anxious for them when once they know they are the **genuine old time Butter Bean**. Price: Pkt 10c; ½ pt 20c; pt 35c; qt 60c; postpaid.

Nichol's Genuine Old Time Butter Bean.

Our Greatest New Bean Offering,

The New Bountiful.

The Flat, Green Podded Bush Bean Without a Rival.

The Bean that last season revolutionized the bean growing industry for over 250,000 gardeners. The Bean that has proven itself a continuous bearer from early spring till late in fall. The wonder of the gardening world. Absolutely stringless, tender beyond comparison. For yielding it stands in a class by itself. Gardeners, truckers, and everyone who has grown this Bean, are enthusiastic. You cannot realize the wonderful improvement until after you have planted it. The plant is of a remarkable thrifty growth and bears continually for weeks; in fact it is a magic as a bean producer. The frost usually finds late planting still in pod and blossom. It is an excellent shelled bean for winter use. It stands unrivalled for either a home or market Bean. It is not only a "Snap" Bean in nature, but a "snap" for the grower who is fortunate enough to plant it the coming season. Price: Pkt 10c; ½ pt 20c; pt 30c; qt 50c; postpaid.

St. L. S. Co.'s New Bountiful Bean.

Early Surprise Sweet Corn

The Largest, the Sweetest and Most Luscious Sweet Corn Ever Offered.

The world's finest Sweet Corn. Our greatest introduction. Last season we gave the world a treat in this new sugar corn. It is so far ahead of anything ever discovered that we wonder will future introductions ever come in its class. If you are a gardener, or a trucker, when once you have sold a customer "Early Surprise" you have served him with the standard of perfection. It is ready for the table almost as early as the little small early sorts, and is fully 50 per cent. better. The ears large, being filled with big luscious, juicy kernels of the most delicious flavor and tenderness. In short this new variety is peerless, and for canning it is superb. The notable merit of it is its mammoth yield, its tender remaining qualities; seeming as it does to yield a continuous succession of luscious sugar corn longer than any other known variety. Price: Pkt 10c; ½ pt 20c; pt 30c; qt 50c; postpaid.

The Best Early Sweet Corn in the World

The QUEEN
 OF ALL
 POTATOES.

EARLY
 "DIX."

WORLD'S
 RECORD
 Potato Crop,
 1,034
 BUS. PER ACRE
 Grown on thin
 clay soil.

St. L. S. Co.'s New EARLY "DIX" Potato

The pride of the "Red River Valley." Think of its yield—1,034 bushels per acre! Did you ever dream of such a mammoth yielding potato? No, we know you didn't. Neither did we until after we discovered this marvel. We offer it to you now as "The Greatest Potato on Earth." We mean just what we say. We are ready to stake our reputation that you will say so, too, when you have tried it. It is of the most uniform growth ever known—all large, no small potatoes being found. It is earlier than the famous Early Ohio. It is ten times better as a yielder, and has no yellow or black core. Its tops are of an upright growth, bush form. Its skin is of a light red pinkish color; its eyes are very shallow, and many; its dry and mealy nature is supreme. Our supply this season is very limited. However, we could not keep from offering them as long as they last. We hesitate to tell you of the marvelous good qualities which this New Early "Dix" Potato contains—we fear you might think our statements exaggerated. But say what we may, we could not do this wonderful new potato justice. Try a few hills of them this year. You will write us words of praise this fall. We will only sell a limited supply to each customer, as we want all our friends to derive the benefit of our great new potato introduction. Price \$1 per lb, postpaid; 6 lbs \$5, prepaid.

\$25.00 IN GOLD

Will be paid by us to the party who raises the largest and longest cucumber grown from our NICHOL'S GREEN BACK SEED this season. Report must be verified by your postmaster or local grocer and reach us not later than Sept. 15, 1907. NOTE—Seed must be purchased from us this season.

NICHOL'S "GREEN BACK" CUCUMBER.

Once more we offer you the cucumber of the age, the variety that leads the world in every respect. A cucumber unsurpassed, beyond description; marvelous for its beauty and its extreme good qualities. If you have not tried it you have lost the chance of a lifetime. Read the description and order early. It is of a medium early growth and an immense yielder, and of the finest flavor. Vines produce an enormous crop, with large, thick, heavy leaves, thus insuring them almost bug-proof. The handsome fruit grows to a length of from 12 to over 26 inches, and is of a most handsome, dark green type, so much admired by hotels, restaurants, etc. Texas growers, and in fact all Southern shippers are beginning to look upon this famous new variety as the acme of perfection. The flesh is of a white, crisp and appetizing quality, bringing extra high prices on the market. We urge you to try them this season. Pkt 15c; 2 pkts 25c; oz 35c; 4 lb \$1.10; 1 lb \$3.25; postpaid.

TEXAS WINS THE 1906 PRIZE.
 Mr. Ed Eskew, of Harris Co., Tex., was awarded the \$25 cash prize for the largest and longest NICHOL'S "GREEN BACK" CUCUMBER grown last season. Measurements of the largest specimen were: Length, 26 1/2 inches; circumference, 12 3/4 inches.

Pride-of-Denmark Cauliflower.

ST. L. S. CO'S

"NEW COLORADO QUEEN" MUSKMELON

The new Muskmelon which we offered last season, and which took the country by storm. Melon-growers are enthusiastic in praise of this new, sweet green-flesh variety. Owing to its well-ribbed, heavily netted, compact form, it has proven to be one of the best shipping varieties. It grows larger than the Hackensack, almost round, being a trifle flat at the stem end. Its handsome appearance far supersedes anything ever before seen in the Muskmelon world and will prove a bonanza to the market gardener. It is the melon that those who want to grow melons for money and profit, are looking for. It is one of the earliest melons in cultivation, and, in fact, is a close second to our new introduction, Burrell Gem. Price: pkt 10c; oz. 20c; 1/4 lb. 65c; postpaid.

St. L. S. Co's New Burrell Gem Muskmelon.

PRIDE-OF-DENMARK CAULIFLOWER.

THE EARLIEST FORCING VARIETY IN EXISTENCE.

We challenge anybody any place to produce the equal of this new Cauliflower wonder. It is the finest, the handsomest and the earliest Cauliflower in the world, as well as the largest species ever discovered. It is gorgeous beyond description. Its color is snow-white, and its growth is of the most compact form. For an outdoor variety it cannot be surpassed. You who have been planting the Dwarf Erfurt and Snowball varieties should give this new introduction a trial this season; it will surprise and please you beyond doubt. Price: 1/2 pkt 20c; pkt 35c; 1/4 oz. \$1.50; 1/2 oz. \$2.75; oz. \$5.00; postpaid.

NEW GREEN ERFURT SPINACH

New Green Erfurt Spinach, which we introduced last season, is distinguished for its supreme hardness, it being thoroughly acclimated to any section, and when other varieties have attained their over-season yellow color. "Green Erfurt" is as green, fresh and crisp as at the beginning of the season. The leaves are very thick and broad and grow in immense clusters; in fact, it is a great acquisition, and by far the most valuable either for the home or market use. Try it this season and see the beautiful large crop of Spinach you will have to offer to your trade. Price: oz. 10c; 1/4 lb. 20c; postpaid.

See Wholesale Pages for Prices in Larger Quantities.

New Colorado Queen Muskmelon.

ST. L. S. CO'S

NEW BURRELL GEM MUSKMELON

When we offered our "New Colorado Queen" last season, we offered the best there was at that time. This season in our New Burrell Gem we offer you the best there is at present, or ever has been, and we doubt very much if such another melon as this will ever be originated. The originator shipped in a supply to the St. Louis market last summer, and the demand became so great for them that the commission men could not supply the trade. Consumers gladly paid 20 and 25 cents each for the New Burrell Gem in preference to paying 5 and 10 cents for "Rocky Fords." After sampling this famous melon we immediately closed a contract with the originator for all of his stock, seed, etc., and are now pleased to be able to offer it to our customers as long as it lasts. It cost us an enormous price, but we are going to give you the benefit of this new offering. The flesh is of the most handsome salmon color, the skin of a beautiful netted dark green; it is shallow ribbed and shaped similar to the Rocky Ford, only larger, and is much more productive; the appetizing taste creates a hankering for more, the flesh being so luscious and sweet that it fairly melts in one's mouth like ice cream; in fact, it is the greatest, the grandest and the finest Muskmelon ever discovered. Gardeners can make at least one-third more money out of this new introduction than out of any other melon ever offered. Order early; stock is limited. Price: pkt 10c; 1/2 oz. 15c; oz. 20c; 1/4 lb. 65c; postpaid.

St. L. S. Co's Round Top Market Beet.

We will wager you never raised or saw the equal of our **New Round Top Market Beet** before. We never have, and we have searched the country over, and again we claim it is the best and finest Beet ever introduced. Gardeners everywhere who tried it last season are wild in their praise of this magnificent new species. Last season when we offered to you for the first time we told you it would eclipse any Beet ever before discovered. Did our prediction come true? Well, we just wish we had space to reproduce some of the well deserved reports of this, the King of all Beets. In make-up it is a beauty. It has a very small tap root, as well as an exceedingly small top, and for early market it cannot be equalled by any beet ever offered. The color is of a deep blood red, very fine grain, and of an unsurpassed quality. Owing to its small tops it is a valuable beet for winter use. In short, we offer it as the most valuable and profitable beet ever grown. Price: Pkt 10c; oz 15c; ¼ lb 30c; postpaid.

We will always appreciate it if you will send us names and addresses of gardeners, in order that we may send them our Catalog

Our Greatest New Beet Offering. The Beet that more than pleased over **250,000** Gardeners last Season.

St. L. S. Co's Round Top Market Beet.

Our Seeds are "PURE and SURE." Jersey Cream Lettuce

JERSEY CREAM LETTUCE.

Another one of our successful New Offerings Last Season.

This is the finest, the most brittle as well as crispest Lettuce it has ever been our good fortune to see; it is remarkable for holding on through the hot, dry season, and is a sure money maker for the gardener. This delicious variety is of the cabbage type; the heads are solid and of great size; the leaves are rich, creamy flavored, hence the name, "Jersey Cream Lettuce." Our illustration can but give a very faint idea of this remarkable new variety; in fact it cannot be overestimated or overpraised, whether for home or market use. It will pay everyone to sow a bed of it this season. Pkt 10c; ¼ oz 25c; oz 40c; postpaid.

ST. L. S. CO'S New American King Cabbage.

This is the famous Cabbage that has set the entire country to talking. Introduced by us in 1904, it has met with universal praise everywhere, mammoth, solid heads, weighing from 25 to 30 pounds are common sights in a field of this wonderful late Cabbage. We could not offer you anything better if we had the world's entire output of cabbage to select from. This great Cabbage is without exception the best variety ever offered. Its chief points of merit are its absolute reliability as a sure cropper, its uniformly large size of head, its great drought and worm-proof qualities, its sturdy constitution and its long standing character. In all points it excels by far all other late Cabbage. A very prominent and distinct feature of the AMERICAN KING is the small number of ribs and their remarkable smallness in size. This stamps it of the highest table quality, whether for boiling, slicing or kraut. It is ready for use quite as early as any other fall Cabbage, but if allowed to stand in the field it will continue growing until it assumes an immense size. We cannot too strongly urge you to raise a crop this season whether you grow for market or home use. This marvelous new Cabbage will pay and surprise you beyond doubt. Pkt 10c; ¼ oz 25c; oz 40c; ½ lb \$1.30; postpaid.

For larger quantities see Wholesale Pages.

St. L. S. Co's New American King Cabbage.

The Two Greatest New Peas.

Look for the Flower

St. L. S. Co.'s New French Market Pea.

ST. L. S. CO.'S NEW FRENCH MARKET PEA.

This is the new pea which we offered last season and which at once became famous everywhere. We recommended it as the Ideal Pea and it more than surpassed our predictions as a second Early Wrinkled Sort; it is a close second to Our New Offering this season, "Nichol's Delight." It is a mommoth yielder, exquisite in taste and appearance and an enormous yielder. Gardeners say they never saw anything like it before, in fact it is the gardeners' friend and a

Second Early Pea that has demonstrated that it is a wonder. One local gardener produced over 350 bushels of nice green large-podded Peas from one acre, planted with our New French Market Pea, last season. Need we say more? Height 2 feet. Pkt 10c; 1/2 pt. 15c; pt. 35c; qt. 60c; postpaid.

NICHOL'S DELIGHT PEA.

Of course every seedsman claims to have the best Pea; it is natural. But take our advice and plant this new Pea, now offered for the first time. All stock is controlled by us. We predict the name and fame of this wonderful earliest of all Big-Podded Wrinkled varieties will go down in history as the marvel of the present age. This new wonder is just as good for home as for market use. While it is a second early, yet it matures almost as soon as the early varieties and remains all through the main crop season. It is sweeter in flavor than any pea we have ever seen. It is an enormous yielder and of robust growth. It is thoroughly acclimated to either wet or drouth. The largest we have ever seen, the bushes being laden down to their fullest capacity. The handsome pods are always well filled and of uniform size and shape, there usually being from 10 to 15 peas to a pod. We are sure that everyone who tries this new Pea will be "delighted" beyond doubt. We urge everyone to plant freely of it this season. Height 3 ft. Price: pkt 10c; 1/2 pt 15c; pt 35c; qt 60c; postpaid.

Nichol's "Delight" Pea.

NEW FIREBALL RADISH.

As its name indicates it is a "Fire Ball" both in growth and appearance. Radishes 12 days from the time of planting is its record. Can you beat it? Did you ever hear of such a marvelous growing Radish? Market gardeners, here is your chance; plant some of these new Radishes to-day and take them to market in a couple of weeks. Their beauty and crispness will demand fully 50 per cent higher price than any radish you have ever sold. Think what this means. "Fire Ball" is one of the most handsome Radishes ever discovered. We consider ourselves extremely fortunate at being able to offer you such a magnificent forcing Radish, and it is now offered to the world for the first time. If you are anxious to have radishes 8 to 10 days ahead of your neighbor, here is your opportunity. Its rich, crisp, brittle flavor with its remarkable good growth and fine pinkish red color will make it a universal favorite. Price: pkt 10c; oz 15c; 1/4 lb 40c; postpaid.

St. L. S. Co.'s "Fire Ball" Radish.

NEW WHITE PEARL FORCING RADISH.

The New White Radish without a peer; without a rival, offered by us two seasons ago, it has proven itself "The long felt want." Gardeners are enthusiastic in praise of its wonderful merits; everyone says they never saw its equal. If you did not try them last season, do not fail to do so this year. This wonderful new Radish is of the famous half-stump rooted class. It is of a pearly white, appetizing color, being very crisp and brittle. For a forcing and early marketing Radish it is superior to any other white sort, and will prove a money maker for gardeners everywhere. It does not become hollow or pithy and remains in eatable condition longer than any other Radish before going to seed. Price: pkt 10c; oz 15c; 1/4 lb 40c; postpaid.

MUSHROOMS.

One pound of spawn will plant about 10 sq. ft.

MUSHROOMS are one of our greatest specialties. We believe we fill more orders for spawn than any other two houses. Mushroom-growing is fast attaining a front rank as one of the greatest money-making industries. From coast to coast the press is warmly advocating its culture, therefore our reason for listing it in such a prominent place in our catalog. Mushrooms can be easily grown in any cellar, save or under benches in greenhouses. They are always in big market demand and bring fairly market prices. **Beware** of the so-called Mushroom concerns who get your money and send you old "bog" for spawn. Our spawn is the genuine, the best obtainable.

TISSUE CULTURE SPAWN—The famous American spawn which Mushroom growers are fast announcing as being superior to the imported stock. Price: 30c per lb.; postpaid; by freight or express: 1 lb. 20c; 2 lbs. 35c; 10 lbs. \$1.50; 100 lbs. \$12.00.

ENGLISH MILLTRACK—The celebrated old standard imported spawn, too well known to need any introduction. Price: 25c per lb.; postpaid; by freight or express: 1 lb. 15c; 10 lbs. \$1.00.

Mushrooms Growing in a Cellar.

CHINESE GIANT PEPPER.

The largest and handsomest Pepper in the world, twice the size of its nearest rival. Chinese Giant Pepper is indeed a wonder; it has certainly "knocked-out" all other Peppers, not only in size but in general. Its magnificent appearance makes it a leader wherever shown. The plants are stocky and of the most vigorous growth, growing to a height of about 2½ feet. They are well branched and immensely productive, often 6 or 8 peppers in a cluster, as if in a single bunch. It yields nearly as early as the famous "Ruby King." Peppers are of a blocky form and of the most pleasing, glossy scarlet coloring. They grow to the enormous size of 5 to 6 inches across the top. The flesh is very mild and sweet and also very thick. Makes an excellent salad when sliced and served like tomatoes. It is undoubtedly the finest Pepper ever offered. Price: pkt 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.40; postpaid.

NICHOL'S EARLY CASH TOMATO.

The Earliest and Handsomest Tomato Ever Discovered. The new Tomato which we offered for the first time last season. It is the Tomato that canning experts predict will become the leading standard sort ere another season; in fact, Early Cash we concede as being the earliest large, smooth blood-red Tomato in existence. It is simply impossible to describe the good qualities of this new garden wonder, originated by our Mr. Wm. F. Nichol, the world's greatest Tomato specialist, who a few years ago discovered, standing upright, towering far above the other sorts of Tomatoes that were in the same testing patch, a bush of beautiful appearance. Upon investigation he discovered that its fruits were of superior merit and altogether different from its predecessors. A couple of years' hybridization, with careful study, brought around this, the

REPORTS WANTED FROM GROWERS.
 We would be obliged to every one who tests our new offerings this season to report their results at the end of the season. We know that you will be more than pleased with everything you try.

KING of all Tomato Offerings.

We introduced it last season, and the demand for the seed was phenomenal. Gardeners realized that it was the Tomato they had been in search of, and some wrote us that they would not begrudge us \$25 a pound for the seed, were it necessary. In short, enthusiastic letters are at this writing coming in from all quarters of the globe. The flesh of this new variety is very solid; the fruit is very large and the growth uniform, and as a productive yielding Tomato it cannot be surpassed. We urge our customers everywhere to give this new marvel at least a trial this season. Price: pkt 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.40; postpaid.

New Flower Seed Novelties for 1907

BRAZILIAN WISTARIA.

Our Greatest New Climbing Novelty. Now offered for the first time in America. A beautiful, rapid, hardy climber that is exquisite beyond description. For decorating the home it cannot be equaled; it clings to bricks, stones, trees, etc., with the texture of a venom, and must be seen in all its splendor and beauty to be appreciated, for making verandas and cozy corners it is unsurpassed. The flowers are of a handsome brownish coloring, tipped with gorgeous yellow wings of the most delicate hue. It really produces clinging vines 15 to 20 feet in length from seed the first season, and for a shady creeper will readily demonstrate its superiority over all other climbing vines. Pkt 10c; oz. 25c; postpaid.

NEW SWEET PEAS FOR 1907.

(See Page 108 for Standard Varieties.)

COUNTESS SPENCER.

One of the finest new Sweet Pea offerings of modern times. The stems are unusually long and the flowers produce such an exquisite contrast to the common sorts that there can hardly be any comparison. Pkt 10c; oz. 15c; ¼ lb. 35c; postpaid.

GLADYS UNWIN.

Another new offering that will ere another season lead all crinkled and wavy wing varieties. Color a beautiful rose-pink, and an unusually prolific bloomer; excellent for cut flowers and bouquets. Pkt 10c; oz. 20c; ¼ lb. 60c; postpaid.

FLORA NORTON.

This is a beautiful rich light lavender, entirely free from any mauve or pinkish tinge. The flowers are large and of fine form, borne three on a stem and all facing one way. It is the most delicate and pleasing shade for florists' use as a cut flower. Pkt 5c; oz. 15c; ¼ lb. 30c; postpaid.

MRS. GEO. HIGGINSON, JR.

One of the most beautiful light blue Sweet Peas ever offered. This is the new variety our growers have been experimenting with for years to perfect. It is one of the ideal sorts for florists and is a decided novelty. Pkt 10c; oz. 15c; ¼ lb. 35c; postpaid.

NEW NOVELTY SWEET PEA MIXTURE.

In offering you this mixture of all the latest introductions, including the above varieties, we do so with the knowledge that every Sweet Pea lover will be enthusiastic at the opportunity of producing an assortment of colorings at a nominal cost such as could not be secured in any other way. Each and every variety in our New Novelty mixture will be found the finest and choicest in the Sweet Pea world. Pkt 10c; oz. 15c; ¼ lb. 35c; postpaid.

Brazilian Wisteria.

New Glandulosa Aquilegia.

In offering you this new strain of the Aquilegia or Columbine family, we do so with a feeling of pride, knowing that the flowers of this new variety will please you beyond doubt.

The flowers of this new strain are greatly enlarged, and the range of colors of the flower is of a most delicate blue, the Corolla being pure white. They, of course, are hardy perennials, luxuriating in the moisture situations in the garden, where they form permanent clumps, growing from 1 to 1½ feet high. The large, unique, long-spurred flowers, gracefully hang on long stems, are not only brilliantly effective on the plant, but equally as desirable when cut for vase and house decoration. Pkt 10c; postpaid.

St. L. S. Co.'s New Liliput Helianthus.

This beautiful new dwarf variety of miniature Sunflower which we introduced last season is fast becoming the most popular Helianthus ever offered. Being of

a very compact habit, it has a creeping growth, similar to verbena. The plants attain a height of from 6 to 8 inches and measure from 12 to 15 inches in diameter. The flowers are bright yellow, showing in the center a dark disk. Sow about the beginning of April in frames or in pots. By the beginning of May the young plants can be transplanted.

Price, per pkt. 10c; postpaid.

Liliput Helianthus.

St. L. S. Co.'s New Chancellor Verbena.

This splendid new variety, as illustration shows, is a very dwarf compact growing Bush-Verbena with large trusses of pure flesh-colored flowers, a shade previously unknown in this class. Excellent for dwarf beds and borders, and in fact superior to any of the other verbena family, it producing mammoth trusses of flowers of unusual size and coloring, the colors embracing all the most desirable markings, and are very fragrant. We offer this new variety with the assurance of it more than pleasing anyone who plants it. Price per pkt 15c; postpaid.

The Bridal Robe Chrysanthemum.

In this beautiful new Chrysanthemum we offer you a variety that is as distinct as it is beautiful. Of very compact and upright habit, its good growth not exceeding 10 inches in height, the sturdy plants throw out their finely feathered foliage from the base and deck themselves with a mantle of extra double pure white flowers.

New Bridal Robe Chrysanthemum.

Glandulosa Aquilegia.

St. L. S. Co.'s New Dianthus, SNOWDRIFT.

Our new Snowdrift may be classed the Ideal Dianthus. Its robust and freely-branching plants grow about a foot high and most of them throw up a multitude of strikingly large flowers, 3 to 4 inches across, very double and with finely lacinated petals of the purest white, the effect in the mass being that of thickly scattered clusters of snowflakes. Many of the visitors to our trial grounds last summer were greatly impressed with this novelty, everyone being of the opinion that it will soon become the favorite Dianthus everywhere. Price per pkt 15c; postpaid.

New Chancellor Verbena.

With their short closely-set petals the latter recall the finest forms of very large-flowering double Daisies and appear in such number that a

large bed in full bloom may well be compared to a drift of snow. Chrysanthemum Bridal Robe; from seed, has certainly proven a bedding plant of the very first rank, while also useful for pot culture, and considering the long time the flowers last when cut we safely predict for this new Chrysanthemum a future never before equaled. We urge our customers everywhere to give it a trial this season. Price per pkt 20c; postpaid.

 New Fall and Winter
BULB CATALOGUE

Ready Sept. 1st.

IT'S FREE.

St. L. S. Co.'s NEW FOREST PARK PETUNIA

This wonderful new petunia, which we introduced last season, met with universal satisfaction everywhere. It is a strain of incomparable beauty, size and luxuriance. Most of the flowers are exquisitely ruffled or fringed on the edges, and are of enormous dimensions, but their great merits lie in the tremendous varieties of colors, markings, veinings, blotches and stripings, in the most grotesque and beautiful combinations; some with charming deep throats of yellow, white, black, green or maroon, running off into intricate veins. Some of the colors are rich and gorgeous and others of lovely delicate shades. This new offering has revolutionized the petunia growing everywhere. Pkt 25c; postpaid.

St. L. S. Co.'s KING ALPHONSO PETUNIA.

The most beautiful petunia of the Grandiflora Superbissima class, it produces flowers of a very dark crimson color, and are boldly waved and frilled to such an extent that the widely-opened, brilliant black throat of the flower is often almost concealed, as the illustration shows. This new petunia is almost without comparison. Price: Pkt 25c; postpaid.

Forest Park Petunia.

St. L. S. Co.'s New Petunia, King Alphonso.

NEW "RHEINGOLD" PETUNIA.

This is the greatest and the grandest of the large-flowering petunias. It has very large flowers, of noble shape, whose widely-opened throat, far up towards the outer margin, is steeped into a clear bright golden yellow, untarnished by the usual net of dark veins, and which with the pure white margin is of a most marvelous effect. In fact it is the most gorgeous petunia ever discovered, and is now offered for the first time, and no lover of petunias can afford to be without the "Rheingold." Price: Pkt 25c; postpaid.

SPECIAL—We will send the above 3 pkts of Petunia for only 60c; postpaid.

IMPROVED VICTORIA ASTERS.

This new strain produces magnificent flowers, massive and showy, with regular overlapping petals double clear to the center. The flowers measure 4 to 5 inches across, and the colors include many extremely delicate and some gorgeous shades. The plants grow very evenly, about 18 inches high, and carry from 25 to 40 flowers on a plant. Perhaps the handsomest asters, taken all in all, for size, color and profusion of bloom are our new Improved Victoria. (See cut.) We can supply the above strain in the three following colors: *Lavender, white, pink and mixed.* Pkt 10c each; postpaid.

St. L. S. Co.'s NEW HOHENZOLLERN ASTER.

Our great new offering in asters last season surpassed any former varieties ever introduced. Our New Hohenzollern we consider the finest aster ever discovered. The plants are tall-growing, the flowers branching and bearing in profusion on very long stalks of from 1½ to 2 feet in length, measure up to 8 inches across, being densely double, finely curled and bearing the greatest resemblance to a large-flowered Japanese chrysanthemum. It is much superior to the Giant Comet or Ostrich Feather type of asters, being much larger. We cannot too strongly praise the wonderful merits of this new aster. Try them this season and be convinced. **Fine Mixed,** price per pkt 10c; postpaid.

St. L. S. Co.'s WHITE HERCULES ASTER.

Originated by the discoverer of the "Hohenzollern" aster. It is a beauty, and we are proud to be able to offer it to our customers again this season. The plants throw up a very strong stem, 15 to 20 inches high, which begins to branch about 4 inches from the ground and bears at its summit the main central flower, while on the side shoots appear 4 to 6 secondary blooms. The latter, borne on remarkably strong stalks, are all of the purest white, with very long petals, and attain the enormous diameter of 6 to 7 inches. It is excellent for pot culture, and yields also splendid flowers for cutting. It also makes fine groups in the open ground, and for exhibition purposes it simply cannot be surpassed. Price per pkt, 15c; postpaid.

Improved Victoria Aster.

Rainbow Linaria.

BUTTERFLY RUNNER BEAN.

One of the most beautiful new climbing flowers. The vine is also extremely floriferous, its leaves, of a somewhat lighter green than other runners, almost disappearing beneath the clusters of charming flowers which gracefully rise and fall, like butterflies, in the passing breeze. The seed also is distinct, being mottled brown on white ground. In the Butterfly Bean we have a beautiful new plant both for the kitchen and pleasure garden, which answers the purpose of both, viz.: The flowers and vine being exquisite for beauty, and the fruits or beans being of the finest cooking variety. Hence we have a flower that is both useful and ornamental. Price, per pkt, 15c; 2 pkts 25c; postpaid.

Butterfly Runner Bean.

ST. L. S. CO.'S MIGNON-ETTE "RED GOLIATH."

Our Mignonette offering which we introduced last season we believe is the finest obtainable, it being by far superior to anything we have ever seen heretofore. The spikes of flowers are immense, measuring 6 to 8 inches long by 2½ inches in diameter, and are compactly filled with giant florets, measuring ¼ inch across and packed full, even in the center, with anthers or three times as many as other Mignonettes; hence making this variety a double Mignonette. The color of the florets—fire red—is strengthened on account of the density of the florets and spikes, thus presenting almost solid columns of brilliant red, effectively contrasted against the healthy, rich green foliage. The fragrance is delightfully rich and powerful. For cutting it is perfection, remaining fresh for 8 to 10 days in water. For an ideal "Show Flower" it is unsurpassed. Price, per pkt 10c; postpaid.

ST. L. S. CO.'S NEW RAINBOW LINARIA.

This new creation presents all the colors of the rainbow. It is indeed a flower of wonderful merit, not only in coloring, but in its habits as well. Our new "Rainbow" Linaria contains all the shades ranging between dark violet and light blue, dark crimson and pink, also various pure yellow tints. It can be sown direct in the open ground as well as in frames. It can be planted out later on or be cultivated in pots. It will render itself indispensable for every amateur and we warmly recommend it to every lover of flowers. In fact it is one of the finest annuals we ever introduced. Offered last season for the first time. Price, per pkt 10c; postpaid.

"Red Goliath" Mignonette.

Japanese Kudzu Vine.

The beautiful new Ornamental and Rapid Climbing Vine which we offered last season met with such universal praise that we have no hesitancy in urging our customers everywhere to try it. See Page 84 of this book for illustration and full description. We can supply you with either the roots or seeds. Seeds, per pkt 10c; 3 pkts for 25c; postpaid. (See page 84 for prices on roots.)

St. L. S. Co.'s Gilt Edge Nasturtium Mixture.

Our new offering of Dwarf Bedding Nasturtiums this season is without doubt the finest assortment ever offered, and bloom continually all season. We have spared neither time nor expense in producing the finest strains of the dwarf varieties to add to our new "Gilt Edge" Mixture, which yields an endless collection of colorings of the most delicate hue. It matters not whether you have room for a single bed or a flower garden, it will pay you to give preference to this Mixture above all other flowers. Price, per pkt 10c; oz 20c; postpaid. See page 112 for full list of Nasturtiums.

St. L. S. Co.'s Gilt Edge Nasturtium Mixture.

Our Business Grows Because Our Seeds Grow

Our Great Pansy Offerings

Introduced by us last season for the first time. The Greatest, the Grandest, the most Brilliant Colorings of Pansies ever discovered.

Beautiful Beyond Description.

Miss Elsie Wetmore, of Yuma Co., California, writes:

"Words cannot express the exquisite beauty of your three new Pansies."

Mrs. J. Edmond Hynes, of Allegheny Co., Pa., writes:

"The three new Pansy novelties produced the most gorgeous flowers I ever saw."

Mr. Oscar D. Nicholson, of Cook Co., Ills., writes:

"The new Pansy novelties which I purchased from you last season, won prizes galore wherever exhibited."

Unsolicited Testimonials Substantiate Every Claim.

St. L. S. Co.'s New "Adromeda" Pansy.

One of the Finest Introductions Ever Offered.

So beautiful and pure is this striking beauty that words cannot do it justice. So enthusiastic are we over our new Pansy offerings that we know every lover of flowers will not fail to plant the varieties listed on this page. They compose the finest strains and types ever discovered by man. A glance at the illustrations will convince any Pansy lover.

Our new "Adromeda" we concede as an Ideal Pansy in every respect, owing to its elegant and remarkable beauty. This pretty flower is striking by its gay color and elegant habit, and will in shortest time win the favor of all. Its color is a very delicate apple-blossom, generally showing a soft lavender blue or rosy lilac hue, rendered still more effective by a somewhat darkening, it comes true from seed and is light-resp, white-seeded.

Pkt. 20c; Postpaid.

Miss Jessie Rickards, of Queens County, N. Y., writes:

"I have seen a great many new Pansy species at floral exhibitions, but I have never equaled your new offerings."

Joseph J. Johnson of Sussex County, N. J., writes:

"Your three new Pansy introductions are wonderful. They are beyond comparison."

Miss Catherine Dowell of Jackson County, Texas, writes:

"It is impossible to describe the beauty and color contained in your new Pansy offerings."

St. L. S. Co.'s

NEW EXHIBITION PANSY

This wonderful Giant Pansy we offer as our leader. We challenge its equal from any seed house, grower or originator. We know it is impossible to procure a plant anywhere near its equal in any respect. You will never have known the pleasure of flower-growing until you have tried this splendid new offering. We control the entire stock of this new wonder, which is produced for us under the skilled eye of Europe's most successful Pansy specialist. The colorings of this new Pansy are mixed, there being no end to the numerous shades which nature has endowed upon this gigantic marvel, every detail being a veritable display of shades and coloring in itself. Price per pkt. 25c; postpaid.

St. L. S. Co.'s NEW ORCHID FLOWERED PANSY.

What we have said regarding the two new Pansies above does not conflict with this variety in the least; in fact, no other Pansy ever offered does or can conflict with this special new strain, it standing as it does in a class by itself, it may be termed, "The Pansy without a rival," it being different from all the rest. It is a most interesting type of varieties of the Giant Flowered variety, containing a mixture of the most surprising, novel, unique and beautiful color combinations. The ground color of nearly all the flowers is in light shades, the petals are marked with large brown or golden yellow blotches. The upper petals are upright and of a sort of plaited which gives the flowers their resemblance to orchids. The colors range in the various shades as well as in the flesh, orange, rose, pink and lilac. Price per pkt. 20c; post paid.

ASPARAGUS.

One ounce will sow about 50 feet of drill.

Sow seed very early in the spring in a bed of light, rich, well-manured soil. If sowed in drills, make them one foot apart and sow two inches deep. After the plants are well up thin out to one apart. A bed ten feet square will produce enough for a large sized family. No garden is complete without asparagus.

COLUMBIAN MAMMOTH WHITE—This variety is the most popular of the asparagus family. Very early and robust. Stalks are very thick, tender and succulent, and is not, without exception, superior to any other known variety. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

PALMETTO—A close second to our famous Columbian White Mammoth. An enormous yielder, very tender and appetizing, producing large, clear stalks of excellent quality. Very early. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

CONOVER'S COLOSSAL—The famous old standard variety, a rapid grower and a large stock producer, luscious and tender; too well known to need any introduction. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

ASPARAGUS ROOTS—Columbian Mammoth and Palmetto—Postage extra 5c per doz. 2 year old, doz 20c; 25, 30c; 100, 65c; 1,000, \$4.50. 1 year old, doz 10c; 50c; 1,000, \$3.50.

ARTICHOKE.

The artichoke is cultivated for its flowering heads, which are cooked when in their young state like asparagus. Sow seed early in hotbeds or in boxes, and when weather turns warm transplant in rows four feet apart and two feet in a row.

GREEN GLOBE (Seed)—The choicest of all varieties; very hardy, also early, tender and delicious. Pkt ½ oz 15c; oz 25c; ¼ lb 80c; postpaid.

JERUSALEM ARTICHOKE (Tubers) We cannot fill orders for artichokes before April 1st. All artichokes will be shipped by express, unless ordered shipped by freight. Pk 50c; bu (50 lbs) \$1.25; 5 bu @ \$1.10.

BROCCOLI.

One ounce will produce about 3,500 plants.

For a fall crop sow seed early in spring, and for early summer use sow seed in September; transplant in cold frames about Nov. 1st. Early the following April transplant to open ground.

EARLY WHITE—Sown extensively by gardeners and truckers; recognized as the leading variety. Pkt ½ oz 15c; oz 30c; ¼ lb 90c; postpaid.

RUSSEL SPROUTS.

One ounce will produce about 5,000 plants.

Are the very best winter vegetable. Frost seems to improve the delicious flavor instead of injuring. The plants may remain in the open ground until desired cooking. Their eating is a fine, healthy habit. Not surpassed by even the finest cauliflower. Very thrifty.

ROSEBERRY—The choicest and most productive variety. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 50c; postpaid.

Gray-Seeded Early Winter Cress.

Columbian Mammoth White.

CORN SALAD. (Fetticus.)

One ounce will sow 50 feet of drill.

A favorite for early "greens." By sowing in the fall and protecting during winter with leaves or straw, it can be gathered very early in the spring. However, if planted in April it is soon ready for use. Sow in rich, loamy soil, watering occasionally with warm water.

LARGE LEAVED—The hardiest, earliest and most appetizing variety grown. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

Jerusalem Artichoke.

CHICKORY.

One ounce will sow about 15 square feet.

CHICKORY is extensively used in some parts as a substitute for coffee. The cultivation being similar to carrots. The roots should be dug up in the fall and stored away to dry; cut up in small pieces and grind like coffee, roasting previously.

LARGE ROOTED—The finest flavored and hardiest growing variety. Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 25c; postpaid.

COLLARDS.

One ounce will produce about 2,500 plants.

A FAVORITE in the South, where Collards are used extensively for "greens." Collards grow in the form of a loose-headed cabbage.

GEORGIA or SOUTHERN—The standard sort for productiveness. Very hardy and appetizing. Pkt 5c; oz 10c; ¼ lb 30c; postpaid.

CRESS.

One ounce will sow about 15 square feet.

CRESS. One of the most useful plants for "greens" or salads. Should be sown in a hotbed or sheltered spot; sow quite thick in shallow drills, and in a short time it will be fit for cutting.

TRUE WATER—Thrives best in shallow water on the edge of streams. Pkt 5c; ½ oz 20c; oz 35c; ¼ lb 90c; postpaid.

CURLED—Peppergrass—This little salad will bear cutting several times; used mixed with lettuce its leaves impart an agreeable warm, pungent taste. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

GRAY-SEEDED—Early Winter—Does well on upland. Similar to water cress in quality and appearance. Thrives in the cool fall months. Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 35c; postpaid.

BEANS.

CULTURE.—Plant about 2 inches deep in rows 18 inches apart and about 8 inches apart in the row. For field culture, plant in drills about 2½ feet apart, so as to cultivate. Stir the ground thoroughly before planting.

GREEN PODED BUSH VARIETIES.

One quart will plant row 100 feet long; one and a half bushels will plant one acre.

Green Podded Bush Varieties are the earliest and most hardy, being a strong favorite for market purposes everywhere. For best results, the following main varieties in this class are looked upon as leaders, and well they may be, as each and every variety listed is of superior stock and is a sure money-maker for the grower, as well as ideal varieties for home use.

St. L. S. Co's GIANT STRING-LESS GREEN POD

—The largest, the handsomest and the most prolific of all the stringless varieties. Pods are very large, round and meaty, and for market gardeners this variety is a money-maker. Very early, a sure cropper and an ideal bean for market or home use. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

St. L. S. Co's Giant Stringless Green Pod.

STRINGLESS GREEN POD—A smaller pod than the above variety, but of a quality that cannot be surpassed. Very early; in fact, one of the best varieties that can be produced. Pkt 5c; ½ pt. 15c; pt. 20c; qt. 35c; postpaid.

St. L. S. Co's EXTRA EARLY RED VALENTINE—This year we offer an unusually select stock of this famous Snap Bean. For earliness, productiveness and appetizing quality, it surpasses any other known Podded Bush variety. It is a strain that we highly recommend, and we urge our customers everywhere to plant freely of this unexcelled bean. Pkt 5c; ½ pt. 15c; pt. 20c; qt. 35c; postpaid.

St. L. S. Co's LONGFELLOW (Private stock.)—This wonderful early, exceedingly prolific, long green podded Bean which we offered a couple of seasons past, has met with such wonderful praise and comment that we again offer it as the gardener's favorite. For productiveness and hardness it stands second to none; in fact, our customers almost combine in pronouncing it superior to any other Bean they have ever seen. It is perfectly round, straight, solid, and with fleshy pods averaging from 6 to 8 inches in length. It is perfectly stringless when young; with a flavor that is most delicious. It is the Bean that is fast captivating the entire country. Pkt 10c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

EARLY MOHAWK—For earliness and its great yielding qualities, this famous variety needs little, if any, introduction among market gardeners. Everywhere it is recognized as the standard and as a money-maker, always being one of the first on the market. Gardeners everywhere plant freely of this variety. Pkt 5c; ½ pt. 15c; pt. 20c; qt. 35c; postpaid.

LONG YELLOW SIX WEEKS—Very early and prolific; a favorite variety; pods grow very long, are green, tender and flat. They are excellent for market and should be picked when young. Pkt 5c; ½ pt. 15c; pt. 20c; qt. 35c; postpaid.

EXTRA EARLY REFUGEE—Two weeks earlier than Early Refugee, grows larger, yields bigger, is very hardy and a sure cropper; is of a very appetizing flavor and quite stringless. We believe this bean to be the best for summer sowing. Pkt 5c; ½ pt. 15c; pt. 20c; qt. 35c; postpaid.

REFUGEE OR 1000 TO 1—A favorite canning variety, very popular and always in demand; big round pods, an enormous yield and an ideal late variety. Pkt 5c; ½ pt. 15c; pt. 20c; qt. 35c; postpaid.

ROUND YELLOW SIX WEEKS—An excellent, early and hard variety. The pods growing long, are very meaty, and remain green and stringless until full grown. Pkt 5c; ½ pt. 15c; pt. 20c; qt. 35c; postpaid.

WHITE NAVY—The famous little white souf bean that needs no further introduction. An ideal variety for garden or field culture. Very prolific and a sure cropper. Pkt 5c; ½ pt. 15c; pt. 20c; qt. 35c; postpaid.

WAX PODED BUSH VARIETIES.

DAVIS WHITE WAX—This famous Snap Bean is of a very hardy and productive nature; of handsome appearance and entirely rust-proof; pods grow long, straight and waxy white with a crispness, when cooked, that is simply delicious. This Bean is one of the market gardeners' favorites. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 45c; postpaid.

IMPROVED GOLDEN WAX—An ideal variety, similar to the above; very productive; should be used while young. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 45c; postpaid.

DAVIS
WHITE
WAX

BEANS.

WAX PODDED BUSH—Continued.

St. L. S. Co.'s PENCIL POD, BLACK WAX

—Of all Black Wax Beans, this variety surpasses all others, yielding a beautiful long round pod of an exquisite rich yellow color and of a very tender, brittle and appetizing flavor. It comes in season with the regular wax sorts, but remains in picking condition much longer. For Market Gardeners as well as for Home use, it cannot be surpassed. Pkt 5c; ½ pt 15c; pt 25c; qt 45c; postpaid.

SCARLET FLAGEOLET WAX—One of Leading Varieties for Market. Pods long, flat and very tender. Quality is A No. 1 and very productive. Planted extensively in all Market Gardening neighborhoods, which speaks more for its good qualities than anything we can say. Pkt 5c; ½ pt 15c; pt 25c; qt 45c; postpaid.

WARDWELL'S KIDNEY WAX—Undoubtedly the Standard of all Late varieties. Used extensively for marketing purposes. Pods grow very large, are broad and of a striking color. An ideal variety for Late Marketing. Quality Excellent. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

PROLIFIC GERMAN BLACK WAX—This famous bean is too popular to need any introduction. Until the recent introduction of our celebrated "Pencil Pod" bean it was looked upon by many as

St. L. S. Co.'s Pencil Pod, Black Wax.

the standard. It is very prolific, as its name indicates, and of an ideal appetizing quality, and for an early market variety it is hard to surpass. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

CURRIE'S RUST PROOF WAX—The standard and ever popular early wax bean. Pods grow flat, straight and are very meaty and stringless. Owing to its immense yielding qualities, it is a very valuable variety for market gardeners. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

POLE VARIETIES.

Pole Beans are more tender than the wax podded or Bush varieties, hence should not be planted 5 or 6 Beans to each Hill 2 inches deep and 3 feet apart each way, stirring up the ground thoroughly before planting.

KENTUCKY WONDER OR OLD HOME-STEAD—Undoubtedly the earliest, most productive, and appetizing of all the famous old-time varieties, bearing in great quantities clusters of Light Green Pods, long, meaty and of an excellent flavor. This variety is planted extensively everywhere and we do not hesitate in saying it is one of the finest Snap Beans obtainable. Can be grown with corn to good advantage. Pkt 5c; ½ pt 15c; pt 25c; qt 45c; postpaid.

LAZY WIFE—The favorite Home Garden variety, rather late, but a Bean of a delicious, appetizing flavor. The pods are of a medium Dark Green color and grow from 5 to 7 inches in length. Each Pod is well filled, containing from 6 to 8 round White Beans. They are broad, thick, and very fleshy, and are entirely stringless, the pod retains its rich, tender and brittle qualities until nearly ripe, in fact it is an ideal variety for every Garden. Pkt 5c, ½ pt 15c, pt 25c; qt 45c; postpaid.

DUTCH CASE KNIFE—One of the best varieties, whether used as a Snap Sort or Shelled. Pods grow very large, flat and of an excellent quality; Dried Beans are of a Snow White color and cook easily, in fact it would be impossible to recommend this variety too highly. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

WHITE CREASEBACK—A pure white variety, very early, and an excellent shelled sort, used extensively for winter use. This is the old-fashioned popular Bean, which is often so difficult to obtain. Order early. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

MISSOURI WHITE CORN FIELD—A fine long, green, round pod of superior quality. Beans are white and mealy, a fine boiling or baking variety. Grown quite extensively for market gardening and home use. Pkt 5c; ½ pt 20c; pt 30c; qt 50c; postpaid.

RED SPECKLED CUT SHORT—The most popular sort for country planting, being an ideal variety for planting in Corn Fields, one of the best yielding varieties, and a No. 1 market bean. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

GOLDEN CHAMPION WAX—Undoubtedly this is one of the Best Pole Wax Beans that has ever been introduced, pods grow long and full; an immense yielder and a No. 1 Cooking variety. This Strain is too well known to need any introduction. Pkt 10c; ½ pt 20c; pt 30c; qt 55c; postpaid.

GOLDEN CLUSTER WAX—The old time favorite bean that we used to eat in our childhood. Very prolific, delicious flavor and an ideal variety for home or market use. Pkt 5c; ½ pt 15c; pt 30c; qt 50c; postpaid.

GOLDEN CARMINE—This wonderful new Early Pole Bean which we offered to our customers two seasons ago met with such universal demand that we look forward to its eclipsing all other varieties this season. Words of praise are pouring in from all sections, and we urge you to order early, stock cannot last long. Pods grow of a very large size, being mottled and streaked and of a brilliant carmine color, making it attractive and an ideal variety for market. Pkt 10c; ½ pt 15c; pt 25c; qt 50c; postpaid.

Gentlemen—"This will inform you that the Peach Blow Potatoes are at hand in good order. They are new varieties and have found their way to a new home, where they have never been seen before. Old people look at them with a look of wonder and a broad smile. The White Star Corn and Magnus Tomato seed are in good order too. Thank you"—Wesley Davis, Pulaski Co., Missouri.

Missouri White Corn Field.

Our Great Bean Offering.

St. L. S. Co.'s New Improved Bush Lima.

THE KEY TO

Gentlemen: "The Parrot I ordered of you has been with us one week today, and can discount any terrier in barking and says "Hello," "what," and a few other simple words. We think a great deal of our bird, and money would hardly buy it."

J. T. Whyte, Prairie Co., Ark.

SEE FARM SEED DEP'T FOR OUR NEW MARROWFAT BEAN. THE IDEAL FIELD BEAN. Superior to the famous Boston or White Navy.

LARGE WHITE LIMA—The old-time favorite, adapted both for market and home use. One of the best; in fact, it ranks close to King of the Garden. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

EXTRA EARLY JERSEY LIMA—The earliest Lima Beans in existence, being about two weeks earlier than other varieties; beans are nearly as large as the later sorts, and for cooking and eating they are a close second to our famous strain of King of the Garden Lima. Pkt 5c; ½ pt 15c; pt 25c; qt 50c; postpaid.

Small White or Sieva.

Grown extensively in the South. Smaller but earlier than large White Lima. Very appetizing and of a delicious flavor. Pkt 5c; ½ pt 15c; pt 25c; qt 45c; postpaid.

BROAD WINDSOR (English Bean)—The Englishman's favorite, grown and prized in their native land as much as the Lima is in America. Should be planted early in a rich, loamy soil. Is of a very delicious and appetizing flavor, and sure to please the most epicure. Pkt 5c; ½ pt 20c; pt 35c; qt 60c; postpaid.

Nichol's Genuine Butter Bean. Undoubtedly the finest of all rivals. A heavy cropper, and of a delicious flavor. Read full description on yellow pages, and order at once. The demand will exhaust our stock long before the planting season is over. *The favorite old time variety.*

BEANS.

BUSH OR DWARF LIMA VARIETIES.

LIMA BEANS, like Pole varieties, should not be planted until after the ground has become thoroughly warmed. Plant about six beans in each hill, setting the seed of the large varieties with the eye downward. Note our offerings in this class of beans. They are the best to be had.

St. L. S. Co.'s NEW IMPROVED BUSH LIMA—

A decided improvement on both "Handerson's" or

"Burpee's" famous Bush Limas. It is larger than the former and earlier than the latter, and in quality is much superior to either. We have had an enormous demand for this new strain since first introducing it, and we urge our customers to order early, before stock is exhausted. Pkt 10c; ½ pt 20c; pt 30c; qt 50c; postpaid.

HENDERSON'S BUSH LIMA—A famous old variety, grows in compact bush form, and produces enormous yields of truly delicious Lima Beans, yielding a continuous crop from July until frost appears. Earlier than Burpee's. Pkt 5c; ½ pt 15c; pt 25c; qt 45c; postpaid.

BURPEE'S BUSH LIMA—A true bush form, growing 18 to 20 inches high, an immense yielding variety, each bush being laden down with very large beans of luscious flavor. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

POLE LIMA VARIETIES.

St. L. S. Co.'s KING OF THE GARDEN LIMA—*The finest stock for market gardeners.* A great improvement on the large White Lima Beans, grow of an enormous size (see cut), very mealy and an excellent cooking variety, an immense yielding sort; in fact, they are so much superior to any other Lima that there cannot begin to be any comparison, both in eating and appearance. Pkt 5c; ½ pt 15c; pt 25c; qt 45c; postpaid.

Burpee's Bush Lima.

King of the Garden Lima.

Kendel
 Early
 Giant.

SWEET CORN

One Quart will Plant
 about 200 Hills.
 One Peck will Plant
 about 1 Acre.

Sweet Corn should
 be planted in hills, 3
 feet apart for the
 early varieties, and
 from 3½ to 4 ft. for the
 late sorts. We urge
 you to take special no-
 tice of our new offer-
 ing on yellow pages.

EARLIEST VARIETIES.

KENDEL EARLY GIANT—GARDENERS, and those desiring the choicest and earliest Sweet Corn, will do well to plant a liberal supply of this wonderful variety. For a large yielder it is unsurpassed, the stalk bearing from 2 to 5 ears each, and the growth being of a dwarf nature—4 to 5 feet high—admits of very close planting. It is a great money maker, on account of its earliness, sweetness and productiveness. One acre of this wonderful corn will bring several hundred dollars if marketed properly. Don't you think it is a good investment? We urge everyone to give this supreme variety preference in their garden. Pkt 10c; ½ pt 15c; pt 25c; qt 40c; postpaid.

St. L. S. Co.'s Peep o' Day. This famous variety is one of the largest early Sweet Corns. Market gardeners everywhere are enthusiastic regarding the high value of this large early money maker. Ears grow 8 to 10 inches long, and 12 to 18 rowed, filled to the tip with broad, white, sweet kernels of excellent flavor. Pkt 5c; ½ pt 15c; pt 20c; qt 40c; postpaid.

ADAM'S EXTRA EARLY—This is in fact the earliest in cultivation, but it is not strictly a sweet corn. Requires very rich corn soil. Its greatest value is for early market. Not good enough to grow in the home garden. A very hardy sort. Pkt 5c; ½ pt 15c; pt 20c; qt 30c; postpaid.

EARLY WHITE CORY—This has been for years the most popular true sugar corn. It is of a dwarf growth and short ears. We recommend it for its extreme earliness. Pkt 5c; ½ pt 15c; pt 20c; qt 30c; postpaid.

MINNESOTA EARLY—Ready for use soon after the earliest Cory. A sweet, crisp and appetizing variety, sought after by lovers of sweet corn everywhere. Excellent for home or market use. Pkt 5c; ¼ pt 10c; pt 20c; qt 35c; postpaid.

St. L. S. Co.'s EARLY PREMIO—Whether you grow for market or home use, this new variety will please you. The kernels are large, plump and tender, and of the sweetest quality, from 2 to 5 well developed ears to a stalk. Stalks grow about 5 feet high. Ears are 8 to 10 rowed and 1 to 2 inches longer than Cory or Adams. Order early. Supply is limited. Pkt 5c; ½ pt 15c; pt 20c; qt 40c; postpaid.

MAMMOTH WHITE CORY—For a first-class early market or home use, this wonderful variety is a leader. It has larger ears than Early White Cory, and always produces two ears to a stalk, and sometimes three. Twelve rowed, a sure cropper and a big money maker. Pkt 5c; ½ pt 15c; pt 20c; qt 35c; postpaid.

Perry's Hybrid.

Medium Early Varieties.

PERRY'S HYBRID—An elegant variety. Has red cob, large ears. Very good in quality and follows Early Minnesota in maturing. A good home or market sort. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

EARLY CHAMPION—Only a few days later than the extra earlies, bearing large, handsome, twelve-rowed ears. Deep, white, plump grains of milky tenderness, and very sweet. Very productive and a money maker. Pkt 5c; ½ pt 15c; pt 20c; qt 35c; postpaid.

MEDIUM EARLY VARIETIES
 CONTINUED.

St. L. S. Co's "NOXALL" 
 We pride ourselves upon the wonderful popularity with which this new variety, which we introduced, has met. For market gardeners and truckers it is a great money-maker, as it will outsell any other known sort. In short, it is the sweetest, juiciest and most delicious second early sweet corn ever discovered. Very productive and highly recommended for June and July planting. Pkt 10c; 1/2 pt. 15c; pt. 25c; qt. 45c; postpaid.

St. Louis Market. 
 When we discovered this wonderful second early variety we were delighted. Its large size and attractive appearance make it sell on sight, and its delicious quality, after being prepared for the table, creates a steady demand. The cob is small and carries an average of 16 rows. The grains are large and deep and very sweet. It has a peculiar habit of growth that enables it to endure hot weather. A money-maker for market gardeners, and a No. 1 home garden sort. Pkt 5c; 1/2 pt. 15c; pt. 25c; qt. 45c; postpaid.

EARLY FODDER—Drilled or sowed broadcast, making a fine fodder corn as well as producing ideal roasting ears. Many plant this variety for fine stock, as well as for eating purposes. Pkt 5c; 1/2 pt. 10c; pt. 15c; qt. 25c; postpaid.

St. L. S. Co's NEW WHITE EVERGREEN—This is without exception the most valuable early sweet corn ever introduced. It is of the same type as the famous "Stowell's Evergreen," only it is snow white, and of excellent quality. It is so far superior to any other sweet corn, with the exception of our "Noxall," that there cannot begin to be any comparison. When in the green state both the grains and cob are as white as crystal. We could fill many pages with the many good points and superiority of this wonderful corn, but space is limited. Stalks are of a very strong, vigorous growth, six to eight feet high. The ears are extra large, not only here and there, but average larger than other variety. Order early. Pkt 5c; 1/2 pt. 15c; pt. 20c; qt. 35c; postpaid. 

SHAKER EARLY—A little later than Crosby. A beautiful white, juicy ear of appetizing quality. Grown extensively by gardeners for hotel and other high-class trade. Pkt 5c; 1/2 pt. 15c; pt. 20c; qt. 30c; postpaid.

ADAM'S EARLY—A valuable market variety that produces a very large, juicy ear, sweet and luscious, a prime favorite. Pkt 5c; 1/2 pt. 10c; pt. 20c; qt. 30c; postpaid.

MAIN CROP OR LATE VARIETIES.

STOWELL'S EVERGREEN—Undoubtedly the greatest standard variety ever produced, too well known to need any introduction, is one of the main crop varieties. The ears are of a good size, with a deep, luscious, appetizing kernel. Highly recommended for home or market use anywhere. Pkt 5c; 1/2 pt. 10c; pt. 20c; qt. 35c; postpaid.

COUNTRY GENTLEMAN—An improvement on the famous Old Shoe Peg variety. For a delicious, appetizing sweet corn this variety can not be surpassed, as will be seen by our illustration. As to its productiveness, every stalk can be relied upon to yield from two to five ears of creamy, juicy corn. Its luscious quality makes it a favorite everywhere. Ears grow eight to ten inches long, with a very small cob. Pkt 5c; 1/2 pt. 15c; pt. 20c; qt. 40c; postpaid.

MAMMOTH LAKE—This celebrated variety produces one of the largest ears of any sweet corn; a little later than "Stowell's Evergreen," but equally as good. Pkt 5c; 1/2 pt. 10c; pt. 20c; qt. 40c; postpaid.

St. L. S. Co's "Noxall."

BEETS.

One ounce will sow 50 feet of drill. Five pounds will sow 1 acre of drill.

For early use sow in hotbed, transplanting after warm weather arrives. For outdoor or main crop, sow as soon as the ground can be worked, in drills about one inch deep, making the rows about 16 inches apart. Drop the seeds about one inch apart in the row, covering them firmly. After plants are growing, thin out to about two inches. For late use, sow turnip varieties early in June. For keeping, store away in October, in pits or cellars, covering with sand.

St. L. S. Co.'s NEW CROSBY EGYPTIAN—(American grown.) This famous strain of our own production is undoubtedly, without an exception, one of the finest, as well as one of the earliest beets ever grown, its shape and color being superb. Gardeners from all directions do not hesitate to pronounce this wonderful variety the "King of all Beets." We wish we had space to reproduce some of its many well-earned reports; its delicious quality, as well as its big yielding growth, make it one of the best investments. Pkt 10c; oz. 15c; ¼ lb. 25c; postpaid.

CROSBY'S EGYPTIAN—(French grown.) The old-time favorite which is listed so extensively by other seed houses. While there can scarcely begin to be any comparison between this and our famous new variety listed above, yet it is indeed an excellent sort, also very early. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

St. L. S. Co.'s CRIMSON GLOBE—Market gardeners everywhere are enthusiastic of this wonderful yielding beet. Grows of medium size, very handsome in shape, a little deeper than round, with a remarkably smooth surface. Has a very small tap root. It is the exquisite tenderness of the flesh and the complete absence of any stringy or woody character that so thoroughly distinguish it. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

**For Mangel Seed
 See Farm Seed Pages**

ECLIPSE—A famous standard variety in all points of value and merit as a first early market beet, this ranks with the Crosby Egyptian. It is a favorite everywhere. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

EARLY EGYPTIAN—One of the most popular flat-shape varieties, relied upon extensively by truckers and gardeners as the leading hotbed sort; an extra early variety and a sure money maker. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

Our New Crimson Globe.

Our Famous American Strain

CROSBY'S EGYPTIAN.

EDMUND'S—This celebrated variety is strictly a market beet. Very popular for late planting. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

HALF LONG SMOOTH BLOOD—An ideal main crop or late variety. Being a good table beet, but on account of its size and shape it is much used for field culture and stock feeding. Pkt. 5c; oz. 10c; ¼ lb. 20c; postpaid.

IMPROVED LONG SMOOTH BLOOD—Large and late, an immense cropper and an ideal stock feeder; planted extensively for late fall and winter use. Sweet and tender. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

MITCHELL'S OR LENTZ—Here is a beauty. The beet you have been looking for. Market

gardeners and truckers have taken to this variety because one-fourth more can be produced from a given space than of the other turnip beets, larger and better than its late rivals. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

EARLY BLOOD TURNIP—One of the staple flat turnip-shaped varieties and several days later than such sorts as Electric; is a deep blood red. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

DETROIT DARK RED—One of the good early turnip-shaped varieties, too well known to need any further comment; especially popular with market gardeners. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

ELECTRIC—One of the most popular varieties for home or table use. Is very sweet, tender and of excellent flavor, beautiful dark, rich crimson color, with lighter rings. It is more perfectly round than most any other variety, and is as early as Egyptian. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

SWISS CHARD—A silver-colored beet, different from all the rest. Tops are much superior to common varieties for greens when cooked quite young. Later they may be prepared like asparagus. Grown extensively by truckers and gardeners to supply their "greens" trade. Very popular. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

St. L. S. Co.'s IMPROVED TURNIP BEET—Last season this wonderful new beet proved a bonanza for over 100,000 gardeners and truckers throughout the world. Were you one of them? If not we want you to be one of the happy multitude who will shout words of praise and enthusiasm next fall. It is the most perfect turnip-shaped beet ever discovered, of delicious flavor, as well as of an exquisite quality that cannot be surpassed. Seedsmen throughout the country have been trying to substitute for this famous variety. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

One ounce will sow about 100 feet of drill. Two pounds will sow about one acre.

CULTURE—Sow in the spring just as soon as the ground is in good working order, in drills 16 to 18 inches apart and about one-half inch deep. For field culture, sow in drills from 20 to 30 inches apart, pressing the ground over firmly, as the seed is slow to germinate. Carrots are very productive, as well as a good money-making crop.

DANVERS HALF LONG—The leading standard variety, grown extensively for table use as well as for stock feeding. Flesh is of a dark orange color; roots are of medium length and taper proportionately; very sweet and productive. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

EARLY FRENCH FORCING—The main sort for forcing in frames or open ground; it is of a very fine grain and exquisite flavor; grows small and almost globe shape. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

OXHEART (Guerande)—A beautiful short, thick, stump-rooted variety, a heavy yielder and an ideal table variety. The roots are very smooth and cylindrical; meat of a delicious bright orange color. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

EARLY SCARLET HORN—A favorite home garden variety, very early, and of a luscious, appetizing flavor. The meat is closely grained; stump-rooted, and has very small tops. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

NANTES—An ideal variety for bunching, always being a top-notch on the market. This celebrated variety is one of the very best summer sorts, as well as a favorite home variety. Flesh is of bright orange color, changing to a yellow in the center, but has no core; very tender and sweet. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

HALF LONG SCARLET STUMP-ROOTED—One of the finest carrots ever grown; almost coreless; an excellent market variety; medium early and of medium size. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

IMPROVED LONG ORANGE—A large, sweet, thick, tender, appetizing carrot, an immense yielder, and an ideal variety for both table and stock feeding. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

WHITE VOSGES—A large, thick, square-shouldered variety, used extensively for stock purposes. Has very short roots and can be grown on almost any shallow soil; enormously productive; in fact, it is the leading field variety. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

ST. VALERY—No one will do wrong to grow this carrot for market. In size it is large, growing from 10 to 12 inches in length and 2 to 3 inches in diameter at the top, gradually tapering throughout. Rich, deep orange in color and unusually smooth and attractive in appearance. Of very fine quality and is entirely free from hard core. An enormous yielder. We cannot too highly recommend it. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

NEW GOLDEN STUMP-ROOTED.

Offered by us last season for the first time. Again we unhesitatingly say it is the finest carrot that either we or anyone else ever offered. It is a magnificent stump-rooted carrot of a rich golden orange shade, and of a most excellent flavor. It is valuable for all uses, owing to its extreme sweetness and its enormous yielding merits; it will prove a bonanza to either the gardener or the stock-raiser; ripening as it does very early, it also surpasses every other known variety in size, shape, yield and quality. Pkt 10c; oz. 15c; ¼ lb. 40c; postpaid.

NEW GOLDEN STUMP-ROOTED

OUR GREATEST CARROT OFFERING

The CARROT WITHOUT A RIVAL

CABBAGE.

Our owner will produce about 3000 plants.

Nichol's New Early Top-Notch.

Recently introduced by us, it is as easily demonstrated itself superior to any other variety, both in earliness and productiveness; in fact, this is the most important addition made to the Cabbage family in recent years—beautiful, large, round, solid head of superior quality, idolized by truckers and gardeners everywhere as being the "King" of all cabbage. We have tested this wonderful early variety with other seedsmen's early offerings, and find it from 10 to 12 days earlier than others' earliest. A bonanza for the marketman everywhere. Very hardy; resists drought and wet weather; in fact, is the leader of all early varieties. Order early; there is sure to be a great demand. Pkt 10c; ½ oz. 5c; oz. 30c; ¼ lb. 90c; postpaid.

Nichol's New Early Top-Notch.

EARLY WINNINGSTADT—A fine pointed-head variety. Grown extensively in the south. A favorite market sort. Second early. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

EARLY DRUMHEAD—A favorite everywhere. Large, round, flat heads. A sure cropper. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

IMPROVED BRUNSWICK—Also known as Fottler's Early Drumhead. Ours is the true short-stemmed strain. Good for both second early and late crop, and attains an extraordinary large size. Very popular with the St. Louis market gardeners. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

HENDERSON'S SUCCESSION—About a week later than Early Summer and nearly double the size. Can be planted very close and is always sure to head. A great money-making variety. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

HENDERSON'S EARLY SUMMER—Always popular with market gardeners, as heads are twice as large as Wakefield and only twelve days to two weeks later. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

EARLY FLAT DUTCH—An excellent, large, flathead second early. Best suited for southern culture, as it is a great heat and drought resister. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

ALL SEASONS. Makes a splendid early or late variety. Larger in size than Early Summer. Of superior quality and heads that

Improved Brunswick.

do not easily burst. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

SUREHEAD—This is certainly well named, as it is a sure header of the Flat Dutch type of heads, and a first-class main crop sort. Grown extensively everywhere. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

Early Spring. This famous variety is an important rival of the Wakefield. It is now planted in large areas all over the country for market, and the growers tell us that we have a strain which is better than that of any other seedman. The growers we refer to have tried it from all the best houses in the country. There is bound to be a heavy demand for it this season. Heads are of round, flat type. Matures almost as early as Wakefield, and fully a week earlier than any other flathead variety. Particularly valuable for truckers, and, for its good quality, is one of the finest early cabbages for home gardens. As it is a close header, the plants can be set very close together in the field. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 50c; postpaid.

CHARLESTON LARGE WAKEFIELD—A few days later, but larger heads than Jersey Wakefield. Same general shape. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 50c; postpaid.

BURPEE'S ALLHEAD—An extra fine selection of Early Flat Dutch. Too well known to need any further commendation. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 60c; postpaid.

St. L. S. Co's EARLY JERSEY WAKEFIELD—This is our own private stock, being raised by one of our Long Island cabbage growers in a different portion of the island, and receiving special cultural treatment, and soil different from that in which other Jersey Wakefield is grown. It is well worth the slight difference in price. This is a close second to our famous Top Notch. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 60c; postpaid.

St. L. S. Co's Early Jersey Wakefield.

St. L. S. Co.'s New American King.

The king of all "kings." The heavyweight of the cabbage world. The indescribable new Cabbage that is so much superior to other main crop varieties that there can hardly be any comparison; fields of heads weighing from 20 to 30 pounds each stare the grower when market time approaches. No gardener can afford to miss planting this famous variety this season. For full description see yellow pages. Order early, as the demand will be enormous and our stock is limited. Pkt 10c; ½ oz 25c; oz 40c; ¼ lb \$1.80; postpaid.

St. L. S. Co.'s Superior Late Flat Dutch.

St. L. S. Co.'s SUPERIOR LATE FLAT DUTCH-

Our celebrated strain of this famous cabbage has brought us more friends and customers than we ever anticipated. From far and near come words of praise regarding this mammoth late variety. Just think of seeing acres of ground covered with big solid heads, weighing from 15 to 20 pounds each. That's what you could see throughout the market garden regions last season. Surely you want to be one of this happy multitude of growers. Surely you want to raise a cabbage that is all cabbage and not all stalk. That's what you will raise when you plant our Superior Late Flat Dutch. Order early, stock will not last all season. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 50c; postpaid.

PREMIUM LATE FLAT DUTCH—This standard variety matures a little earlier than many of the late sorts, is of low growth, with a very large head, broad and flat. A sure crop producer. Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 45c; postpaid.

LARGE LATE DRUMHEAD—The reliable main crop variety. Grown by gardeners and truckers everywhere. Grows very large, solid, and is an ideal sort for keeping throughout the winter. A great money maker. Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 45c; postpaid.

EARLY DWARF ULM SAVOY—The flavor of this "crumpled" leaved cabbage is very delicious and delicate—almost like cauliflower. Very hardy. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 60c; postpaid.

PERFECTION LATE SAVOY—The main crop sort. Heads grow large and solid, very crisp and delicious. The best variety for home or market use. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 60c; postpaid.

SMALL RED DUTCH—The favorite pickling cabbage. Grows small, is very hardy, an ideal cropper. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 50c; postpaid.

DANISH BALL HEAD (or Hollander)—The foreign gardeners' favorite, grown exclusively as a main winter crop. Very hardy, brittle and tender. Heads are of good size and an ideal sort for storing or shipping. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 65c; postpaid.

Mammoth Rockred. This famous variety is grown extensively almost everywhere. Heads are of a mammoth size, very solid and a sure cropper. A money maker for the gardener as well as an excellent cabbage for home use. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 60c; postpaid.

Mammoth Rockred.

Look for the Plow.

St. Louis Late Market.

The greatest, grandest and surest heading Cabbage in the world; is of an enormous growth, with an unequalled creamy compact crispness that will tickle the palate of the most epicure. A private strain from our celebrated Plant's St. Louis Late Market, only so much superior to this wonderful variety, which won the admiration and praise of gardeners everywhere, that there simply cannot begin to be any comparison. For regularity in growth and sure heading this variety can't be beat. Is of a handsome color and appearance, mammoth in size, delicious in quality, extra short stem and compact in growth. In fact, it is one of the largest and best late cabbages ever discovered. Gardeners and truckers planting this private strain will realize dollars where formerly they obtained quarters from the same ground and same market. We control and own the entire stock of this record-smashing variety. It would be cheap at 10 times the cost we quote it. But we want you to try it. We know it means money for the grower. We know it will make us thousands of new customers. No matter what you see listed, no matter what you see described, our St. Louis Late Market will eclipse it 10 to 1. We mean it. We back every statement with our reputation, which is known to the entire gardening world. Remember, again we say, that this wonderful new variety is the marvel of all late cabbages. Order early. Pkt 10c; ½ oz 15c; oz 30c; ¼ lb \$1.10; postpaid.

St. Louis Market.

CELERY.

One ounce of seed will produce about 5,000 plants.

CELERY is undoubtedly one of the leading luxuries of the garden. Sow seed in boxes for early crop, transplanting as soon as ground is moist and warm. Celery thrives best in a rich, loamy soil. For main crop sow in open ground latter part of March or first of April, according to climate, stirring soil thoroughly as soon as plants are well up. Celery seed germinates slowly, but after breaking above the ground grows rapidly.

GOLDEN SELF-BLANCHING

This is undoubtedly the finest Celery in cultivation. It is certainly the most popular early variety, and for the home and market garden it cannot be surpassed. Grows about 18 to 20 inches in height, unusually stocky and heavy. Straight, vigorous stalks of beautiful appearance and delicious flavor. A good keeper, a rapid seller; always very brittle and tender. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 75c; postpaid.

GOLDEN HEART—Very fine. When blanched the heart is of a beautiful, waxy, golden yellow color. Very showy and attractive. Dwarf. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 50c; postpaid.

GIANT PASCAL—The largest ribbed variety. The stalks are very large, thick, solid, crisp, and of a rich, nutty flavor; blanches very easily and quickly, and retains its freshness a long time after being marketed. Good for the South. Practically a green-leaved selection of Golden Self-Blanching. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

EVANS' TRIUMPH—One of the best late sorts. Of superb quality, an ideal keeper, remaining in good condition much longer than most other varieties. The very large, solid stocks are of finest texture and quality; crisp.

Golden Self-Blanching.

Brittle, tender and really nut-like in flavor. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 50c; postpaid.

PINK BEAUTY—The Pink or Red Celeries, in quality, are particularly fine, while they are not only said to be better keepers than either the yellow or white varieties, they make a beautiful ornament for the dinner table, heart and stems being shaded to a fine rose color. Very rich in flavor and crisp. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 75c; postpaid.

BOSTON MARKET—Remarkable for its crisp and succulent stalks and its mild and tender flavor. Less desirable for the South than Self-Blanching and Pascal. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

KALAMAZOO—This celery has been favored with such universal popularity that it seems not to need our words to further express its fame. It is one of the most solid, compact, vigorous and easily blanched market sorts. Keeps well through the winter. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

WHITE PLUME—One of the most desirable home garden varieties. Is earlier than Golden Self-Blanching, but is white instead of yellow. Is not quite so large nor as good a keeper, but blanches equally as well. This famous variety is popular with market gardeners, and there are none better for the smaller home garden. Also very brittle, tender and appetizing. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 50c; postpaid.

SOUP OR FLAVORING CELERY—Excellent for flavoring soups, etc. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 30c; postpaid.

CELERIAC. (Turnip-Rooted Celery.)

Sow seed same as celery, transplant into rows two feet apart and about 6 to 8 inches in the row. No earthing up is required for Celeriac, as it is the roots which are the edible portion of the vegetable.

GIANT PRAGUE—This celebrated variety is the largest, smoothest and best strain of the Celeriac family, very tender and appetizing. The favorite market gardening sort. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 50c; postpaid.

CAULIFLOWER.

One ounce will produce about 3,500 plants.

St. L. S. Co.'s NEW WHITE BEAUTY—

The earliest, the purest and the quickest growing Cauliflower in existence. We cannot but feel proud over this new introduction, so pure and white in color, so hardy and prolific in yielding, so early and solid in forming that it has thoroughly revolutionized the Cauliflower industry. Last season we could not begin to supply the demand. This season we can supply it only as long as our stock lasts. Hence be wise, order today, if you want to be one of the happy multitude who will grow this monster early White Cauliflower. ½ pkt 15c; pkt 25c; ¼ oz \$1.25; ½ oz \$2.25; oz \$4.50; postpaid.

St. L. S. Co.'s EARLIEST DWARF ERFURT EXTRA

SELECT—The St. Louis market gardeners' favorite, growing as it does in mammoth compact form, very early and a sure header, an ideal forcing variety and a valuable sort for early market or home use. We claim for this Cauliflower its superiority over all others, with the exception of our New White Beauty. ½ pkt 15c; pkt 25c; ¼ oz \$1.00; ½ oz \$2.00; oz \$4.00.

EARLY SNOWBALL—A favorite variety, produces magnificent white heads of fine quality. The outer leaves are short, allowing the plants to be set closer together than most varieties, 18 to 20 inches being far enough apart. Its dwarf compact habit of growth renders it one of the best for forcing under glass. ½ pkt 10c; pkt 15c; ¼ oz 75c; ½ oz \$1.25; oz \$2.50; postpaid.

EARLY DWARF ERFURT—An ideal sort which will give excellent results either for the home or market garden. Very hardy, compact and a sure heading variety. Pkt 15c; ¼ oz 60c; ½ oz \$1.00; oz \$1.75; postpaid.

EARLY PARIS—Used for forcing by gardeners. It produces heads smaller than the Erfurts and is adapted to growing in a warm climate. Pkt 10c; ¼ oz 15c; ½ oz 30c; oz 60c; postpaid.

EARLY LONDON—A good variety for main crop in open ground; grown extensively everywhere. Pkt 10c; ¼ oz 15c; ½ oz 30c; oz 60c; postpaid.

HORSERADISH ROOTS.

Horseradish Roots are one of our great specialties. The best Horseradish is produced from small pieces of root; these are to be set small end down, so that the top will be 3 inches below the surface. The soil should be very rich and well cultivated. Postage extra 5 cents per dozen. Doz 15c; 25, 25c; 100, 60c; 1,000, \$5.00.

Horseradish Root.

HERBS.

The varieties marked with an asterisk (*) are hardy perennials.

To preserve herbs properly, cut the stems and leaves just as the plant is coming into bloom, dry them in the shade, and when perfectly dry wrap them up in paper and store them away in a dry room, or rub the leaves to a powder, pack in bottles and cork tightly, and store them away, which will preserve them for any period.

The Best Family Doctor is a Collection of Herbs Like Above.

- Anise**—Seeds aromatic and carminative. Pkt 5c; oz 10c; postpaid.
- Balm**—For balms or balm wine. Pkt 5c; ½ oz 10c; oz 20c; postpaid.
- Basil, Sweet**—For highly seasoned dishes, soups, etc. Pkt 5c; ½ oz 10c; oz 20c; postpaid.
- Bene**—Leaves good for diarrhoea, seeds an oil for the skin. Pkt 5c; ½ oz 10c; oz 15c; postpaid.
- Borage**—Used as a salad, also a pretty flower, and food for bees. Pkt 5c; ½ oz 10c; oz 15c; postpaid.
- *Catnip, or Catmint**—For bee pasture, leaves and shoots for seasoning. Pkt 5c; ½ oz 10c; oz 20c; postpaid.
- *Caraway**—For flavoring bread, pastry, meats, liquors, etc. Pkt 5c; oz 10c; postpaid.
- Chervil, Curled**—Largely used in soups and salads. Pkt 5c; ½ oz 10c; oz 15c; postpaid.

- *Lavender**—Leaves for seasoning, dried flowers for perfuming. Pkt 5c; ½ oz 15c; oz 25c; postpaid.
- Marjoram, Sweet**—Used like sage and thyme in seasoning. Pkt 5c; ½ oz 10c; oz 20c; postpaid.
- Pimpernell**—Pkt 5c; ½ oz 15c; oz 25c; postpaid.
- *Rosemary**—Hardy, aromatic, evergreen shrub. Pkt 5c; ½ oz 15c; oz 25c; postpaid.
- *Rue**—For medical use; good for fowls suffering from cold, etc. Pkt 5c; ½ oz 10c; oz 15c; postpaid.
- *Sage, Common**—The popular culinary herb; has medical properties. Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 45c; 1 lb \$1.40; postpaid.
- Saffron**—Used in medicine, also in dyeing. Pkt 5c; ½ oz 10c; oz 15c; postpaid.
- Savory, Summer**—Thyme-like flavor, but milder. Pkt 5c; ½ oz 10c; oz 15c; postpaid.
- *Sorrel, Broad-Leaved**—For boiling "greens" or salad. Cook like spinach, or with it, one-third Sorrel. Pkt 5c; ½ oz 15c; oz 25c; postpaid.
- Tarragon (Russian)**—Aromatic leaves, for salads, seasoning, etc. Pkt 15c; ½ oz 25c; oz 40c; postpaid.
- *Thyme, Sweet**—For seasoning soups, etc.; also tea for nervous people. Pkt 5c; ½ oz 15c; oz 25c; postpaid.
- *Woodruff**—Fragrant leaves and stems; used for putting among clothes; in Germany, to flavor the "Maitrank." Pkt 10c; ½ oz 30c; oz 60c; postpaid.
- *Wormwood**—Used medicinally and in liquors; a good tonic for poultry. Pkt 5c; ½ oz 15c; oz 25c; postpaid.

CUCUMBERS.

One ounce will plant 40 to 50 hills. Two pounds will plant one acre.

CUCUMBER SEED should be planted in a rich, loamy soil, in hills four feet apart each way, planting about 8 to 12 seeds to the hill, about the first of May. For early crop, plant in boxes or hotbeds, transplanting as soon as the ground is in working order. After the seed has been planted in open ground, thin out to about four plants to the hill, after they are 3 or 4 inches tall.

NOTE OUR LOW PRICES ON CUCUMBER SEED

This Plow Denotes The Best

St. L. S. Co's EXTRA LONG WHITE SPINE OR EVERGREEN

Superior to any other (with the exception of Nichol's "Greenback") for main crop. It is certainly one of the handsomest as well as the most delicious varieties in the world. Gardeners are enthusiastic in praise of its hardy growing qualities, as well as of its extreme earliness. Grows from 10 to 14 inches in length. For hotels and restaurants, as well as the home table, it cannot be surpassed. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

ARLINGTON IMPROVED WHITE SPINE

Excellent for forcing or out of doors. A good seller on the market and a very profitable sort to grow for shipping. Vines vigorous, fruiting early and abundantly. Fruit uniformly straight and handsome. Light green, with a few white spines. Flesh crisp and of fine flavor. Our strain is absolutely pure. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

Early White Spine (PEERLESS)

One of the best sorts to slice for the table. Our select strain of this well-known and popular variety is unsurpassed for the table and market. It is also good for pickles. Of good size, handsome appearance, and well formed. A good bearer. Grows 8 to 9 inches long. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

CUMBERLAND

It stands at the head of all pickling sorts. The form is straight and symmetrical, this being as choice for a slicing variety as for pickles. It differs from all other hardy sorts in being thickly set with fine spines over the entire surface, except the extreme stem end. The flesh is firm, crisp and tender at all stages. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

LONDON LONG GREEN

The standard of all long green varieties. Nearly as early as the shorter varieties and grows to 12 inches long. One of the best for small pickles when young, and the best of any for mustard pickles when ripe. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

Emerald

This famous variety of late introduction has become a great favorite. Retains its deep green color long after picking. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

TAILBY'S HYBRID

This well-known variety is grown extensively in southern sections for market. Grows long and of beautiful shape. Good forcing variety and immensely productive. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

JAPANESE CLIMBING

If you cannot spare the space in your garden for cucumbers to sprawl around on the ground, plant this variety and train up vines to poles or trellises. Good for table use, as well as pickling; 8 to 10 inches long. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

NICHOL'S MEDIUM GREEN

Of medium length, smooth and straight. Dark green. Second to none for slicing when matured. Grown largely for supplying pickle factories. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

EARLY SHORT GREEN OR FRAME

Excellent for pickling and for table use. Of medium size. Very productive. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

EXTRA EARLY GREEN PROLIFIC

Of the very best form and quality for pickling. Immensely productive. Always in great demand. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

JERSEY PICKLE

The gardener's friend. Quite pointed at both ends. Intermediate between the Long and Short Green. Makes hard, brittle pickle. Very early. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

BOSTON PICKLE

An elegant short variety of good form and very productive. Also very popular. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

GHERKIN OR BURE

A curious, rough, small cucumber, used exclusively for pickles. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

NEW ORLEANS MARKET

A famous southern variety. Very productive and of a delicious flavor. An elegant market sort. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

EARLY GREEN CLUSTER

The favorite everywhere. Short and prickly. A favorite for bottle pickles on account of its great productivity. Don't fail to try these. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

Early Green Cluster.

EGG PLANT.

One ounce will produce about 1,500 plants.

THIS famous vegetable is very easily grown and is always in demand on the market. Sow seed in hot beds or boxes early, transplanting the latter part of May or first of June. The plant must be protected from chill until fully started. Transplant about 2½ feet apart each way.

St. L. S. Co.'s IMPROVED OVAL SPINELESS.

This new variety, our own production, has proven itself superior to any other strain, being very early. Hardy and productive, it is an ideal variety and Gardeners can make more money from this improved and selected strain than from any other. Pkt 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.25; postpaid.

BLACK BEAUTY—This distinct new variety is indeed a beauty. It is about 2 weeks earlier than N. Y. Improved Spineless, and grows fully as large. It is very attractive in appearance and of excellent flavor. Pkt 5c; ½ oz. 20c; oz. 40c; ¼ lb. \$1.10; postpaid.

N. Y. IMPROVED SPINELESS—The standard variety. The one that finds ready sale at any time and in any market. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 85c; postpaid.

LONG PURPLE—Early and prolific. Excellent for home gardens. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 50c; postpaid.

This Mark is the mark of Quality

St. L. S. Co.'s Improved Oval Spineless.

ENDIVE.

One ounce will sow 100 feet of drill.

A FALL and Winter Salad of remarkable merit. Very easily grown, and a money maker for gardeners and truckers. Sow seed as late as July in shallow drills about 15 inches apart. After plants are started thin out to 12 inches apart.

GREEN CURLED—Ornamental curled leaves of dark green color. Blanching white and crisp. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 35c; postpaid.

WHITE CURLED—Leaves not so tender as the green, but is self-blanching and very attractive. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 85c; postpaid.

BROAD-LEAVED GREEN—Large heads of thick leaves. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 85c; postpaid.

Green Curled.

Kale or Borecole.

One ounce will sow 300 feet of drill.

St. L. S. Co.'s NEW DWARF

GERMAN—This new variety is an improved selection of the ordinary Dwarf German Greens. A superior variety for market culture. It has no equal. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

DWARF GERMAN GREENS—Desirable for winter and spring greens. Leaves are curly like parsley, tender and of very fine flavor. It is improved by frost. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

SIBERIAN CURLED—Of low spreading growth and very hardy. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

TALL SCOTCH—This variety makes beautiful plants, two feet or more in height. Leaves are finely curled and very tender. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

KOHL-RABI.

One ounce will sow 200 feet of drill.

Earliest White Vienna.

This delicious turnip-like vegetable practically grows above the ground, the stem swelling into a bulb like our illustration. For general crop, sow in the spring in drills, or it may be sown in boxes and transplanted. For winter use, sow about the middle of June.

Earliest White Erfurt. An excellent variety for forcing. It will also do well in the open ground. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

EARLY WHITE VIENNA—The earliest and best; very tender; good for forcing and open ground. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

EARLY PURPLE VIENNA—Differs from the Early White Vienna in color only. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postp'd.

LARGE WHITE or GREEN—A good sort for open ground culture. Stands long without getting stringy. Not so fine as White Vienna; more productive. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

St. L. S. Co.'s Dwarf German.

LETTUCE.

One ounce will sow 125 feet of drill.

Nichols' Frizzle Top.

The greatest Lettuce offering for 1907. For earliness, crispness and luscious flavor it cannot be equaled. Rapid and vigorous in growth, compact in form, tender and appetizing in every sense. The ideal variety for the man who wants to make money on the market. In appearance it is simply grand. We cannot recommend it too highly, and we know that every one who tries it this season will be enthusiastic in its praise. Be sure and sow a few packets for your home use. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 60c; postpaid.

EARLY CURLED SIMPSON—The standard cutting or loose-head variety. Earlier than the heading sorts. Forms a large, loose, compact mass of curled leaves of yellowish green color. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

St. L. S. Co.'s UNRIVALED—Crisp and brittle as an icicle, vigorous in growth, handsome in appearance and delicious in quality. An ideal sort either for home or the market. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

BLACK-SEEDED SIMPSON—Larger and lighter in color than Early Curled Simpson. This is the most popular and best selling market variety. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

HANSON—In every respect an ideal lettuce. Outer leaves bright green, with distinct, light colored veins; inner leaves white and unusually curved and twisted at the base. It never fails to make large, handsome heads. Quality very fine. Tender and brittle. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

GRAND RAPIDS—Especially adapted for early family use. A loose-headed Lettuce of pleasing appearance and remarkable table merit. A quick grower and a good shipper. Seed black. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

CALIFORNIA CREAM BUTTER—Stands our hot summer weather better than other varieties. Well formed heads of good size—a little flattened. Rich, cream yellow leaves, which are very thick, tender and of splendid quality. Popular in the South for shipping North. Sometimes called winter Lettuce, because it is so hardy. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

PRIZEHEAD—As its name implies, forms a very large, loose head. Slightly tinged with brown. Remarkable for its crispness and delicacy of flavor. Is well adapted both for forcing and outdoors. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 35c; postpaid.

HARDY GREEN WINTER—Very popular. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

BROWN DUTCH WINTER—The standard winter sort sown by gardeners. Of delicious flavor. Pkt 5c; oz. 10c; ¼ lb. 35c; postpaid.

BIG BOSTON—An excellent forcing variety. Fine to grow in frames during winter, and it also succeeds outdoors in the cool spring and fall months. Heads very large, solid, beautifully blanched and of superior quality. The market gardener's favorite. *Our strain is true to name.* Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 30c; postpaid.

ICEBERG—A large, handsome head, of excellent flavor, with light green, curly outside leaves having slightly reddish edges. The inside leaves are strongly arched, making a solid, well-blanched head. Very hard-heading. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

St. L. S. Co.'s BLACK-SEEDED FORCING—The favorite of gardeners who grow for the St. Louis market. Heads grow of medium size, well formed and compact. Of excellent quality and fine appearance. Early, tender and delicious. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

St. L. S. Co.'s WHITE CABBAGE OR BUTTER—A well-known, hard-heading sort, succeeds particularly well in this climate. Large heads of smooth, thick, tender, brittle leaves. Pkt 5c; oz. 10c; ¼ lb. 35c; postpaid.

St. L. S. Co.'s MIGNONETTE—In deliciousness of flavor, tenderness, crispness and earliness the "Mignonette" is unequalled. The heads are solid and blanched "buttery white." The outside leaves are bronzy-green, tinged russet, different in appearance and size from any others. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

NICHOLS' LETTUCE MIXTURE—Composed of all the famous varieties. Pkt 10c; ½ oz. 15c; oz. 20c; ¼ lb. 55c; postpaid.

Nichol's Frizzle Top.

St. Louis Market.

ST. LOUIS MARKET.

A favorite with gardeners; its good qualities always insure for it a big market demand. As a head Lettuce it is not excelled by any. Gardeners use it both for winter forcing and late summer planting; in fact, they make an all-year-round variety of it. Large, hard heads of crisp, buttery flavor. A fine Summer variety for home gardens. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

BUTTERCUP—The favorite midsummer variety for home gardens; very tender. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

TRIANON COS—Excels all other varieties in having a crispness, tenderness and flavor peculiarly its own. Heads should be tied up to blanch the leaves. Pkt 5c; oz. 10c; ¼ lb. 35c; postpaid.

St. L. S. Co.'s Mignonette.

Chinese Curled Mustard.

the case with other varieties. It is one of the best green sorts for canning for winter use. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

DWARF GREEN—The standard dwarf, short green-pod variety. Very productive. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

MUSTARD.

One ounce will sow about 70 feet of drill.

MUSTARD should be sown in every garden. As a money maker it attains a high rank, always being in great demand by hotels; for greens, salads, etc., it is unsurpassed. Sow thickly in rows and cut when two or three inches high.

Ostrich Plume.

This new variety is ornamental as well as useful. Leaves are beautifully ruffled, frilled and curved, and immediately suggests an ostrich plume. A delicious salad and excellent for boiling.

Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

CHINESE CURLED—When cooked like Spinach the broad leaves of this variety are delicious. They are often more than a foot in length, and crimped much like the Savoy Cabbage. Stands long before running to seed. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

Giant Southern Curled.

A favorite in the South, growing very large with a beautiful curled leaf. It is very tender and of especially good flavor; also desirable for garnishing.

Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

WHITE OR YELLOW LONDON—Seeds are used for pickling and the leaves are relished by many people. Pkt 5c; oz. 10c; ¼ lb. 15c; postpaid.

BROWN OR BLACK—More pungent than the white and with less foliage. Pkt 5c; oz. 10c; ¼ lb. 15c; postpaid.

Mammoth Sandwich Island Salsify.

MAMMOTH SANDWICH ISLAND—The favorite variety of Salsify, as well as the largest and best sort in cultivation; very hardy. Grown extensively by gardeners and truckers everywhere. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 30c; postpaid.

LEEK.

One ounce will sow 100 feet of drill.

LEEK is a mild onion-flavored plant, prized as being the ideal for soup, etc. Hotels and the elite set prize them highly when sliced and served as a salad. Sow in very rich soil, early in April, in drills, covering the seed about ½-inch deep. After plants are strong enough looking, transplant in rows 1 foot apart and 6 inches apart in the row. Draw the earth around them as they grow in order to blanch.

LONDON FLAG—The earliest, largest and most uniform of all. Grown extensively for home or market use. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 30c; postpaid.

"Pure and Sure"
 Seeds
 Always Grow.

Okra or Gumbo.

One ounce will sow 50 feet of drill.

THIS celebrated Southern plant is becoming popular wherever grown, its nutritious young seed-pods being used for stews, soups, etc., and is always in big demand. Sow seed thinly in drills one inch deep and three feet apart. When well up thin out the plants, to one foot apart. Gather the pods when young. Very delicious and appetizing.

WHITE VELVET—Beautiful, smooth, velvety white pods, produced in the greatest abundance. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

PERKIN'S MAMMOTH LONG POD—In productiveness this Okra is simply wonderful. Pods of an intense green color, are of an unusual length and do not get hard, as is

White Velvet Okra.

SALSIFY OR OYSTER PLANT.

One ounce will sow 75 feet of drill.

SALSIFY or Oyster vegetable is undoubtedly one of the most delicious vegetables in the garden. Sow early in the spring in drills about 12 inches apart, covering the seed about 2 inches in depth. After plants have started, thin out to 2 inches apart. Crops are often left in the ground throughout winter like parsnips.

London Flag Leek.

MUSKMELON.

One ounce will plant about 50 hills.
Two pounds will plant about one acre.

MUSKMELONS will thrive in common soil, where the watermelon would fail, hence demonstrating that they are much harder than the latter. Plant as soon as the ground becomes warm and dry, in hills 5 to 6 feet apart each way, planting 10 to 12 seeds to the hill. A little manure added to each hill produces wonderful results. After the vines have started good, thin out to about 4 to the hill.

ROCKY FORD—This famous melon is also called Improved Netted Gem, Alamo and Dewey Gem. The world-wide popularity of this variety is as intense today as when it first came into prominence several years ago. The melons as grown at Rocky Ford are superior in quality to any variety grown. There are soils in other states that will produce them almost as well as that of Colorado. A great deal of money is being made by melon growers who ship this variety, and on any good melon soil it is of better quality than many other market varieties. Shape is oblong, slightly ribbed, densely netted. Flesh is thick and green in color, sweet and appetizing. We have a selected strain of this seed of the true type as grown in Colorado. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

Rocky Ford.

ACME or BALTIMORE CANTALOUPE—This famous oblong variety is one of the finest standard melons grown. The fruit is excellent and of a delicious flavor, being of an appetizing green color. Very productive and a fine shipper. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

St. Louis Market.

St. Louis Market.

Pronounced by all the "King of Muskmelons." By far the sweetest and most luscious, richly-flavored melon ever grown. Introduced by us a few seasons ago, it has become so popular that gardeners and truckers everywhere prefer it to all other sorts. Its excellent quality and handsome appearance command a readier sale and higher price than any other known variety. Flesh is green and delicious, almost melting in your mouth as though it were ice cream. The rind is green and solid, with a rich aromatic flavor that is simply indescribable. Owing to its solid, good-keeping qualities it is an ideal shipping sort. We advise you to order early, as our stock always soon becomes exhausted during the planting season. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

BANANA—An excellent long melon of superior merit, growing all the way from 12 to 36 inches in length. Flesh is very thick and of a rich orange color. In flavor it somewhat resembles a banana. Hence its name. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

BAY VIEW—One of the most popular melons in cultivation. A leading oblong variety. Grows very large, with broad, heavy ribs. A good shipper and immensely productive. Excellent flavor. Of a deep green, appetizing flesh. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

CHAMPION MARKET—An ideal variety grown extensively for home and market use. Larger than Golden Netted Gem and better in quality. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

MONTREAL MARKET—A famous melon, extra large in size and with very thick green flesh of extra good quality. A fine shipper and a favorite market sort. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

Nutmeg.

Paul Rose (Petoskey)

An orange-fleshed sort of suitable size for a basket melon and of the finest quality. Fruit oval, about five inches in diameter, and in general appearance similar to Golden Netted Gem. Very thick flesh, firm and sweet; a melon that will bring the highest price on the market, being always in big demand. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

PRINCESS (Perfection)—This famous variety grows almost round, with a heavily netted dark-green skin. The flesh is of rich salmon color, and in flavor it is sweet and luscious. They ripen early and grow to good size. Pkt 5c; oz. 10c; ¼ lb. 30c; postpaid.

Nutmeg.

This standard variety is too well and favorably known to need any introduction. For years it has been looked upon as the most delicious melon, always being in demand by restaurants, hotels, etc. Is very early and sweet, with an appetizing green flesh that will tickle the palate of the most epicure. Very productive. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

"Our Business Grows Because Our Seeds Grow."

Large Hackensack.

Large Hackensack.

Being of large size and attractive appearance, as well as of delicious quality, has placed this melon in the front rank of all rivals. Skin is heavily netted. Flesh is sugary and appetizing and of green color. Very productive. Market gardeners everywhere look upon this variety as the standard sort. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

MISSOURI NUTMEG—A money maker for the planter. Form is globular, flattened at each end. Wonderfully ribbed, with dark green cavities. Ribs covered with strong netting, fitting it for shipment. Flesh green and flavor superior to any other large sort. Foliage strong and hardy; very productive and a sure cropper. Always meets with ready sale. Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 40c; postpaid.

Missouri Nutmeg.

St. L. S. Co.'s Tip-Top.

There are other muskmelons but none can surpass or very few equal this excellent variety. It is the melon that you, I, we, yes everybody, have been looking for. Every planter loves the Tip-Top. It is a money maker. It is an ideal variety. Every fruit, whether big or little, early or late, is a good one—sweet, juicy, finest flavor, firm-fleshed and eatable to the very outside coating. It is enormously productive. Excellent for market, in fact it is fast becoming the leading melon grown. Order Early. Pkt 10c; ½ oz 15c; oz 20c; ¼ lb 50c; postpaid.

POMEGRANATE—A beautiful, small melon. Ornamental, round fruits, dark green with darker spots. When ripe, color of an orange. Fragrant. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 60c; postpaid.

Osage. The melon that pleases the eye on sight and the palate in taste. Known and grown everywhere where there is a demand for a delicious, appetizing muskmelon. Dark green skin of a peculiar netting. Salmon flesh. Very delicious. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

GOLDEN NETTED GEM—One of our greatest offerings, color golden, and a beautiful netted skin, and ideal market sort. Pkt 5c; oz 10c; ¼ lb 30c.

Mixed Muskmelon Seed.

For home gardens our mixed varieties is supreme. Our collection consists of every variety we list as well as several others. Every packet containing an endless assortment of all the leading and best melons grown. Hence pleasing every appetite and desire, making it possible for every grower to plant the complete muskmelon family at a small expenditure. Early and late. All colors, shapes, sizes and flavors. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

Dear Sirs:—Last year I received a packet of your Chinese Giant Pepper seed and sowed it and will say that I never saw anything like them. Many of the stalks having six and seven peppers on, most of them five and six inches across the top. I shall always have a good word for your seeds.—D. C. Worst, Cumberland County, Pennsylvania.

St. L. S. Co.'s Tip-Top.

EARLY HACKENSACK—A large size melon; handsome in appearance; a bountiful yielder, and very early and reliable. Skin is green and thickly netted. Flesh light green, luscious and appetizing. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

EMERALD GEM—The flesh, is thicker than in any other melon of equal size, is of a beautiful rich salmon color, and sweet and luscious beyond expression. Of medium size, prolific and early. One of the most popular sort among truckers and gardeners. Pkt 5c; oz 10c; ¼ lb 30c; postpaid.

The mark of Quality

Mixed Muskmelons.

One ounce will plant 35 hills.
Three pounds will plant one acre.

WATERMELON.

Plant in the sandy soil, exposed to the sun, in hills 8 to 10 feet apart, planting 7 to 10 seeds to the hill. After the plants have begun growing, pull out the smaller ones, leaving but 3 strong plants to each hill. Hoe often but shallow.

S. L. S. Co.'s SWEET HEART

—One of the finest large melons in existence. Almost globular, but a little longer than thick. Skin is a beautiful light, bright mottled green. Thin, but very tough rind—fitted for the roughest handling. Flesh is exceedingly firm, flavor exquisitely sweet and delicious. The gardeners' and truckers' favorite, exceedingly popular, owing to its extreme goodness. It will pay you to plant freely of this melon. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

St. L. S. Co.'s Sweet Heart.

JORDAN'S GRAY MONARCH (Long Light Icing.)—This famous melon has become universally popular on account of its large size, delicious flavor and attractive appearance. Its quality is unequalled, one of the most productive varieties we have ever seen. A good market variety. Seed white. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

SEMINOLE—Somewhat similar to Jordan's Gray Monarch. Large, early, and vines are very prolific. Firm and sugary. Melons of two colors are frequently found on the same vine, but quality never varies. A sure cropper, very productive. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

KLECKLEY SWEETS (Monte Cristo)—Is especially commended for its fine flavor—in this respect surpassing most all others. Long, oval shape; dark green rind, rather tapering at the ends. Seeds are white and lie close to the rind. An ideal melon in every respect. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

SOUTHERN RATTLESNAKE—A very large variety, excellent shipping qualities. Matures late. Oblong in shape, striped and mottled with various shades of green. Extensively grown in the South. Ideal for the home garden and a favorite variety with market gardeners. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

PHINNEY'S EARLY—One of the first melons to ripen. Seed white. Sweet, tender and of good flavor. Grown extensively by shippers everywhere. Quality extra fine. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

MOUNTAIN SWEET—The famous old standard home variety, luscious in flavor, beautiful in appearance, oval in shape, ideal in variety. Popular everywhere. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

COLE'S EXTRA EARLY—This beautiful melon is small in size, but one of the earliest in cultivation. Grows nearly round. Matures farther north than any other variety. Green striped. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

PEERLESS, OR ICE CREAM—Very productive, medium size, very sweet and delicious. Oval shape, thin rind, finely mottled. Flesh bright scarlet, solid to the center. Tender and of the highest flavor. Very early. Seeds white. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

McIver's Wonderful Sugar. This celebrated melon is undoubtedly the sweetest of all varieties. Flesh of a soft, pale pink, crisp, free from any stringiness and is juicy. Market gardeners, truckers and growers everywhere are enthusiastic in praise of this mammoth wonderful sweet melon. Seeds white. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

St. L. S. Co.'s IMPROVED TRIUMPH—The king of all melons, the largest, the sweetest and one of the most beautiful melons in cultivation. Mammoth in size, melons growing to the enormous, almost unbelievable weight of 150 lbs. each, and almost a thousand pounds to one vine. Can you beat it? If so, we would like to know it. Have you tried this wonderful variety? If not, we want you to. You will be delighted beyond doubt. It always proves a ready seller on the market; is of a dark green color, with a bright red, appetizing flesh. Matures in good season and is a No. 1 melon in every respect. Fine for shipping. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

Gentlemen:—Parrot received the 14th inst in good condition. We think you selected us a fine bird.—Mrs. J. P. Dixon, Harnett County, North Carolina.

“Dear Sirs—Red Head arrived on Independence Day and is hearty and O. K.”
Rev. H. Kuennen,
Perry County, Missouri.

St. L. S. Co.'s ALABAMA SWEET.

This without question is the greatest melon of the age. There is no melon can equal it either in appearance or quality, neither can any beat it in size or weight. The first pound of seed we produced of our private strain cost us over \$500, and we would have been willing to pay \$5000 for such a melon. Beautiful beyond description, grown extensively everywhere. Gardeners and Truckers at last your opportunity has come. Will you grasp it by planting our famous strain of Alabama Sweet Melon? Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

KOLB'S GEM—Grown extensively everywhere, owing to its excellent shipping qualities. Shape is nearly round and striped. Very thick, tough rind, the flesh being of a bright red, and luscious flavor. A sure cropper and a big money maker anywhere. Pkt 5c; oz 10c; ¼ lb 15c; postpaid.

LONG DIXIE—Earlier and better than Kolb's Gem in quality, but not as good a shipping variety. However, it is grown and marketed extensively in all melon districts; very productive and sweet. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

CUBAN QUEEN—This delicious melon is one of the largest, earliest and most productive melons in cultivation. A good shipper, and an excellent home variety. Cannot be recommended too highly. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

FLORIDA FAVORITE—This famous melon has captured the hearts of growers everywhere. It has probably taken more prizes at Exhibitions than any other known variety. It is ideal in every respect. Standing head and shoulders above nearly all rivals, there is no melon that has ever created such a furore among growers and shippers as this famous variety. It is truly a wonderful melon and few can beat it in size, weight or quality. Shape oblong, with dark and light green skin, flesh is bright crimson and deliciously sweet. We offer only select stock of this famous melon. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

DARK ICING RIND—Oblong in shape, rind dark green; of good size and very prolific. Flesh melting in your mouth as though it were ice cream, of delicious flavor. White seed; very productive. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

NEW ICEBERG—No melon with the exceptions of our Alabama Sweet can begin to compare with it. The flesh is solid and firm and the rind thin and hard. The model shipping melon. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

CITRON—Grown extensively for preserving. Smooth, round, striped and of a delicious flavor. Pkt 5c; oz 10c; ¼ lb 30c; postpaid.

St. L. S. Co.'s Alabama Sweet.

Florida Favorite.

BLACK DIAMOND.

A mammoth large melon, enormously productive, luscious and sweet. All the praise of high quality bestowed on numerous other good melons may be truthfully stated on this melon in a higher degree. Its color is a beautiful dark green, shaping roundish to bluntly oval; an excellent shipping variety. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

FORDHOOK EARLY—The earliest large variety. Excellent quality. A good shipping sort. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

“Halbert's Honey” Watermelon.

The finest melon ever offered for home market or home garden use.

It is a superb, luscious flavor, with a beautiful crimson, appetizing flesh, embodied in a thin white rind with a very dark, rich colored skin, making it a very attractive melon for the market. Melons grow from 18 to 24 inches long and are fully developed, with bluntly ends as shown in illustration. Vines grow quickly and produce melons in clusters, thus insuring a large yield. For home use it cannot be surpassed. They are, as their name indicates, “as sweet as honey” and we urge everyone to plant a patch of this wonderful melon this year. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

Dear Sirs—“Seeds ordered are all first class—never had such before.”—Albert Stockbouer, Victoria County, Texas.

St. L.

THREE GREATEST ONIONS THAT CAN BE GROWN IN AMERICA.

EARLY RED FLAT
WT. 3 1/4 LBS.
YIELD OVER 800 BU.
PER ACRE.

RED WETHERSFIELD
WT. 4 LBS. 1000 BU. PER ACRE.

LARGE RED GLOBE
WT. 2 1/4 LBS.
1100 BU. PER ACRE.

Onions.

One ounce will sow 100 feet of drill. Four Lbs. will plant one acre.

FOR LARGE QUANTITIES SEE PAGE 19

Large Red Wethersfield

Undoubtedly the most popular onion ever grown. Recognized throughout the entire world as the standard of all red varieties. You will find our private strain much superior to the common red Wethersfield offered by other seedsmen. For size, form, productiveness and good keeping qualities nothing can equal our celebrated Red Wethersfield. Skin is deep purple, flesh purplish white. Very fine grained and of excellent flavor. Too well known to need any further description. Pkt 5c; oz 15c; 1/4 lb 40c; postpaid.

Extra **EARLY RED FLAT.** Earlier, flatter but smaller than Red Wethersfield. Grown extensively by gardeners everywhere, enormously productive, beautiful in appearance, unsurpassed in quality, and a No. 1 market variety. This variety is also too well known to need further introduction. Pkt 5c; oz 15c; 1/4 lb 35c; postpaid.

LARGE RED GLOBE. This celebrated variety differs from the Wethersfield in being almost a perfect globe, and matures later, and by its handsome appearance on the market sells better. An excellent keeper, very productive. Requires lighter soil than Wethersfield or any of the flat onions. Grown extensively by gardeners throughout the world and looked upon by shippers everywhere as "The Ideal Money making" variety. Pkt 5c; 1/2 oz 10c; oz 20c; 1/4 lb 60c; postpaid.

Mammoth Silver King. (White Garganus). One of the greatest, grandest and most delicious Onions ever offered. Grows very large, early; flat, but thick through. Tender and of very mild, sweet flavor; uniform in size and shape. We recommend it for exhibition at fairs, and for the fancy market, as well as the home table. You cannot lose when you plant this Onion. Pkt 5c; 1/2 oz 10c; oz 15c; 1/4 lb 50c; postpaid.

Large White Globe. This celebrated Onion in appearance and quality, the finest in cultivation. Perfectly globe-shaped, with pure white skin; fine grained and of excellent flavor. A good keeper. Like all globe-shaped varieties, it is later in ripening than flat sorts, but brings a higher price on market. Pkt 5c; 1/2 oz 10c; oz 20c; 1/4 lb 60c; postpaid.

GIANT YELLOW PRIZETAKER—This famous Onion is of a beautiful straw color, with pure white flesh, bulbs of this variety are known to have weighed over 5 pounds each. A favorite to slice for salads. Of handsome appearance and a good seller on the market. In size, yield and flavor the Prizetaker cannot be surpassed. Pkt 5c; 1/2 oz 10c; oz 15c; 1/4 lb 40c; postpaid.

YELLOW FLAT DANVERS—The earliest of the yellows. Excellent to grow yellow sets. Flesh white, fine grained, solid. A good keeper. A favorite with gardeners. Pkt 5c; oz 10c. 1/4 lb 30c; postpaid.

YELLOW GLOBE DANVERS—Not so perfectly globe-shaped as Large White Globe, but is one of the most popular and profitable, as well as an enormous yielder. Just the variety to grow for market. Of medium size; skin of a beautiful silver yellow color; flesh white, comparatively mild and well flavored. Pkt 5c; oz 10c; 1/4 lb 30c; postpaid.

MISSOURI YELLOW GLOBE—Undoubtedly one of the finest strains of the Yellow Globe Danvers in existence. Much superior to any other. Very mild, sweet and of beautiful shape, growing to an enormous size. Pkt 5c; 1/2 oz 10c; oz 15c; 1/4 lb 50c; postpaid.

St. L. S. Co.'s NEW PINK PRIZETAKER

Undoubtedly, the handsomest, largest and finest flavored Onion ever discovered. Never before has there been an Onion that could equal it. The greatest novelty of the age. Try this wonderful variety. You will not regret it. Our new Pink Prizetaker cannot be recommended too highly. There is a limit to the good qualities of other Onions. There is no limit to this wonder of the Onion world. You must order early in order to get seed. Our stock we know will be exhausted long before planting season is over. It is just what you have been looking for. The king of all main crop varieties. Pkt 5c; 1/2 oz. 10c; oz. 15c; 1/4 lb. 50c; postpaid.

St. L. S. Co.'s New Pink Prizetaker.

PHILADELPHIA SILVERSKIN—A favorite eastern variety. Makes the best white sets. It is a purer white than Portugal and sometimes sweeter in size. Pkt 5c; 1/2 oz. 10c; oz. 15c; 1/4 lb. 50c; postpaid.

WHITE PEARL—A fine early variety; excellent for sets or pickling. Pkt 5c; 1/2 oz. 10c; oz. 15c; 1/4 lb. 50c, postpaid.

WHITE BERMUDA—True Tenerife Island stock. This large white Onion is also grown extensively by Southern planters. It is one of the very earliest on the market, straw color, with flesh pure white, very mild, delicious flavor, in fact it is known among the gardeners as the "Sure Money" maker, and is always in big demand upon the market. Pkt 5c; 1/2 oz. 10c; oz. 15c; 1/4 lb. 50c; postpaid.

WHITE PORTUGAL—(American Silver Skin).

Grown extensively for pickling and winter use; also largely grown for sets. Of large size, handsome appearance and mild, pleasant flavor. A very desirable variety for family use. Pkt 5c; 1/2 oz. 10c; oz. 15c; 1/4 lb. 50c, postpaid.

AUSTRALIAN BROWN—Is of medium size and of good quality, very early, rather flattened in shape, of brown color, and wonderfully hard and solid. An excellent keeper. Pkt 5c; oz. 15c; 1/4 lb. 50c; postpaid.

EXTRA EARLY BARLETTA—This small round, hard, extra early pickling Onion is undoubtedly the finest ever offered. Having taken the place of the famous Early White Queen, which has been almost forgotten, owing to the popularity of its successor. Our Barletta is of a pure paper white color, very mild and delicate in flavor, and immensely productive, grows from 1 to 1 1/2 inches in diameter; for table use and pickling purposes this famous variety cannot be surpassed. Pkt 5c; 1/2 oz. 10c; oz. 15c; 1/4 lb. 50c; postpaid.

NOTE—Onion crop is the shortest this season ever known, hence our prices may advance during midseason.

WE GUARANTEE that our Onion seed (as well as our other seed) is equal in quality and germination to any in the world—BARRING NONE. And Right Here Let Us Say that "Pure and Sure" 1906 crop Onion seed cannot legitimately be offered you by anyone at lower prices than this catalogue quotes. If it is—BEWARE. We are offering you the newest as well as standard varieties at Bed Rock Prices.

ONION SETS.

PRICES SUBJECT TO MARKET CHANGE.

If ordered sent by mail, add 5c per pint or 10c per quart in addition to the prices listed.

(32 Pounds per Bushel.)

POTATO ONIONS—The small bulbs increase in size, and the parent bulb produces a quantity of bulbs in a cluster. Mild, sweet flavor. The earliest to make a large, ripe bulb. The large bulbs produce the small, and the small the large, alternately. (Small) qt. 20c; pk. 90c; bu. \$3.00. (Large) qt. 15c; pk. 75c; bu. \$2.50.

WHITE MULTIPLIERS—Hardy, early, and a good cropper. Makes "green onions" for very early spring bunching, or can be ripened and used for pickling. Qt. 20c; pk. 75c; bu. \$2.50.

RED BOTTOM—A splendid variety of a dark red color. Qt. 15c; pk. 65c; bu. \$2.00.

YELLOW BOTTOM—Extra choice stock. Qt. 15c; pk. 50c; bu. \$1.75.

WHITE BOTTOM—One of our finest offerings. Qt. 15c; pk. 65c; bu. \$2.00.

(28 Pounds per Bushel.)

SUMMER TOPS, RED TOP, OR BUTTON—The little round bulbs growing on top of the stalk, planted early in the spring in shallow 12-inch drills, about 4 inches apart, slightly covered, and will produce large onions, maturing much earlier than from the seed. Qt. 15c; pk. 75c; bu. \$2.25.

WINTER TOPS, OR PERENNIAL TREE ONION—The bottoms divide, making several "green onions" for spring or fall use. Never make large bulbs. Extensively planted in the fall for spring onions. Qt. 15c; pk. 50c; bu. \$1.75.

Garlic Roots.

GARLIC.

Used for flavoring soups, stews and other dishes. The crop matures in August, when it is harvested like the onion crop. It will pay anyone to store away a large supply of these roots for winter use. Per lb. 40c; postpaid; not postpaid, 25c per lb. or 10 lbs. \$2.00.

PEAS.

One pint will plant about 40 feet of drill. Two bushels will plant about 1 acre of drill.

EXTRA EARLY VARIETIES.

Varieties marked with (*) are "smooth."

St. L. S. Co's **ECLIPSE OR—** This **FIRST OF ALL** won-

derful new private strain receives flattering reports from growers everywhere. Its demonstration on our own trial grounds has proven itself superior to any other early pea. Pods grow large and solid and contain from one to two more peas to a pod than any other early variety. It is a conservative estimate that this wonderful early will yield 20 per cent to 30 per cent larger crop than any other pea ever grown. Vines average a height of about 24 to 26 inches, and produce pods in abundance. The peas are remarkably uniform and of the finest quality. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

ALASKA*—One of the earliest smooth varieties. Pods are of a dark green color, extra well filled and ripen very uniformly. A good cropper and a sure money maker for any gardener. An excellent canning variety. Height about 2 feet. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

FIRST AND BEST*—This well-known standard variety, as its name implies, is one of the "First and Best;" in fact, it is a close second to our famous Improved Extra Early. Market gardeners everywhere will bank their reputation on this assertion. There are many different strains of this celebrated pea on the market, but we have failed to discover any that is superior to our own, or in fact near it. Very prolific. Height about 2 feet. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

GRADUS OR PROSPERITY

—Undoubtedly the best extra early Sugar Pea ever discovered. The pods grow extra large and contain from eight to twelve sweet, luscious peas. Grown extensively by market gardeners for

early trade. This celebrated variety is too well known to need further comment. Height about 18 inches. Pkt 10c; ½ pt. 20c; pt. 35c; qt. 60c; postpaid.

PHILADELPHIA EXTRA EARLY*—A famous smooth eastern variety which has proven itself a money maker for the market gardener everywhere. Very productive and of a fine quality; a robust grower and an ideal early variety. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

EARLY MAY OR FRAME*—This celebrated early variety is one of the very best smooth peas; is of a sweet, luscious, appetizing quality and very prolific. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

EARLY KENT*—One of the famous standard early varieties. Not much advertised recently owing to scarcity of stock. However, we have a good supply on hand, but urge you to order early, as demand will be large. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

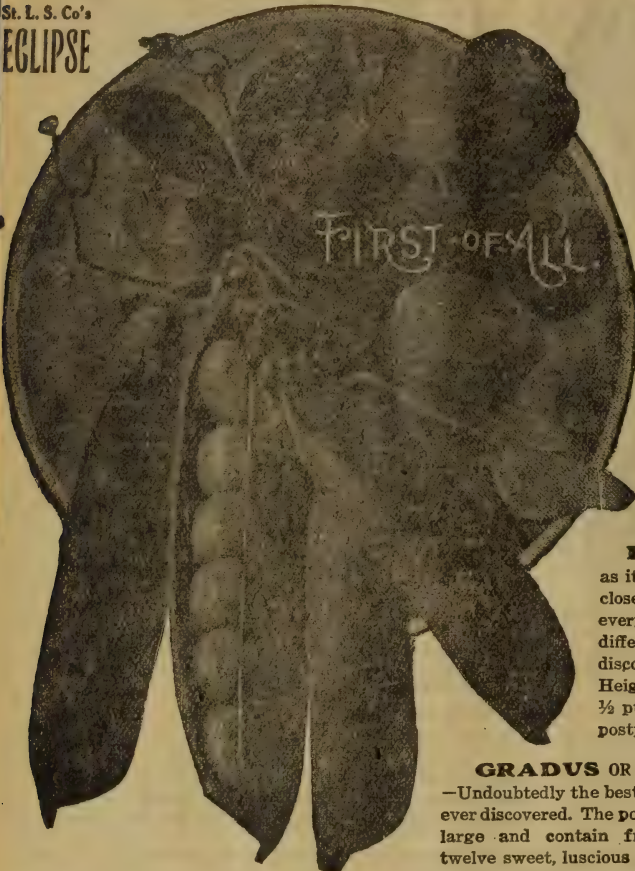

St. L. S. Co's IMPROVED EXTRA EARLY* A prodigy in peas. The King of all extra earlies! In fact, nothing which we have ever offered before has so completely captivated the gardening fraternity as this, our own famous introduction, in a class by itself. Superior to all rivals. Very prolific, bushes becoming loaded with large smooth green peas of beautiful texture. Matures in from 40 to 45 days after germination, very uniformly. In fact, the entire crop may be gathered in one or two pickings. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

EXTRA EARLY DWARF VARIETIES.

AMERICAN WONDER—An early dwarf pea that is a wonderful bearer. Its bushes, growing only about 1 foot high, are literally covered with pods of dark green texture. An elegant market variety, as well as a good home sort. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 45c; postpaid.

McLEAN'S LITTLE GEM—Later than the American Wonder, though pods are of a tremendous size and almost continually bursting with peas of a delicious, appetizing flavor. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

St. L. S. Co's NOTT'S EX- CELSIOR Our new strain of this celebrated standard variety is indeed a winner. A bonanza for market gardeners. In brief, this new strain combines all the good qualities of the Dwarf varieties without maintaining any of their faulty ones. Pkt 10c; ½ pt. 15c; pt. 25c; qt. 50c; postpaid.

"GRADUS" PEA. ALBANG

SECOND EARLY AND MAIN VARIETIES.

NICHOL'S NEW WINNER.

The greatest, grandest and most productive second early pea ever discovered. Originated by our Mr. Nichol and introduced by us. Last season we were unable to supply the demand. People have begun to realize what this new pea means in their garden. Bushes grow to a height of 24 to 26 inches and are laden down with extra long rich colored pods. Owing to its immense size, it requires only about two-thirds as many pods to fill a bushel basket as other sorts, hence you will readily realize it will bring from 40 cents to 50 cents more per bushel than any other variety. Pkt 10c; ½ pt. 20c; pt. 30c; qt. 50c; postpaid.

IMPROVED STRATAGEM

—No variety, unless it be some of the edible-pod sorts, exceeds in size of pod our Improved Stratagem—pods 5 inches long are frequently found, and ten peas to a pod is not unusual. Quality very good. 2 ft. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid;

PRIDE OF THE MARKET—Finer in quality than Stratagem, very productive, and an ideal variety for home use. Medium early. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

IMPROVED SUGAR MARROW

—An ideal smooth marrow pea, grown extensively by gardeners and for home use. Very prolific. Pkt 10c; ½ pt. 20c; pt. 30c; qt. 50c; postpaid.

St. L. S. Co.'s Second Early.

TELEPHONE

—This famous standard variety grows about 2½ feet in height and is a great bearer. With market gardeners it is very popular, which is evidence of its superior qualities. Pods grow to a very large size and are of an excellent appearance. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

WHITE MARROWFAT

—Like the Black-Eyed Marrowfat, this variety is extensively sown as a field crop; also grown for market and home use. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

Nichol's New Winner.

St. L. S. Co.'s SECOND EARLY—This pea is one of the finest second early peas on earth, with the exception of Nichol's New Winner. We say this; weighing each word, and repeat it. Since introducing this wonderful variety we have received enthusiastic testimonials from nearly every corner of the globe. Ripens about two weeks later than our Extra early variety. Pods are of a medium size. Height about 2 feet. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 45c; postpaid.

EVERBEARING—An enormous cropper, though late; very hardy and vigorous; pods and peas are of a large size, sweet and luscious; a favorite main crop sort. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

HORSFORD'S MARKET GARDEN—A favorite among the second earlies. Grown and recommended by truck gardeners everywhere. Productive and luscious. Height about 2 feet. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

CHAMPION OF ENGLAND—The leading late pea of the South, as well as one of the richest and best flavored peas grown. Grows to height of 5 feet, bearing large sized pods. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

BLACK-EYED MARROWFAT—An old-time favorite. Produces well-filled pods. Grown largely by gardeners. Also a field pea for stock. Height 5 feet. Pkt 5c; ½ pt. 10c; pt. 20c; qt. 35c; postpaid.

EDIBLE POD VARIETIES.

TALL MELTING SUGAR—A foreign pea little known in this country. Yet it thrives excellently in this soil. A good, appetizing variety when shelled or cooked in the pod. A wonderfully productive sort. Pkt 5c; ½ pt. 15c; pt. 25c; qt. 40c; postpaid.

DWARF GRAY SUGAR—An ideal early and prolific sort. Dry peas are brownish gray in color. Elegant for cooking—pod and all. Pkt 5c; ½ pt. 15c; pt. 30c; qt. 50c; postpaid.

St. L. S. Co.'s Nott's Excelsior.

PARSLEY.

One ounce will sow 150 feet of drill.

Sow thickly in rows one foot apart and half an inch deep. Press the ground firm after sowing. After the plants are well up thin out to about six inches apart.

NOTE—Always soak the seed in warm water for several hours before sowing.

EXTRA CURLED—The plant is of very robust and free growth and is improved by several cuttings. The leaves are large, beautifully curled, and of a very dark green. It stands heat, drought and cold well and will yield very largely. It is the best Parsley for either the market or family garden. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

Moss Curled or Triple.

Leaves are bright pale green and exceedingly handsome. Highly prized for garnishing and table decorations. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

PLAIN—Leaves are plain or single, and are very dark colored. Is more hardy than the curled varieties. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

HAMBURG, OR ROOTED PARSLEY—Used for flavoring soups, etc. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

Moss Curled or Triple.

PEPPER.

One ounce will produce about 1000 plants.

Sow the seed in hotbeds or boxes, very early in the spring, transplanting to the open ground as soon as it is warm and favorable, in rows 12 inches apart.

GOLDEN DAWN—We can best describe this famous variety as a "Yellow" Ruby King. It is the best of all yellow varieties. Very handsome in appearance, enormously productive and a No. 1 market sort. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 65c; postpaid.

SWEET MOUNTAIN—Larger in size and milder in flavor than Bell or Bull Nose. Otherwise closely corresponds to that variety. Very productive. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

Ruby King. One of the standard Peppers, very large and handsome and of mild flavor. Bright, ruby red color. From 4½ to 6 inches in length, and from 9 to 12 inches in circumference. Grown extensively by gardeners everywhere. Pkt. 5c; ½ oz. 10c; oz. 20c; ¼ lb. 60c; postpaid.

Ruby King.

BELL, OR BULL NOSE—Early and of mild flavor. A favorite for pickling and for use in its natural state. A good bearer. Large, bright red; thick flesh; beautiful in appearance. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

CHINESE GIANT—The largest Pepper. (See yellow pages.)

Long Red Cayenne. Of dwarf growth, bearing long, pungent pods. Very productive, a great market favorite and an ideal home variety. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 60c; postpaid.

RED CHILI—Smaller and later than Cayenne. Extensively used for pepper sauce. Sharp flavor; an excellent sort. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 75c; postpaid.

CHERRY RED—The finest of the small, round varieties, enormously productive, very hot flavored; excellent for pickles, sauce, etc. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 70c; postpaid.

PARSNIPS.

One ounce will sow 200 feet of drill. Five pounds will sow one acre.

PARSNIPS should be sown very early in the spring, owing to the slow germinating of the seed. Parsnips do best in a cool, moist soil, and should be sown in drills 15 inches apart and about one-half inch deep. After the plants are up thin out to about 6 inches apart. For early spring use let the roots remain in the ground through winter. For winter use dig and cover like potatoes. A light covering will be sufficient.

HOLLOW CROWN (Large Sugar)—The best and most widely cultivated variety. Grown extensively everywhere. Grows long, smooth, tender, and is very sugary. An ideal variety for farm, home or market use. Very hardy. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

LONG WHITE—A smooth and very tender variety, well flavored. The best sort for deep soil. Fine appearance. Also called Arlington Long Smooth. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

THE KEY TO GOOD CROPS PURE & SURE SEEDS

Large Cheese.

PUMPKIN.

One ounce will plant 25 hills.
 Four pounds will plant one acre.
 2 pounds will plant one acre (with corn).

Avoid planting near other vine crops; plant in hills, 8 feet apart each way. Can be planted with potatoes or corn, therefore making the ground produce two crops in the same season.

GENUINE MAMMOTH—A beautiful salmon colored variety; skin and flesh yellow and of excellent quality. A splendid keeper and valuable for stock feeding; also prized highly by growers everywhere for exhibition purposes; nearly always being a prize winner owing to its mammoth size. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

CUSHAW CROOKNECK—Excellent for family use. Is of a handsome orange color. Flesh sweet and luscious; many consider it equal to the winter squash; a favorite everywhere. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

JAPANESE PIE—The favorite pie variety, similar in size and form to Cushaw. Matures very early. Of excellent quality. Pkt 5c; oz 10c; ¼ lb 30c; postpaid.

TENNESSEE SWEET POTATO—Bell shaped. Flavor is considered superior to sweet potato. Very delicious for pies. Keeps late in the season. One of the best home varieties. Pkt 5c; ¼ oz 10c; oz 15c; ¼ lb 40c; postpaid.

KENTUCKY FIELD—A large, round, slightly ribbed, soft shell, salmon colored pumpkin, that is very productive and excellent for stock. This variety is a standard sort everywhere, and is also often grown for exhibition purposes. Stock greatly relish this variety. Pkt 5c; oz 10c; ¼ lb 15c; postpaid.

Large Cheese.
 This celebrated pumpkin is adapted to table use as well as stock feeding. Shape flat; skin mottled light green and yellow, changing to a rich cream color. Flesh yellow, thick and tender. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

Kentucky Field.

CONNECTICUT FIELD—A large, yellow variety, with a hard shell. Excellent for stock feeding. The hardiest of all pumpkins and enormously productive. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

LARGE YELLOW FIELD—A good stock variety, planted chiefly among corn, one of the largest and most attractive pumpkins grown. Pkt 5c; oz 10c, ¼ lb 20c; postpaid.

WHITE CUSHAW—A large bottle shaped variety, very attractive, a good seller and enormously productive. Elegant for table or stock use. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

SMALL SUGAR—A small, sweet, delicious variety, of deep orange color. Prized highly for making pies. Very productive. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

DON'T YOU BELIEVE

all the "Taffy," "Hot Air," etc., you see printed in other Seed Catalogues. We give only a true-to-life description of everything listed. It will pay you to read our Novelty Pages.

A Monster Pumpkin.

County Fair

The King of all Pumpkins. The largest, sweetest and most productive pumpkin ever discovered. Mammoth in size. Delicious in flavor.

County Fair is our own introduction. Last season we were unable to supply the demand for seed. Pumpkins grow of monstrous size, last season one having attained the enormous weight of 158 pounds. An ideal variety for home, stock or market use. Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 30c, postpaid.

A Cash Prize of \$25.00

Will be paid to the party growing the largest County Fair Pumpkin this season, seeds to be purchased from us. Report must be verified by your grocer or postmaster and reach us not later than November 10, 1907.

Last Season's Prize of \$25.00 was awarded to JOSEPH H. DOLLMAN, Beaver County, Okla.

Weight of County Fair Pumpkin 158 Lbs.

Early
Scarlet
Turnip.

RADISHES.

One ounce will sow 100 feet of drill.
 Five pounds will sow one acre.

Radishes must be grown rapidly in order to be crisp and tender, and for a succession of crops seed should be sown at intervals of two weeks until September. Light, fresh, sandy loam is the kind of soil in which Radishes thrive best. Good Radishes cannot be grown in heavy soil. They become tough and pithy. The Winter Radish should be sown in the middle of summer. It makes its best growth in the autumn months. Winter Radishes buried in pits out of doors or in earth in a cool cellar will keep delicious and crisp all winter. Sow in drills one foot apart. Thin to about 3 inches apart, after the rough leaves make their appearance.

EARLY TURNIP-SHAPED VARIETIES.

✓ **EARLY SCARLET TURNIP**—The famous small round red Radish so much in demand everywhere. Crisp, tender, solid and brittle. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

✓ **Early Scarlet Globe.** For forcing in greenhouses, hothouses or cold frames. There is no other red variety more desirable or so attractive. It is entirely distinct and one of the earliest. In flavor it is mild, crisp, juicy and tender. It forms a small top and will stand a great amount of heat without becoming pithy. Excellent for the open ground if sown early in the spring. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

✓ **VERFURT DARK RED**—An early round red forcing Radish, very popular with gardeners, also a favorite for the home garden, owing to its extreme crispness. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

✓ **Philadelphia White Box.** This famous white turnip-shaped or globe-shaped Radish is the foremost of its class. It seems to be constantly improving in character under high

culture and careful selection. It is an excellent Radish for forcing under glass or for growing in the open ground. Its short top and rapid growth make it a great favorite with market men, and its mild, sweet quality wins the favor of the consumer. Extensively grown by gardeners everywhere. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

✓ **Early Scarlet Turnip White Tip.** This excellent variety differs from the Early Scarlet Turnip Radish only in being beautifully tipped with white. Very attractive. A fine market sort, either grown outdoors or under glass. Very early. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

✓ **Early Yellow Turnip.** (Golden Dresden.) The best yellow variety, small, round and very attractive, also very early. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

✓ **EARLY WHITE TURNIP**—Size and form of the Scarlet Turnip. Similar except in color. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

Philadelphia White Box.

Half Long and Olive-Shaped Varieties.

✓ **HALF LONG DEEP SCARLET**—A handsome, extra early, half long variety. Roots are somewhat longer than the olive-shaped. Skin is smooth and of a rich, deep color. Flesh white, tender and crisp. Small amount of foliage. It is recommended for forcing. Also called Paris Beauty. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

✓ **FRENCH BREAKFAST**—Too well known to need any introduction. A favorite for private gardens. For home or table use it cannot be surpassed. It is of a beautiful olive shape, scarlet, with white tips. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

✓ **White Forcing Olive-Shape.** The earliest white variety in existence. Ready for pulling in from 18 to 20 days in the open ground, and even earlier when grown under glass. This is altogether a most remarkable and valuable variety. It is of unusually good quality and of a handsome, attractive shape and appearance. Keeps well for such a quick grower. Tops are very small and the Radishes are very solid. The skin is thin, and both the skin and flesh are pure white, of clear and mild flavor, crisp and tender; one of our best offerings. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

✓ **DEEP SCARLET FORGING OLIVE-SHAPE**—Ready for pulling in from 18 to 20 days. They have a small top, are solid, flesh is pure white, of clear and mild flavor, crisp and tender. An excellent variety for outdoors. Pkt 5c; oz. 10c; ¼ lb. 25c; postpaid.

Deep Scarlet Olive Shape.

✓ **St. Louis White Summer.** **Our Great Leader.**—We wish we had space to devote to the many flattering reports we have received regarding our St. Louis White Summer Radish. If you are looking for something to fill the bill both on the market and the table, stop right here, for you cannot find anything better. It is not only the favorite white summer Radish in St. Louis and vicinity, but is popular on the market everywhere. Skin and flesh pure, clear white; tender and of pungent taste. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

St. Louis White Summer.

✓ **Cincinnati Market.** This is an excellent Radish of the long variety, being of a beautiful brilliant scarlet color. It has an unusually small top. The skin being very thin and the flesh crisp and brittle, and of a delightful appetizing quality. It is without a doubt the finest long red radish for forcing, and will outsell any other on the market. For the home garden it cannot be excelled, its shape and popularity makes it a favorite with everyone. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **Market Gardeners' Long Scarlet.** An improved strain of Long Scarlet Short Top, fully six days earlier, has a shorter and more compact top. In shape it is shorter and thicker. In color the upper portion is of unusually deep brilliant red, which gradually shades to a deep, waxy pink towards the end. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **LONG SCARLET SHORT TOP**—The standard long sort grown in private gardens and by market gardeners. Is early and of good quality. Grows half out of the ground. Pkt 5c; oz 10c; ¼ lb 15c; postpaid.

Cincinnati Market.

✓ **ICICLE**—Extra early, smooth, long, white. Derives its name from the transparent whiteness of its roots, which are ready for use in about 23 days after sowing. They grow to about 7 inches in length and have short leaves. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **WHITE LADY FINGER**—(Long Vienna) Of slender, graceful form and remarkably crisp, brittle and tender. Not so good as Icicle for forcing, but has long been popular for open ground culture. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **WHITE STRASSBURG**—Oblong shape, tapering gracefully to a point. Of large size, good quality and resists heat remarkably well. Very tender, and of a delightful, pungent taste. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **LONG BRIGHTEST SCARLET**—(Cardinal.) Fit for use in about 25 days from the time of planting, and continues in good condition until full grown. Small tops and does not run to neck. Decidedly an improvement in earliness and color over other varieties of this class. Of a bright red color, with white tip. Noted for its crisp, tender flesh and handsome appearance. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **WOOD'S FRAME**—Shorter and thicker than Early Long Scarlet, and better adapted for forcing. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **NEW CRIMSON GIANT**—The quickest growing small round radish in existence; ready for the table 18 days from sowing. A bonanza for gardeners. Our greatest introduction last season. Pkt 10c; oz 15c; ¼ lb 40c; postpaid.

✓ **YELLOW SUMMER TURNIP**—Stands the heat well; can be sown late. A general favorite with market gardeners; globe shaped. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

✓ **IMPROVED CHARTIER**—(Shepherd.) Favorite in southern sections for shipping north. It is one of the best sorts for sowing outdoors, particularly in the summer. Roots scarlet-rose above, shading into white at the tip. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

FALL AND WINTER VARIETIES.

✓ **ROUND BLACK SPANISH**—Grows to a large size; very solid. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **LONG BLACK SPANISH**—One of the best for winter use. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **LONG WHITE SPANISH**—Very large. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **ROSE COLORED CHINA**—Form conical; large size; firm and tender; of fine flavor. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **ROUND SCARLET CHINA**—Grows rapidly and holds its size and fine quality throughout the entire summer. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

✓ **CALIFORNIA WHITE MAMMOTH**—Eight to twelve inches long and about 2½ inches thick. Very solid and tender. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

Is the Mark of Quality.

Gentlemen:—I received the parrot yesterday all O. K. and am very much pleased with it.—
 Alice Johnson, Guilford County, North Carolina.

SPINACH.

One ounce will sow 100 feet of drill.
 Ten pounds will sow one acre.

Sow early in April in drills one foot apart and one inch deep. Another sowing can be made about a month later. However, the main crop should be sown the first part of September, protecting the crop with a light covering of straw.

NOTE.—Spinach is one of our great specialties.

Bloomsdale or Savoy. The most popular variety with market gardeners. The leaves are wrinkled in the same manner as the Savoy Cabbage. A crop of this variety weighs much heavier than any other sort. It grows very quickly. Fine for fall sowing. Oz. 5c; ¼ lb. 15c; postpaid.

LONG STANDING—The best for spring sowing. Stands a long time before shooting to seed. Large thick leaves. Excellent for greens. Oz. 5c; ¼ lb. 15c; postpaid.

Victoria. Much later than Long Standing, also a fine variety for spring sowing. The leaves are very heavy and of an almost black green color; of the Savoy type. It can be used when all other sorts have "gone to seed." Oz. 5c; ¼ lb. 15c; postpaid.

New Zealand.

Makes a luxuriant growth all summer. In appearance, entirely distinct from other Spinach. Its quality is very desirable and tender. Soak the seed in warm water before planting. Pkt 5c; oz. 10c; ¼ lb. 35c; postpaid.

ROUND THICK LEAF—Leaves large and fleshy. An excellent market sort. Good for either spring or fall sowing. Grown extensively everywhere. Oz. 5c; ¼ lb. 15c; postpaid.

PRICKLY—One of the standard varieties. Very hardy and vigorous, Triangular, arrow-shaped leaves. Excellent for fall sowing. Oz. 5c; ¼ lb. 15c; postpaid.

Early Emerald.

Introduced by us two seasons ago as No. 12, it has proven itself "a sure winner" both in quality and earliness. Color is of a beautiful Emerald and makes a rapid, luxuriant growth. Just the variety to plant for early "greens." Will undoubtedly prove a valuable market sort. We urge every one to sow freely of this wonderful new variety this season. Pkt 5c; oz. 10c; ¼ lb. 20c; postpaid.

Salsify or Oyster Plant.

MAMMOTH SANDWICH ISLAND. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 30c; postpaid. For full description, culture, etc., see page 35.

Early Linnaeus.

finer quality. Very juicy, tender and almost stringless. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c; postpaid.

RHUBARB ROOTS—Strong Roots. Postage extra 10c each. One year old, each 10c; ¼ doz. 25c; doz. 65c; 25 \$1.00; 100 \$3.50. Two years old, each 15c; 2 for 25c; doz. \$1.00; 25 \$1.75; 100 \$5.00.

RHUBARB.

One ounce of seed will produce about 250 plants.

PLANT roots about 3 feet apart each way in a rich, loamy soil, well manured. Add a supply of manure to the plants each fall. Sow seed in a deep, rich soil in drills 18 inches apart and one inch deep. After the plants are started, thin out to six inches apart. In the fall transplant to prepared ground.

NOTE.—Rhubarb grown from seed should not be cut until the second year.

EARLY LINNAEUS—The earliest and tenderest variety, fine for sauce, pies, etc. Grown largely by gardeners for early market. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 35c; postpaid.

MYATT'S VICTORIA—Later than Linnaeus, but mammoth in size; also of

TOBACCO.

One ounce will sow 20 square feet.

Mix pulverized wood ashes with the soil, sowing the seed very shallow. After the plants are about six inches high transplant into rows about 3½ feet apart. A good way is to burn brush on the ground you intend to sow seed in.

DARK PLUG WRAPPER. Big Oronoka. A favorite Virginia variety. Grows very large, broad leaves. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 60c; postpaid.

KENTUCKY YELLOW—A splendid dark-leaved variety; very large, finest texture. Good for any locality. Pkt 5c; ½ oz. 10c, oz. 20c; ¼ lb. 50c; postpaid.

Missouri Broad Leaf. A well-known standard sort, very large yielder; an ideal sort for home use. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 50c; postpaid.

PLUG FILLER. Yellow Prior. An elegant variety of bright yellow color. Grown exclusively for factories as well as for home use. Fine for twists. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 60c; postpaid.

WHITE BURLEY—The standard main crop variety, which produces one of the most fashionable types for manufacturing and cutting. Mild and sweet. Pkt 5c; ½ oz. 15c; oz. 30c; ¼ lb. \$1.00; postpaid.

CIGAR FILLER. Connecticut Seed Leaf. This variety is a staple crop; carefully selected seed. Very fine aroma. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 50c; postpaid.

CIGAR WRAPPER. Havana. The leading smoking variety. Commands a high price for cigar stock; superior, extra fine. Pkt 5c; ½ oz. 15c; oz. 30c; ¼ lb. 90c; postpaid.

GOLD LEAF—A cross between the Yellow Prior and Oronoka; good either for wrappers or fillers; also fine for pipe or chewing. Pkt 5c; ½ oz. 15c; oz. 30c; ¼ lb. 90c; postpaid.

Mo, Broad Leaf.

Mammoth White Scallop Bush.

SQUASH.

One ounce Early varieties will plant 25 hills. One ounce Late varieties will plant 25 hills; 3 to 4 pounds to the acre.

Plant from 8 to 10 seeds to the hill, thinning out all but 3 or 4 of the strongest plants after they have started. Plant the bush varieties about 5 feet apart, each way, the running kind about 8 or 9 feet apart. The Summer Squash should be used when young and tender, and the Winter varieties should be let ripen thoroughly before storing away for the winter.

SUMMER VARIETIES.

Mammoth White Scallop Bush. This handsome, large, white variety is about twice the size of the Early White Scallop Bush and of a purer white color. In quality it is much superior to the above and is always in big demand, also very early. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

YELLOW SUMMER CROOKNECK—This famous variety is an ideal baking sort as well as being enormously productive. Is of a bush form. Small crooked neck, with warts. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

Improved Striped Cushaw. Our New Squash.

Shell very hard when ripe. An elegant variety in every respect.

EARLY WHITE SCALLOP BUSH (*White Patty-Pan or Cymilins*)—A beautiful white Squash of light cream color, large size, flat. Good for shipping. Hardy and productive. Elegant for home and market use. Pkt 5; oz 10c; ¼ lb 20c; postpaid.

EARLY YELLOW SCALLOP BUSH—Differs from the above in color only, many preferring the yellow sort. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

FALL AND WINTER VARIETIES.

Delicious. Here we have it. A Squash that is superior to anything we have ever before offered. Introduced by us a couple of seasons ago, it at once sprang into popular favor. Its color is almost uniformly a green shade, with occasionally a blue specimen. In size it also closely follows the original Hubbard. In thickness of flesh it surpasses every variety, the color being a dark orange. For table use no squash compares with it in its remarkable combination of fineness and compactness of grain, dryness and sweetness, and exceeding richness of flavor, being excellent at all seasons. Pkt 5c; oz 15c; ¼ lb 40c; postpaid.

Golden Hubbard

IMPROVED STRIPED CUSHAW

—One of our new Squash introductions, which has created demand throughout the entire gardening world. Is of a beautiful variegated coloring, producing stripes of a mottled effect. Very prolific and of medium size, an ideal baking variety, and a money getter on any market. Pkt 10c; oz 15c; ¼ lb 40c.

CHICAGO WARTED HUBBARD—Is an exceptionally good keeper. Is larger than the original Hubbard, and in addition is "warted," which indicates a hard shell and a long keeper. It also is of fine quality. A great improvement over the old Hubbard. Fine for market or shipping. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

Golden Hubbard. This famous variety is of the shape and general character of the Hubbard, but a little smaller, earlier to mature and of rich orange red color, instead of the dark olive green of the old Hubbard. Very fine and delicious. Pkt 5c; oz 10c; ¼ lb 30c; postpaid.

NEW WHITE CUSHAW—A wonderful improvement on the old White Cushaw. Perfect in shape, ideal in quality, an immense yielder and a No. 1 market variety. This new strain will please the most fastidious. Pkt 5c; oz 15c; ¼ lb 35c; postpaid.

St. L. S. Co.'s FORDHOOK—No other Squash has met with such universal favor among our customers as our strain of Fordhook. Being of a wartless, soft shell variety, thus insuring it delicious for baking purposes. The form is oblong, the outer color being of a cream yellow hue, while the flesh is thick and of a dark red appetizing color. Its good cooking and keeping qualities make it a favorite with everyone who likes a nice cooking and baking squash for summer or winter use. Grown extensively by gardeners and truckers everywhere. Pkt 5c; oz 10c; ¼ lb 30c; postpaid.

St. L. S. Co.'s Fordhook.

Winter Crookneck.

HUBBARD. The leading Squash for fall and winter use. Flesh dark yellow, fine grained, being an ideal cooking variety. Very dry, sweet and rich. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

MAMMOTH CHILI—It is of the highest value as a stock food, far exceeding ordinary pumpkins in this respect, and answering as well as root crops. Has reached the enormous weight of 292 pounds. Pkt 5c; oz 15c; ¼ lb 35c; postpaid.

WINTER CROOKNECK—This celebrated variety is too well known to need any introduction. Skin green, mottled and striped like Cushaw Pumpkin. Long, solid neck. Dry, sweet and richly flavored flesh. Fine keeper. Pkt 5c; oz 10c; ¼ lb 30c; postpaid.

 MAGNUS**

THE LARGEST
 TOMATO EVER GROWN
 World's Record, 7 3/4 Lbs.
 The Wonder of the
 Gardening World...
 planted and Praised by
 over 500,000 Gardeners
 Last Year.

Read this Report

GENTLEMEN—
 Having heard of your won-
 derful New Wonder Magnus To-
 mato last season, I sent for one
 packet. Now I regret that my
 whole crop was not planted with
 them. They were delicious as well
 as enormous, the largest weigh-
 ing 7 3/4 lbs. and was 8 1/4 inches
 thick. Your Nichols Greenback
 Cucumbers were also marvelous.
 I grew one that measured 29 inches
 in length and 1 1/2 inches in di-
 ameter. Yours, L. B. PARK.

State of Georgia, Jackson Co. {
 W. A. Shannon, N. P. J. C. {
 Personally appeared before
 me, L. B. Park, who being duly
 sworn, says that he raised this
 year 1906, one New Wonder Mag-
 nus Tomato which weighed 7 3/4
 lbs. and was 8 1/2 inches thick,
 the seed that produced the fore-
 said tomato having been pur-
 chased from the St. Louis Seed
 Co., St. Louis, Mo.
 (Signed) L. B. PARK.
 Sworn to and subscribed in my
 presence, this October 12, 1906.

 the Largest NEW WONDER
 MAGNUS TOMATO Grown in 1906

TOMATOES.

One ounce will produce about 2,000 plants.

ST. L. S. CO'S
NEW WONDER MAGNUS

The Largest, Handsomest, Juiciest and Most
 Solid, as Well as the Earliest Tomato
 in Existence.

Our Greatest Achievement—Our Greatest Introduction

NEVER before in the history of the gardening world has such an enor-
 mous yielding Tomato been produced. Never before have the press
 and public been so aroused over a new product as they are now over
 our NEW WONDER MAGNUS TOMATO. It will revolutionize this wonder-
 ful industry, "Tomato Growing," throughout the civilized world. A Toma-
 to, superior in earliness, superior in size, superior in yield, superior in flavor,
 in fact, many times superior in quality to its nearest rival, is bound to, and
 will in the future, be recognized everywhere as the "KING" of all Tomatoes.

On our trial grounds, before we introduced this variety, we knew what
 the result would be. We knew that this Famous Tomato would give us our
 well-deserved reputation of introducing the Finest Tomato ever offered.
 This broad statement we backed with our confidence. It is not necessary
 to say we WON. Every gardener, every trucker who has tried or seen our
 mammoth offering, knows that we not only WON, but that our New Tomato
 has captured the entire world. We wish we had space to reproduce a few
 of the many thousands of letters we have received from enthusiastic
 growers almost everywhere.

READ DESCRIPTION.—This Ideal Tomato, in richness, flavor and excel-
 lence, is so much superior to any other known variety (except our new
 Nichols' Early Cash Tomato—see Yellow pages) that there cannot begin to
 be any comparison. It is of a beautiful, deep, rich red color, almost as solid
 as a rock, and contains very few seeds. For canning, slicing, cooking or
 serving in any way, its rich, appetizing flavor cannot be equaled. In fact,
 it is a Tomato fit for the gods and a money-maker for everyone. Its appear-
 ance will command almost double the market price, and it is a Tomato that
 will always be in big demand. We urge our customers and friends every-
 where to plant freely of this New Wonder Tomato this season. Pkt 20c;
 1/2 oz. 35c; oz. 50c; 1/4 lb. \$1.75; postpaid.

The
Giant
 of the
Tomato World

St. L. S. Co's **NEW DWARF STONE**—The king
 of all dwarf varieties. Our greatest offering.
 Produces double the size of Dwarf Champion, fully as early and vastly more
 productive, 10 to 12 fruits having been picked at a time. Mammoth in size,
 weighing from 2 to 3 pounds each. A banana for the gardener, a sure money-maker,
 beautiful in appearance, solid in flesh, appetizing in quality. A close second to our
 New Wonder Magnus. Vigorous in growth, perfect in shape. Can be planted one-
 half closer than ordinary varieties. Last season this wonderful variety proved a
 winner everywhere. Does not crack about the stem end; in fact, it is the ideal
 variety, either for market or the home garden. Pkt 10c; 1/2 oz. 15c; oz. 25c; 1/4 lb.
 40c; postpaid.

\$25 FREE

We will pay \$25 to the party who raises the
 largest tomato, larger than the above, grown
 from our New Wonder Magnus Seed during
 the season of 1907. Seed must be purchased
 from us this season. Full report to reach us
 not later than Oct. 1, 1907.

A SURE SIGN OF THE BEST OFFERINGS.

Enormous.

ACME—A large, hardy, productive variety, ripening its first fruit almost as early as any, and continuing to bear abundantly until cut off by frost. Fruit in clusters of four or five; of medium size, perfect form, round, slightly depressed at the ends and very smooth. Free from cracks and stands shipment remarkably well; flesh solid and of excellent flavor. This variety is also used for planting under glass. Color, glossy red, lightly tinged with purple.

ATLANTIC PRIZE—Fruits are borne in large clusters; ripens very evenly, and among the earliest. Color, bright red. A favorite among gardeners. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

BUCKEYE STATE—A beautiful, large, smooth, round variety. It is an immense cropper, bearing its fruit in large clusters, often six to eight in a single cluster. Very showy and striking when displayed for sale. Remarkably solid and meaty. Color about same as Beauty, but deeper shade. Ideal for the home garden. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 90c; postpaid.

IMPERIAL—An extra large, smooth, purple Tomato, very productive. A rank grower, an early yielder lb. 50c; postpaid. Pkt 5c; ½ oz. 10c; oz. 20c; ¼

OUR BUSINESS GROWS BECAUSE OUR SEEDS GROW.

ENORMOUS—This famous variety is enormous both in size and yield, it being the largest smooth, round, red Tomato. Later than Magnus and much larger, and of a clear, bright red color. Flesh is thick and heavy, and there are but few seeds. Very productive and of the choicest quality. Grown extensively for exhibition purposes. Pkt 5c; ½ oz. 15c; oz. 30c; ¼ lb. \$1.00; postpaid.

MAGNUS—Takes first rank for early market. Flesh is very firm. It is a robust grower, setting its clusters closer together than most other varieties. The fruits are usually very deep from stem to the blossom end. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 65c; postpaid.

FAVORITE—A large, bright red variety. One of the largest and most perfect in shape. Smoother than Paragon, darker red than Perfection. A favorite with gardeners and truckers. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

and among the earliest. Color, bright red. A favorite

ductive. A rank grower, an early yielder lb. 50c; postpaid.

LIVINGSTON'S BEAUTY—This standard Tomato is too well known to need any introduction. It ripens with Acme and Perfection, and is a model in beauty and shape, being entirely free from rough specimens. Grows in large clusters and retains its large size late in the season. It is very valuable for shipping and for early market. Color "purple." Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 50c; postpaid.

Ponderosa.

This mammoth Tomato is a great favorite for the home garden because of its immense size, stone-like solidity, delicious quality and beautiful appearance, whether stewed, sliced, fried, stuffed and baked or canned. Contains very few seeds; is all "meat" and of perfect form. Is valuable to grow for market, and forces under glass. Color, glowing crimson. A very heavy yielder. Pkt 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; postpaid.

Ponderosa.

WHITE'S EXCELSIOR—Of a dark, glossy purplish red. Very large and also very solid, the skin being very tough, insuring it an ideal shipping Tomato. As a satisfaction-giving variety it is second to none. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 70c; postpaid.

Truckers' Favorite. A very large purple Tomato of superior quality, solid and free from cracks. An ideal shipper and a superb variety for the table. Pkt 5c; ½ oz. 10c; oz. 20c; ¼ lb. 60c; postpaid.

DWARF CHAMPION—This famous Tomato is a favorite home garden variety. Its stiff, upright stocks are so sturdy as to hold the fruit well above the soil, even without stakes or supports. It is early, and larger than most extra large sorts. Medium to smaller in size—smaller than the great midsummer types. Of superior table quality. *Resembles the Acme in color;* very productive. A sure cropper. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 70c; postpaid.

PERFECTION—An improved Acme, with blood-red skin. Excellent for canning whole. Large, early, smooth, solid and a heavy cropper. A favorite everywhere. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

MATCHLESS—We highly recommend this variety to grow for main crop. Very productive. The fruits are extra large in size, very handsome and always marketable. The skin is remarkably tough and solid, so that ripe specimens picked from the vines will keep in good condition ten days. Color, rich cardinal red. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

White's Excelsior.

Spark's Earliana.

Spark's Earliana. This famous new variety has taken the country by storm. Market gardeners who have tried it are enthusiastic in its praise, and now grow it for early market in preference to any other sort. It is fully a week earlier than any other. It will supersede the Atlantic Prize, because the fruits are not only remarkable for their earliness, but for their large size, perfect form, bright red color and delicious flavor. Ripens clear to the stem and does not crack. Its solidity and fine quality are quite equal to the best medium and late sorts. Grows in clusters of five to eight, averaging 3½ inches in diameter. Pkt 5c; ½ oz. 15c; oz. 20c; ¼ lb. 65c; postpaid.

GOLDEN BALL—A beautiful large, round, yellow sort. Very fine flavored, Excellent for table use. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 70c; postpaid.

Stone. This celebrated Tomato is the leading variety for canning. It has come to be recognized as one of the best of all the standard sorts. Originated by our Mr. Nichol. The fruit is of large size, perfectly smooth, and of best table quality. Its shape, color and quality adapt it to the fancy trade. Color, bright red. We urge every one to plant freely of this wonderful variety. Pkt 5c; ½ oz. 10c; oz. 15c; ¼ lb. 45c; postpaid.

PRESERVING VARIETIES.

HUSK OR GROUND CHERRY—A favorite canning or preserving variety. Pkt 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1; postpaid.

PEACH—Size, shape and color of a peach. A great favorite everywhere. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 75c; postpaid.

YELLOW PEAR—Excellent for "putting up." Can be found in nearly every garden. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 90c; postpaid.

RED PEAR—Also for preserves and "tomato figs" A delicious variety that cannot be surpassed. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 75c, postpaid.

YELLOW PLUM—Popular small yellow for preserving. Used extensively by preserving factories. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 90c; postpaid.

RED CHERRY—Round. Smaller than any of the above, but sweet and more luscious flavor. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 90c; postpaid.

YELLOW CHERRY—Small, round, yellow. One of the best preserving sorts. Pkt 5c; ½ oz. 15c; oz. 25c; ¼ lb. 70c; postpaid.

Stone.

TURNIPS.

One ounce will sow 200-feet of drill; two and one-half pounds will sow one acre.

☉ Purple Top White Globe.

This famous purple top turnip is very desirable for home gardens, and a favorite with market gardeners on account of its shape, size and beauty. Flesh pure white with a red or purple top, and of very rapid growth. It is of the same character and habit as the Purple Top Flat, differing only in its form and leaves, but, owing to the great size and thickness of the root, it will produce twice as much to the acre. It can be sown either broadcast or in drills, and is always a sure cropper. In quality, unsurpassed. Oz 5c; ¼ lb 15c; postpaid.

✓ PURPLE TOP FLAT STRAP LEAF

—The standard variety. Popular both for family and for market use. Pure white, except the purple outer skin above ground. Fine-grained flesh of rich, buttery flavor. Large size. Oz 5c; ¼ lb 15c; postpaid.

✓ WHITE EGG

—A very quick-growing fall Turnip. Should be sown in August. Oval or egg shaped. Flesh very firm and fine grained, flavor mild and sweet. A fine cooking variety. Oz 5c; ¼ lb 20c; postpaid.

✓ Cowhorn.

A beautiful, long, fine-grained turnip, very sweet. Pure white, green top. In shape similar to a cow's horn. Generally used for stock feeding. Oz 5c; ¼ lb 20c; postpaid.

✓ ABERDEEN YELLOW PURPLE TOP.

Hardy and productive, globe shaped. Good for table use and for stock feeding. Oz 5c; ¼ lb 15c; postpaid.

✓ POMERANIAN WHITE GLOBE

—The King of all mammoth white Turnips. Immense white, globe shaped roots, in rich ground, frequently attain the weight of 12 pounds. Considering this size, it matures early. A very good autumn variety for both table and stock. Grown extensively everywhere. Oz 5c; ¼ lb 15c; postpaid.

American Purple Top Ruta Baga.

Purple Top White Globe.

✓ EXTRA EARLY PURPLE TOP MILAN

—Fully a week earlier than any other variety. Flat and smooth, of medium size. Pure white flesh of choice quality. A Good keeper. Fine table variety to grow either in the spring or fall. Oz 10c; ¼ lb 25c; postpaid.

✓ EXTRA EARLY WHITE MILAN

—A selection from the Purple Top Milan, and differs only in color. All market gardeners should try it. Oz 5c; ¼ lb 20c; postpaid.

✓ WHITE DUTCH FLAT STRAP LEAF

—Differs from the Strap Leaf only in color, not having a purple top. Very quick growing. Sweet and fine grained. Oz 5c; ¼ lb 15c; postpaid.

Mixed Turnips.

✓ **YELLOW OR AMBER GLOBE**—Shaped like Purple Top White Globe. Is the staple yellow Turnip, both for table and for feeding to stock. Heavy cropper and keeps well. Flesh firm and sweet. Oz 5c; ¼ lb 15c; postpaid.

✓ **ROBERTSON'S GOLDEN BALL**—Is very solid and of good flavor. Flesh bright orange. Of a globe form, and keeps well. An excellent table variety. Oz 5c; ¼ lb 15c; postpaid.

Mixed Turnips.

All the table varieties of turnips mixed in equal proportions. A desirable mixture for family use. Oz 10c; ¼ lb 20c; postpaid.

✓ **SEVEN TOP**—Grown only for the tops, which are used for greens or salad in the south; also for stock pasturage. Oz 5c; ¼ lb 15c; postpaid.

Seven Top.

☉ RUTA BAGA. ☉

✓ **AMERICAN YELLOW PURPLE TOP**—The most satisfactory variety of Ruta Bagas to grow for either family use or stock feeding. Is very hardy and productive. Flesh, yellow, solid and sweet. Oz 5c; ¼ lb 15c; postpaid.

\$50⁰⁰
 FREE

We will pay the above amount to the CUSTOMER who raises the largest ear of this wonderful new variety this season.

Nichol's Yellow Queen.

The 20th Century Wonder. The Corn with a record of 385 bushels per acre. The largest, handsomest and solidest yellow corn ever discovered. Joy for the farmer, victory for us. Read! Read! Our great 1907 corn offering. A corn that will make you gasp with astonishment; a corn that has proven itself victor over all other varieties; a corn that has produced the highest acre yield ever grown; in fact, as its name implies, it is the *Queen* of all corn. Mr. Wide-Awake Farmer, this is the corn to bank your season's future on. It will not fail you. You will not be disappointed. You will be enthusiastic when husking time comes, and wonder if such enormous yields will ever cease. Our first season's supply is very limited, and we urge you to book your order early.

Yellow Queen's 8 Great Points of Supremacy.

1. It is the most robust yielder of any corn ever discovered.
2. It produces more well developed ears to the stalk than any other corn.
3. It is a *sure* yielder as well as a *sure* 100-day cropper.
4. It produces the most solid and heaviest ears of any yellow corn known.
5. It will thrive in extreme drouth or wet, where other varieties would die.
6. It will grow more bushels on poor land or good land than any other kind.
7. It will out-shell, out-yield and out-sell any other corn on the market.
8. It produces more fodder than any other known variety.

In fact it is superior to any other corn from every point of view. It defies the elements of the weather, and returns yields that please, profit and astonish you. It is the corn "to tie to," no matter where you live. It will do magnificently anywhere, where corn can be grown. The ears are very large, well developed and of a golden yellow color. The grains are deep, and the cob is small. The stalks grow to a medium size in height, being very juicy and bushy, therefore making one of the finest fodder corns obtainable. Many of the stalks produce as high as six ears. There very few suckers found in a field of our Yellow Queen. If you are looking for a corn that will make you more money than any you have ever seen or planted heretofore, stop right now. Here is the corn that will do it. Price: 1 lb 30c; postpaid. By freight or express; 8 lbs (will plant one acre) 65c; pk \$1.00; 1/2 bu \$2.00; bu \$3.50; 5 bu at \$3.40 per bu; 10 bu at \$3.25 per bu.

**\$50⁰⁰
 FOR
 AN
 EAR**

We will pay \$50.00 cash to the party who grows the largest ear of Nichol's Yellow Queen Corn this season, ear to reach us not later than Nov. 1st, 1907, charges prepaid (we suggest sending it by mail). Rules in this contest will be the same as govern all corn

growing contests. Points will be taken as to length, size, diameter, depth of grain, etc. Remember, contestants must purchase at least one peck of Yellow Queen seed from us this season before being eligible to enter contest.

Figure it Out for Yourself.

It costs about the price of thirty bushels of corn to raise one acre. Now at this rate the man who raises but thirty bushels per acre merely breaks even. But the man who raises forty bushels per acre has ten bushels profit. At a value of 60c per bushel his income is \$5.00 per acre for his land—a small dividend, is it not? Now on the other hand, the man who raises 200 bushels per acre has a net profit of 170 bushels per acre, yielding a dividend of \$85.00 per acre, clear of all expenses, including cost of seed, labor, etc. Therefore you will see that a low yield of our famous varieties of corn on one hundred acres of ground would net the grower \$8,500.00, with absolutely no more labor than the thirty-bushel-per-acre man had in producing his yield, for which he received no recompense.

Don't You Think You Had Better Send Us Your Order Today?

Nichol's Yellow Queen.

Actual Size and Shape of a Broken Ear. Taken From a Photograph.

Nichol's Golden Chief.

The Corn that won us fame and glory last season. Introduced by us then for the first time. Conceded by thousands of growers, everywhere, as

THE GREATEST, THE GRANDDEST AND THE BEST 100-DAY CORN EVER OFFERED

READ DESCRIPTION.

The stalks grow medium tall, thick and heavy; the ears grow just the right height for husking; ears grow very long, thick and solid; the cob is exceedingly small, and the big, rich, golden-yellow grains are closely netted together. The yield being enormous, it is without doubt the Corn everybody has been looking for. We could not believe ourselves until after we had seen the big stalks laden down with ears of mammoth size. You must see it grow in order to appreciate its superiority over all other varieties. We wish we had space to devote to the many good points this Corn contains which are minus in other famous sorts. In short, it is a wonder, and as a drouth-resisting Corn it cannot be surpassed. Order early; and beware, you cannot procure this Corn from any other house, as we control all stocks. Remember, we are the sole originators.

PRICE: 1 lb. 25c; postpaid. By freight or express: 8 lbs. (will plant one acre) 50c; per peck 85c; 1/2 bu. \$1.50; bu. \$2.75; 5 bu. at \$2.65; 10 bu. at \$2.50.

Comments Made by Corn Growers:

- "Golden Chief is a well-deserved title for this beautiful Corn."
- "Golden Chief will revolutionise the great Corn belt."
- "Almost beyond belief, a Corn that is worth its weight in gold."
- "Golden Chief for mine; no other for me in the future."
- "You should be proud, Golden Chief will make you famous."
- "No farmer or stockman that could see it would be without it."
- "Golden Chief will prove a God-send to the country everywhere."

DRAWING MADE FROM EAR OF NICHOL'S GOLDEN CHIEF. IS INCHES LONG AND 3 1/4 INCHES THICK.

Just think!
 372 1-4 bushels grown from one acre.
 Can you beat it?

Golden Chief.

A HEART-TO-HEART TALK.

Is not the wonderful, almost unbelievable, yield of 372 1/4 bushels per acre a convincing proof that Nichol's Golden Chief is the proper Corn to plant? Don't stop and say it is impossible, just because you never raised such a crop. We know you never did, unless you planted this famous variety last season. Why? Because you never had an opportunity before to procure this wonderful, mammoth-yielding Corn. We know it is not necessary to urge you to order a big supply. We know you will do it. Every up-to-date farmer will plant, and plant freely, of this new enormous-yielding variety. Every farmer wants to make big money out of his corn crops. The seed that will yield you in abundance fine, big, well-filled ears is the winner. That's why our new Chief is the winner. Wealth must and will come to the man who grows this corn; therefore, get on the right track, step out of the rut, by ordering a few bushels today.

A Word About Ordering Seed Corn.

Last year we were unable to fill all our orders for seed Corn, the demand being far beyond expectations; hence we returned money for several thousand bushels, much to the disappointment of our customers. This year we have provided for a large demand, and, while we are already booking hundreds of orders, we feel that we will be able to fill all orders; but to insure you with obtaining a supply which you had figured on we would advise you to order early; or if you prefer we will book your order and ship at any time you advise. This way it will insure you with being able to obtain your stock of seed Corn without question. Send us your order today. Do it now.

NICHOL'S YELLOW DENT

The Greatest Ninety-five Day Corn Ever Discovered. The Large Deep-Grain Variety. The Small-Cob Corn.

Offered by us last season for the first time, this corn met with universal demand. Growers are enthusiastic about it. They write us from far and near. Never before has a new corn met with such approval. Last season we would have offered it as our leader had we discovered it sooner. Look at the illustration of the ear (about $\frac{3}{4}$ natural size). Look at the grains, 95 days from time of planting. Need we say more. A corn with ears of unusual length, evenly filled, medium long grains and a small cob, together with an enormous yield, such is the makeup of this wonderful new variety. No grower will make a mistake to devote a good share of his ground to this new variety.

Read Description. The ears are large, handsome and well filled from butt to tip. The cob is very small; in fact, a couple of grains will more than reach across it. It is early, sure to mature from 95 to 100 days. It generally produces 3 to 4 well-developed ears to a stalk. The stalks grow from 8 to 12 feet in height. The ears growing midway, it is a natural yielder in spite of excessive wet or dry weather; for latitudes where heretofore corn would not thrive our Yellow Dent will prove a winner. This wonderful new corn combines more merit than any other corn ever discovered in this class. It will produce twice the amount on poor soil than any we have ever tried. It is the corn for you, Mr. Farmer. It is the corn for you, Mr. Stockraiser. It is the corn for everybody, rich or poor; in fact it is the ideal corn of the corn world, and is surpassed by no other 95 day corn.

Read These Reports From Growers Last Season.

"Your Nichol's Yellow Dent is THE BEST corn I ever saw. I planted 40 acres of it last season. This year I will plant 160." E. J. TAYLOR.
 Henry Co., Ohio.

"The seeds I purchased from you last season were fine. I want to tell you about Nichol's Yellow Dent corn, 217 bushels per acre. Greatest yield ever produced in this county, and I'll bet in this state!" THOMAS P. STEUBER.
 Delaware Co., Iowa.

"Hurrah for your seed corn. Your Nichol's Yellow Dent more than discounted anything I ever raised. Why don't you say more about your good seed corn?" ALBERT HARTSUCK.
 DeKalb Co., Mo.

"It would take a thousand tongues to tell you of the enthusiasm your Nichol's Yellow Dent Corn created here this season. Its yield was marvelous. People drove for miles to see my field. Success to you." RICHARD D. OLWELL.
 Fremont Co., Neb.

Now we leave it to you. We want you to try it, we want you to report to us your results next fall. We know what you will say. You will say it is the greatest, the grandest and the handsomest corn you ever saw. Order early, as there is sure to be a big demand. Price: 1 lb. 25c; postpaid. By freight or express: 8 lbs. (will plant one acre) 45c; pk. 75c; $\frac{1}{2}$ bu. \$1.25; bu. \$2.00; 5 bu. at \$1.90 per bu.; 10 bu. at \$1.85.

A Word From Uncle Zake.

"By crickets! don't seem possible that sich corn, oats and wheat could bin raised on such scraggy ground as Bill Perkins'. Them seeds he got from the St. Louis Seed Co. must bin wonderful. I'm going right back and tell Mandy not to order any more seeds from them thar hot air fellers, that says their seed is so alfired good. The St. Louis Seed Co. tells the truth in their descriptions. Why sir, you never saw sich crops as neighbor Perkins has, and he ain't tended 'em, neither. Been gadding about most of the time. While I've been working like *Furie* all summer an' got nothing to show for it, Bill Perkins been living like a king, an' is going to have a lot of crop money to put in the bank. By chowder! the St. Louis Seed Company is going to get my order next time; yes, siree."

Moral. Why wait until you see your neighbor succeed? Start now. Send us your order today.

Grains of Yellow Dent

NICHOL'S GOLD BOND

The Largest, Best and Most Productive Yellow Corn Ever Discovered. The Great 90-Day Yielder. Could our forefathers have had access to such productive corn as our Nichol's Gold Bond, they simply would have been elated beyond expression. Just think! A 90-day corn yielding over 250 bushels per acre. Can you imagine what such a variety of corn as this means to the agricultural world? Little did we think when we offered this big early yellow corn for the first time in 1905 that it was going to create such a demonstration throughout the country as it did. Why, we were compelled to work day and night to fill the orders that poured in from all quarters, and the reports which we received are simply astonishing. From 200 to 275 bushels per acre seems to be its yield. Everywhere it has proven itself the most marvelous and extraordinary corn ever discovered. It grows as naturally as a weed. It produces just as readily. It is an ideal corn to plant for a general crop. Enthusiastic growers pride it as Two-to-One. Better than any other early corn. It is a money maker for anyone. In fact it is the most remarkable corn ever offered. It is the corn for you, Mr. Stockman. It is the corn that is a winner every time. We challenge the world to produce its equal. It can't be done.

Read Description. Stalk grows to a height of 8 to 10 feet; ears grow midway, hence making it easy to pick; all stalks are heavy ear yielders, there being no barren stalks, as is the characteristic of many other noted varieties; ears grow 10 to 12 inches long, being very thick and uniform in appearance, with 18 to 20 rows of very deep, yellow kernels, set on a very small red cob, and well filled over the tips, being capped with a snug-fitting husk, thus insuring it "Frost Proof" in the lowland districts. The leaves grow broad and long, which makes it an ideal fodder corn after husking. This corn is not only good for certain sections, it is good for any climate where corn will grow, north, east, south or west. For high or low lands, it is the best. Do not fail to give it a trial this year. You will never have known the pleasure of growing big, early, yellow corn until you have tried this variety.

Read the Reports. Judge for Yourself.

IOWA—275 Bushels per Acre. *Mr. Daniel Cunningham, Washington Co., Ia., says: "Your Gold Bond is the greatest corn ever seen here. It ripened in 93 days with a yield of over 275 bushels per acre."*

NEBRASKA—263 Bushels per Acre. *Mr. Roy Farrell, Richardson Co., Neb., says: "Hurrah for Nichol's Gold Bond. The seed I purchased from you last spring was the finest I ever saw. The yield was almost beyond my cribs' capacity, 263 bushels per acre."*

KANSAS—252 Bushels per Acre. *Mr. Alex J. Driscoll, Johnson Co., Kans., says: "Your Gold Bond Corn broke all records for yield in this section, 252 bushels per acre. Can you beat it? I will never plant no other."*

MISSOURI—239 Bushels per Acre. *Mr. Richard Hendrickson, Atchison Co., Mo., says: "You certainly lead the world on seed corn. Your Gold Bond eclipsed all records here this summer, yielding 239 1-2 bushels per acre."*

Remember. We are the original introducers of this wonderful yielding corn. If you desire the genuine it must be purchased from us. Many other dealers will proceed to copy our descriptions and push common yellow corn on you for Nichol's Gold Bond. *Beware.*

PRICE: 1 lb. 25c; postpaid. By freight or express: 8 lbs. (will plant one acre) 45c; per peck 75c; 1/2 bu. \$1.25; bu. \$2.00; 5 bu. at \$1.90 per bu.; 10 bu. at \$1.85.

WE ARE CORN SPECIALISTS.

We are breeders and originators of many of the famous varieties of corn on the market today. We devote special pains to have each and every variety true to name. We have seed corn experts who devote their time in the experimental fields from the time the seed is planted until the crop is harvested. We keep each variety separated in the fields, thus insuring no cross breeding, as is the case with many other seed dealers' offerings. Only ears that are perfect seed and true to the type of variety are permitted to go to our sorting and cleaning rooms; there it is tested and any that has not got a high percentage of vitality is discarded. Thus you are insured with getting only "Pure and Sure" seed corn when

Some people look upon buying Seed Corn as an expense. Possibly it has proven so with you heretofore. If so reduce your expense account this year by planting some of our new varieties. They're a paying investment, not an expense. Try them.

Note the Small Cob and the Deep Grains.

Nichol's White

DIAMOND

The 90-day Marvel. The Earliest White Corn in Existence. Wake up, Brother Farmer. Get out of the rut; now is the time. We offer you the opportunity. Read, read and order at once, Nichol's White Diamond, our new white corn; is the wonder of all who have seen it. It is really the corn to bank on. Note the enormous bearing stalks, note the long deep crystal grain on the small white cob. Look at it from all sides and you cannot help but agree with us that it is the greatest white corn ever discovered. No matter where you live, you will find this the greatest white corn you have ever seen. We recommend it for any latitude; whether east, north, south or west, it will prove itself the ideal feeding and yielding variety, as well as the market favorite sort.

Just a Sample of the Testimonials Received Praising This Corn.

"Your White Diamond is the finest Corn I ever saw. I tried it this season as an experiment after reading your Catalogue, and I must say I am more than delighted with the result."
 Van Buren Co., Ia.

FRANK TOWNSEND.

"When I sent to you for seed of your Nichol's White Diamond Corn my neighbors laughed at me. Now it is my turn to laugh. They have the same old 'scraggy' fields of corn, while mine is beautiful beyond comparison, with a yield that will more than double any that has ever been raised in these parts."
 Douglas Co., Neb.

G. B. JOHNSTONE.

"You do not do your wonderful corns justice in your descriptions. The 'White Diamond' seed purchased from you last spring has clearly demonstrated that it is without a doubt the greatest white corn ever discovered."
 St. Clair Co., Ill.

ALBERT MAYSON.

"What you said about 'Nichol's White Diamond' came true. I believe my field will yield away over 200 bushels to the acre. It is indeed a marvelous yield, as well as a beautiful corn."
 Pike Co., Mo.

RUFUS E. SPOTMAN.

We want your testimonial. Your testimonial will be like others. You will be enthusiastic in your report.

First Cause. It is the earliest white corn in existence.

Second Cause. It is one of the most productive varieties ever offered.

Third Cause. It has a large number of rows on the cob, making it an immense yielder.

Fourth Cause. It is the greatest and handsomest white corn you ever saw.

Description. Stalks grow of medium height, laden down with ears of pearly white, on a cob of the same color, and of very small proportion. The ears are well filled from butts to tips and of uniform size, there scarcely being any nubbins. Owing to its extreme earliness, it is sure to mature.

Our first testing yield of this marvelous variety being near the 200 bushel mark. Its supreme whiteness will demand a higher market price than any other variety. We urge you to plant freely of this sort, and again we say, Order Today. Prices: Per lb. 25c; postpaid. By freight

or express: 8 lb. (will plant an acre) 45c; peck 5c; ½ bu. \$1.25; bu. \$2.00; 5 bu. at \$1.90 per bu.; 10 bu. at \$1.85 per bu.

IT DON'T PAY TO PLANT CORN

Unless it is of the best variety. The farmer's foundation for success depends upon his corn yield. Let us urge you to stop planting the old worn-out varieties. You know the result by experience with them. The cost of the change is too great, you may think, but such is not the case. For example, figure out the cost of poor seed corn, even were it free; compare it with the cost of good seed corn. You get 30 or 40 bushels per acre from your old, worn-out varieties. Our new varieties will yield you three or four times that amount. The new kind looks about 99 per cent. better in appearance, which is quite an item when it comes to marketing. It is about the same per cent. better in vitality, which is quite an item also when it comes to feeding, and then your time and labor. One kind requires the same amount of cultivation as the other. In conclusion, Mr. Farmer, don't you think it is cheaper to plant our new varieties? They pay.

THIS IS THE CORN THAT YOU HEARD SO MUCH ABOUT LAST SEASON.

NICHOL'S WHITE STAR

Notice
 the Uniform
 Size, Also
 the Well-Filled
 Butts and Tips.

The GIANT WHITE CORN OF THE WORLD 237½ Bushels per Acre Record.

Our Great White Corn Offering in 1905 proved itself the leader in the 100-day white corn class, as we prophesied when introducing its brilliant future. So it has come. Thousands of farmers and stockmen report enormous crops from this magnificent variety. The yield, did you say? Here are a couple of letters. Read them. They speak for themselves:

"Your White Star Corn, which I planted this season, broke all records here. There must be something about your seed corn that is marvelous, as I have a friend who beat everything in his state (Kansas) with your 'Gold Bond.' I certainly am going to try some of that this year. My White Star yielded 237½ bushels per acre."

"White Star outshines anything ever seen here in the corn line. I purchased 10 bushels from you last spring, and I trust you will not think me enthusiastic when I say it made me ten times more money than any other investment I ever made. Success to you."

"E. T. Rogerson, McLean Co., Ill."

"M. J. Boden, Fremont Co., Iowa."

Need we say more? In our New White Star Corn you will find none of the bad qualities sustained by other white varieties, and not only does it contain all the good points in the makeup of other famous varieties, but many more as well. We used great care in selecting this wonderful new variety, and we have no hesitancy in saying it is without exception the finest and largest yielding white corn in the world.

WE WANT YOU TO TRY IT THIS YEAR.

We want you to write us your results. You will find it to be the purest white, the deepest grain, the smallest cob, with the largest percentage of perfect, smooth ears of any corn you have ever grown. For a bottom ground variety it will outyield by far any other known corn on the market.

Our many growers who have tried this new corn are enthusiastic in their praise, and all prophesy a brilliant future for it. It will undoubtedly prove a prize winner wherever exhibited. Just think of a field of corn laden down with beautiful, silvery ears, not nubbins. Can you resist giving it a trial? Surely you will not continue planting your old stock, or any other new stock of white corn that may be offered you, when you can obtain such a wonderful yielding variety as this is. If we did not know it was the best to be had we would not recommend it as such. Every wideawake, intelligent farmer will realize this. Your success is our success. Our benefits are mutual. Therefore let us urge you to order a liberal supply today. The cost is not great, and the returns will prove to you the best investment you have ever made in the corn line.

DESCRIPTION.

Stalk is of the most vigorous growth, being tall and of a beautiful appearance, with wide, medium length leaves extending thickly around joints, from which shoot ears in abundance. It is a very deep-rooted corn, hence it is not easily injured by wind storms. Neither are the roots near the surface, thus insuring you against any chance of being broken off and the vitality of the plant sapped in cultivation. For a genuine perfect corn in every respect we are sure it will please you.

Price: 1 lb. 25c, postpaid. By freight or express: 8 lbs. 45c; per peck 75c; ½ bushel \$1.25; bushel \$2.00; 5 bushels at \$1.90 per bushel; 10 bushels at \$1.85 per bushel.

"The 'White Star' Corn I purchased from you last spring turned out wonderful, yielded nearly 200 bushels per acre."

"D. C. Lewis, Morgan Co., Ill."

Full Cornercibs.

That is what every farmer likes to see. That is what every farmer would see if he would only stop experimenting with the old, worn out varieties of corn and begin planting some of the new kinds which we are offering. It is a shame to see the amount of good soil, rain and sunshine annually wasted on the old, old worn out stock. Many will not believe that horticulture and agriculture have advanced with the progress made in other lines of commerce. This is a wrong belief; on the contrary both gardening and farming have advanced rapidly, both in quality and quantity. This you can see exhibited at the fairs everywhere each year. Then why not begin this year right by planting the new varieties offered in this catalog? The cost is not as great, comparatively, and the result will surprise you, beyond doubt.

SPECIAL OFFER TO CORN GROWERS.

Our Great Prize Corn Collection,

SIX ACRES OF RECORD-BREAKING, PRIZE-WINNING CORN FOR ONLY \$2.40

8 pounds of each variety; enough to plant six acres.

NICHOL'S GOLDEN QUEEN,
 NICHOL'S GOLDEN CHIEF,
 NICHOL'S GOLD BOND,
 NICHOL'S WHITE STAR,
 NICHOL'S WHITE DIAMOND,
 NICHOL'S YELLOW DENT.

\$2.40

One-fourth bushel of each of the above varieties, only \$3.90.

Plant the best this season. Each of the above varieties are in our Great New Corn Introductions.

THIS ILLUSTRATION IS ABOUT 2-3 ACTUAL SIZE OF AN EAR OF NICHOL'S WHITE STAR.

Nichol's Yellow Beauty. Expert corn growers everywhere predict for this new corn a golden future. It is so much superior to the

famous Iowa Gold Mine there cannot begin to be any comparison. From every point, depth of grain, smallness of cob, productiveness and yield, our new Yellow Beauty will surpass Gold Mine 33¼ per cent. Be one of the first in your neighborhood to grow this money making sort. You will find no suckers or barren stalks in this variety, in fact it is the dent corn we have all been looking for. It is much larger than Pride of the North, and heavier, two ears of this sort weighing as much as three ears of Gold Mine, owing to the extreme smallness of the cobs, which weigh only about 5 or 5½ pounds to the bushel. This is a point that cannot be equalled by any other corn. In order to obtain this wonderful new variety, you must purchase it from us, as we are the sole introducers, and this is the second season it has ever been offered for sale. We confidently recommend this variety as the acme of perfection, and urge you to plant it, and plant it freely.

Nichol's Yellow Beauty will prove a magnificent corn to grow for main crop; indeed we predict you will plant no other when once you have tried it. You will find this corn ready to crib long before your home grown varieties. Now do not wait until after our stock is exhausted, but send us your order today. Price: 1 lb. 20c; postpaid. By freight or express: Peck 50c; ½ bu. 90c; bu. \$1.60; 10 bu. at \$1.50 per bu.

St. L. S. Co.'s Calico. This famous speckled variety is one of the most prolific yielders known. Our imported strain of this old standard

corn is so much superior to its predecessor that there can hardly be any comparison in yield. As will be seen by the tip of the ear in illustration it carries that distinctness of form and closely netted grains that go to make up an ideal corn. Cob is of medium thickness and the grains have a speckled coloring. Hence its name "Calico." Mammoth yields are reported from growers, and in the Great Corn Belt district it is looked upon as a "stand-by" variety, owing to its drought and wet resisting powers. It is a vigorous grower and thrives exceedingly well on thin soil, and is greatly relished by stock of all descriptions. As a flesh producer it is second to no other corn. Stalks are very solid and juicy, and is ranked high as an excellent fodder corn. Price: 1 lb. postpaid, 30c. By freight or express: Pk. 50c; ½ bu. 85c; bu. \$1.60; 10 bu. at \$1.50.

St. L. S. Co.'s Calico.

St. L. S. Co.'s Yellow Clarage. The Farmer's Defense - Here you are, Mr.

Farmer and Stockfeeder, if you are looking for an Early Yellow Corn, go no further, we have it here. Thousands of our customers report wonderful yields from this variety during the past three years. So great has become the demand that it is not necessary for us to say more; only we urge you to order early, as the demand always consumes our supply long before planting time is past.

Read Description. Stalks grow from 8 to 10 feet in height, and are very productive, ears growing in abundance. The leaves are very wide, hence it is an ideal fodder corn after husking. The ears are of uniform shape and size. The grains being of a golden yellow color, it is a No. 1 variety for either the market or feeding purposes. We urge our new customers everywhere to plant freely of this wonderful variety. Price: 1 lb. 20c; postpaid. By freight or express: Peck 60c; ½ bu. \$1.00; bu. \$1.75; 10 bu. at \$1.40 per bu.

Just a Few Reports on Yellow Clarage.

We wish we had room to publish more.

Mr. Thos. McLean, of Blackwell Co., Okla., writes: "The Yellow Clarage produced the biggest yielding crop that has ever been raised in this section."

Mr. John G. Bloomdale, of Washington Co., Pa., writes: "I wish you could see my crop of corn raised from your Yellow Clarage. It is the prettiest and largest yielding corn I ever saw."

Mr. J. V. Thornburg, of Marion Co., Iowa, writes: "Your Yellow Clarage was a wonder in this vicinity. It was idolized by all who saw it."

Mr. William Jorgensen, of Dickinson Co., Kansas, writes: "The Yellow Clarage Corn which I purchased from you last season has won you many new customers in this part of the country."

Mr. John M. McClary, of Douglass Co., Neb., writes: "Of all the handsome, large yielding, pure golden yellow corn I have ever seen, your 'True Yellow Clarage' takes the lead. It is superior to any other variety of corn, both in appearance and productiveness."

Champion Early White Pearl.

Champion Early White Pearl. The earliest snow white Dent Corn. Grown extensively by gardeners for

roasting ears. It is an immense yielding variety, and very uniform in shape, size, etc. Hence its great market demand. For feeding and a general crop corn it is unexcelled; growing as it does, very early, it thoroughly matures. The ears grow very large, the cob small; in fact, two of the large, pearly-white grains will more than cover it. Price: 1 lb. 20c; postpaid. By freight or express: Peck 50c; ½ bu. 85c; bu. \$1.50; 5 bu. at \$1.40 per bu.

Nichol's Yellow Beauty.

thoroughly matures. The ears grow very large, the cob small; in fact, two of the large, pearly-white grains will more than cover it. Price: 1 lb. 20c; postpaid. By freight or express: Peck 50c; ½ bu. 85c; bu. \$1.50; 5 bu. at \$1.40 per bu.

IOWA SILVER MINE.

This is the Corn that Proved a Winner Everywhere.

215 BUSHELS PER ACRE.

Seedmen all over the country report this as one of their main varieties. It has the record of carrying off prizes and sweepstakes everywhere, as well as holding the world's record at one time by producing 215 bushels per acre. It possesses many of the characteristics which have made the Iowa Gold Mine such a favorite, except in color—being a pure white, with deep grains and small cob. Stalks grow 8 to 10 feet in height, and ears set well down toward the ground. Medium early.

PRICE: By freight or express: pk. 50c; ½ bu. 90c; bu. \$1.60; 5 bus. at \$1.50 per bu.

IOWA GOLD MINE.

This famous variety is too well known to need any introduction. Every one who has tried it is enthusiastic in its praise. While this, or none of the other varieties listed on this page, can begin to compare with our new offerings listed on the preceding pages, yet this sort we will admit is one of the best varieties sold by other seedsmen. It is a medium early, ripening a few days later than Pride of the North. Ears of good size and symmetrical. Color, a bright golden yellow. Grain very deep; cob small and therefore dries out very quickly as soon as ripe. It has received everywhere the most cordial indorsement as "one of the best," and "the most profitable varieties ever grown."

PRICE: By freight or express: pk. 50c; ½ bu. 85c; bu. \$1.50; 5 bus. at \$1.40 per bu.

ST. CHARLES.

An old, well-known white variety. Is peculiarly adapted to bottom land, but does well on prairie or upland in a favorable season. A valuable sort for ensilage, owing to its heavy leaf growth. Grains are pearly white, deep and set on a red cob, with 18 to 24 rows. We always have a large demand for this variety from customers everywhere.

PRICE: By freight or express: pk. 50c; ½ bu. 85c; 1 bu. \$1.50; 5 bu. at \$1.40 per bu.

OUR SEMI-MONTHLY PRICE LIST ON FARM SEEDS ISSUED DURING SEEDING SEASON. IT'S FREE. IT WILL SAVE YOU MONEY.

Iowa Gold Mine.

BAGS FREE!

Please remember that our prices on CORN and OTHER GRAIN include cost of Bags for shipping in.

Improved Leaming.

IMPROVED LEAMING.

This famous variety has probably made the corn-growers throughout the United States more money than any other standard sort, being introduced at a time when such corn as ours listed on the preceding pages was unknown. This corn was originally originated by Mr. Leaming, the famous originator in Ohio, and still retains the same characteristics that made it famous. In fact, it is one of the best general-purpose varieties in use today. Classed as 100 to 110 days in ripening. We have known it under favorable conditions to mature in less time. Any farmer wishing to plant for general crop cannot do better than when he selects this variety.

PRICE: By freight or express: pk. 50c; ½ bu. 85c; bu. \$1.50; 10 bus. at \$1.40 per bu.

Iowa Silver Mine.

Reed's Yellow Dent. This celebrated variety is being widely advertised and introduced throughout the country, it being an ideal all-purpose corn, the butts and tips being well filled. Much has been written by experts regarding the good qualities of this corn in Agricultural papers throughout the country; in fact it is one of the most popular varieties in the Central States. The ear is of an excellent shape, growing from 8 to 10 inches long and from 20 to 24 rows to the ear, it is very productive and solid and matures in from 95 to 100 days. Owing to its very beautiful cylindrical shape it is an ideal sort for exhibitions, having carried off many high honors at fairs and corn shows. Our stock of this variety is superb and we can please you beyond doubt. By freight or express: $\frac{1}{4}$ bu 50c; $\frac{1}{2}$ bu 85c; bu \$1.50; 10 bu at \$1.40 per bu.

HICKORY KING—This white corn is a great favorite everywhere. So large are the grains and so small is the cob that on an ear broken in half a single grain will almost cover the cob section. It is of a strong, vigorous growth; the stalks are deep rooted, taking a firm hold in the ground and stand upright. It yields splendid crops on light soil, and is undoubtedly one of the most productive white field corns in existence. Frequently grows with three ears to the stalk. Price: 1 lb 25c; postpaid. By freight or express: Pk 60c; $\frac{1}{2}$ bu \$1.00; bu \$1.75; 10 bu at \$1.65.

Please Remember that all our seed corn is tipped before shelling, thus insuring you with the most perfect seed at all times. If you are a stock man or farmer it will pay you to make note of this fact, and we are sure that after you have done so you will appreciate our efforts in advising you to do so. Again we urge you earnestly to order early in order to avoid our being sold out of any variety you may desire.

Protect Your Stock By Planting

Our Greatest Introduction.

Yellow Queen.
(See page 54.)

The Queen of All Corn.

Pride of the North. A very early dent variety grown everywhere. Stalks small, with broad leaves; ears are short, 12 to 16 rowed, and carry grains clear to the tip. On good corn land it will yield as much as any larger eared variety; owing to its small size it can be planted closer. Its chief use, however, is for planting late in the season. About 90-day. Price, by freight or express: Peck 50c; $\frac{1}{2}$ bu 85c; 1 bu \$1.50; 10 bu at \$1.40 per bu.

Hickory King.

Pop Corn.

Owing to the continued increasing demand for Pop Corn on the market it is fast becoming a profitable crop crop to grow. It will, in fact, pay one to grow it in large fields, as the pure food industries throughout the country are consuming thousands of bushels daily. It is as easily grown as field corn and yields from 3 to 4 times more per acre, bringing a much larger price than the field varieties. The fodder is excellent for stock, thus insuring it a two-fold paying investment. We have taken special pains with our stock this year, and we are in a position to supply you with the best Pop Corn obtainable.

POP CORN MONARCH WHITE RICE—A superior quality of Pop Corn, very easily popped and very sweet, tender and white after being popped. It is very productive. Per lb 25c; postpaid. By freight or express: 1 lb 30c; 5 lbs 40c; 10 lb 65c.

Golden Queen.

GOLDEN QUEEN—One of the largest yellow and most prolific varieties grown. It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch. The stalks grow 6 feet high, and the large ears are produced in abundance. Per lb 25c; postpaid. By freight or express: 1 lb 10c; 5 lbs 35c; 10 lbs 60c.

PEARL—Smooth grained ears, 4 to 5 inches long. Per 1 lb 25c; postpaid. By freight or express: 1 lb 10c; 5 lb 45c; 10 lb 75c.

REMEMBER

We are known as America's greatest Corn Specialists, and you may rest assured that every pound of seed you purchase from us will be found exactly as represented.

Nichol's Wall Street Favorite Wheat.

The Earliest, Largest and Most Productive Fall Wheat Ever Known.

The Wonder of the Wheat World. Yield 83½ Bushels Per Acre.

193 Stalks
 and Heads
 From One
 Seed.

HEADS
 WITH
 OVER
 150
 KER-
 NELS
 EACH

"Hurrah for NICHOL'S WALL STREET FAVORITE! 83½ Bushels grown on the same land that heretofore yielded 25 to 30. Can you beat it? If not, I will beat it next season. I am going to sow new ground and I am positive I will pass the 100 Bushel mark. Gentlemen, your wheat is a wonder." Geo. F. Bidwell, Dickey County, North Dakota.

THINK WHAT THIS MEANS.

Mr. Farmer, are you going to hesitate putting in a crop of this immense yielding wheat? No, we know you will not. No industrious farmer will hesitate one moment. Just imagine had you raised a crop of NICHOL'S WALL STREET FAVORITE this season, the amount of money you would be ahead to-day. Think of the coming crop, it will do just as well. Remember, it is not acclimated to any special wheat regions as a great many other varieties are, but instead, it has its same yielding powers regardless of the locality. We urge you to order a supply at once; our stock is limited. We know we cannot supply the demand, but we want our customers who receive this Catalog to give it a trial.

NICHOL'S WALL STREET FAVORITE is a smooth, strong, healthy wheat, and is seldom troubled with insects that affect other wheats. The straw is very long, with big full solid heads, (see illustration of heads) in fact, it is the wheat that will make any man dollars.

This photograph was taken from nature. Note the fullness of the heads, the firmness of its makeup, remember these are the average size heads and were not selected especially to reproduce in photograph form. It is the ideal wheat.

We urge you to send us your order to-day, do not delay. As this Catalog goes to press we are booking hundreds of orders from neighbors of customers who reaped the reward the last two seasons when we first introduced it. Need we say more? It is the wheat of the nation. Be wise. Order to-day.

Price, Peck 65c; ½ Bu. \$1.15; Bu. \$2.00; 10 Bu. at \$1.85 per Bu.

NICHOL'S NEW PROSPERITY WHEAT.

The Greatest Second Early Fall Wheat Ever Discovered.

A Heavy Yields--Record 79 Bu. per Acre.

A close second to our famous Wall Street Favorite with the exception that it is about 5 to 6 days later, an abundant yielder, a sure cropper, and an ideal variety to plant with Wall Street Favorite, for the reason that by the time you have Wall Street Favorite cut NEW PROSPERITY is ready to cut. We could write pages of the good qualities of this new smooth variety, but for lack of space we must omit it. As a yielding variety it is a close second to Wall Street Favorite, having yielded 79 bu. per acre. In fact, this new wheat we concede superior to all other varieties with the exception of our Wall Street Favorite. Price, peck 50c; ½ bushel \$1.50; bushel \$1.75; 10 bushels at \$1.65 per bu.

Pedigree Fultz (Smooth).

Its yielding powers throughout the North and Northwest is superior to any of the other old-time varieties. Our customers tell us that the main trouble they have in securing this variety from other houses is the fact that it is mixed with common sorts. Our stock is "Pure and Sure" and true to name, being of uniform size and shape throughout. Price--Pk 50c; ½ bu. 85c; bu. \$1.50; 10 bu. at \$1.40.

Fulcaster (Bearded).

As a big crop producer it ranks high, owing to its bearded nature. It is a very hardy variety. In fact, it is an ideal wheat in every respect. Price--Pk 50c; ½ bu. 90c; bu. \$1.75; 10 bu. at \$1.65.

Macaroni Spring Wheat.

Reports of enormous yields come to us from all quarters. It is heartily endorsed by the United States Department of Agriculture; it is a great drought resister, and, in fact, one of the leaders in the great wheat belt region. We have an excellent stock of the seed. Price--Pk 75c; ½ bu. \$1.25; bu. \$2.00; 10 bu. at \$1.85.

NICHOL'S
White Comet

THE KING
OF ALL OATS

Nichol's White Comet Oats

The Oats that has Created Enthusiasm Everywhere.
397 Bushels per Acre--The Record Yield for 1906.

Here you are Mr. Farmer, read, stop and figure. Are you going to be satisfied with 30 to 40 bushels of Oats per acre, when you can raise over nine times that amount from the same land with the same labor?

Certainly you are not. Then do not delay. Don't let your neighbor beat you. Beat him. Send us your order at once.

Nichol's White Comet is the Grandest, the Greatest, the Largest yielding Oats ever discovered. It is a "Money Maker" placed right at your door. We offered it last season for the first time. It is the earliest white Oat ever grown. *Marvelous! Marvelous!* Just think, 397 bushels per acre yield last season. Think what it means to you. Think what it means to the entire world. This Oats has made us thousands of new customers. It has a very long, stiff straw, resisting almost any kind of storms. The heads are laden with kernels of a mealy white flour. It is the Oat you have been looking for. It means money to you. We have an enormous supply, but we know it will melt like snow before the sun, just as soon as the farmers throughout the country read this page. We want you to be one of the first to get your order here.

Read what the Grower says who won our \$100.00 in Gold Prize, which we offered for the Largest Acre Yield in 1906:

"Your White Comet Oats proved exactly as represented in your Catalog. They were the most marvelous yielder I ever saw. When the threshers pulled in they were dumfounded at seeing such beautiful long, stiff straw with such mammoth filled heads. The neighbors for miles around came to view the stand. Say what I may, I cannot explain to you the enthusiasm created by the yield of over 397 bus. per acre, which is the greatest ever saw or heard of here."

"Your White Comet Oats is the grandest variety I ever raised." Wm. Ferguson, Harrison Co., Iowa.

"Hurrah for Nichol's White Comet Oats. They are certainly the finest oats ever discovered."

Frank Moreland, Washington Co., Pa.

"The biggest oat yield I ever saw was grown from your Nichol's White Comet Oats."

Joseph Stanwood, Henderson Co., Ill.

CAN YOU ASK FOR BETTER EVIDENCE?

We regret we have not space to print hundreds of letters similar to the above, and right here we want to say if you are looking for an Oat that will more than double your income than from any Oats you ever raised before, Nichol's White Comet Oats is the variety that will do it.

To Our Customers We Say Plant Them This Year.

If you have had hard times they will banish when you have raised a crop of our White Comet Oats. When we have demonstrated to the world that it is the greatest Oats of modern times the seed we offer you would be cheap if it cost 10 times the price we ask, is not that convincing enough to you to say, "I will try it?" Do it; you will never regret the step, and the next season you will write us words of praise, such as you never wrote before. *Do it, do it,* and do not delay, send us your order today.

Price, ½ bu. 75c; bu. \$1.25; 10 bus. @ \$1.15 per bu.; 20 bus. @ \$1.05 per bu.

\$100 IN GOLD

We will pay \$100.00 in Gold to the party who raises the largest acre yield of our new "White Comet" Oats during the season of 1907. Report must be verified by your thrasher, and reach us not later

than October 1, 1907.

NOTE—The Seed Must Be Purchased From Us This Season.

Early Champion Oats

This is the Oat the agricultural world has gone wild over and well they may. Agricultural papers and writers declare it as the world's greatest Oats, while it is by far one of the best Oats ever discovered. Yet it or no other variety can begin to compare with our great "White Comet," described on the opposite page. Early Champion is noted for its extreme earliness, its mammoth yielding and its general good habits. Early Champion is a vigorous grower, adapted to almost any latitude. It has a stiff straw and in fact it is one of the world's greatest Oats. Price: 1/4 bu @ 50c; bu 90c; 10 bu @ 88c; 20 bu @ 85c.

American Banner.

American Banner Oats

One of our greatest offerings in Oats, an enormous yielder, a sure cropper, an ideal variety, a money maker for you, Mr. Farmer. The finest of all milling oats. Grains are large, white and solid, Ripens early and has a very stiff straw of good length. Never before have you seen its equal. You cannot do better than devote a good share of your land to it the coming season. We wish we had space to devote to the thousands of enthusiastic letters we have received regarding this grand oat. Price: 1/4 bu 50c; bu 85c; 10 bu @ 82c; 20 bu @ 80c.

READ THESE REPORTS.

- "Your American Banner Oats are the finest I ever saw, being an enormous yielding variety and a No. 1 stouter. Jas. E. McGilland, McLean Co., Ills.
- "My crop of American Banner Oats is the talk of the neighborhood. Never before has such a heavy yielding sort been raised here" Frank Stafford, Douglass Co., Neb.
- "The seed Oats I ordered from you last season (American Banner) were the finest I ever saw. They yielded an enormous crop." Alfred G. Mather, Story Co., Ia.
- "I will never plant any other Oats than American Banner; they are good enough for me." T. B. McGowan, Logan Co., Okla.

Black Diamond Oats.

This wonderful variety is the heaviest and handsomest Oat that we have ever handled. It has proven a bonanza to our customers everywhere. The grain is heavy, plump and black color. Very productive, stools heavy, stands well and succeeds in a wide range of country. Under ordinary conditions yields 60 to 80 bushels per acre. 1/4 bu 50c; bu 75c; 10 bu @ 72c; 20 bu @ 70c.

Silver Mine Oats.

The famous large white Oat that so thoroughly revolutionized the farming world a few years ago. It undoubtedly is a marvel, and if you have never raised a crop of Silver Mine Oats it will pay you to do so this season. It is one of the grandest white Oats we have ever offered. It is a heavy yielder, strong, straight straw, stands well, grain snow white color, very heavy. 1/4 bu 50c; bu 85c; 10 bu @ 82c; 20 bu @ 80c.

Texas Rust Proof.

The Ideal Rust Proof variety, grown extensively throughout the South, an immense yielder, a sure cropper, a favorite everywhere. Our stock of this famous variety is superb. Order early. There is always a big demand. 1/4 bu 50c; bu 80c.

Winter Turf Oats.

The standard sort throughout the Sunny South. Turf Oats, sown in October or early November, make a good growth before winter sets in, and can be relied upon to furnish the finest of green pasture all winter through and a good crop of grain the next spring. Very productive. A great industry. 1/4 bu 50c; bu 80c.

SEED POTATOES.

THE CHOICEST OF ALL NORTHERN GROWN STOCK.

OUR GREAT OFFERINGS FOR 1907.

PLEASE READ THE FOLLOWING BEFORE ORDERING:

All orders for Potatoes are booked upon receipt of order, being shipped in rotation as soon as weather permits. When shipment is ordered otherwise, it is shipped at Purchaser's risk, and we will assume no responsibility on account of freezing, etc. We do not charge for Bags, Boxes, Barrels or drayage.

All Potatoes are carefully packed and delivered to the railroad company in good condition, then our responsibility ceases.

PRICES ARE SUBJECT TO MARKET CHANGE.

Our Barrels Hold Full Measure—2½ Bushels.

JUST A WORD ABOUT SEED POTATOES: When you order a supply of Seed Potatoes, you expect something out of the ordinary; you get just what you anticipated—an assortment of the choicest and largest-yielding species procurable. We pride ourselves on having obtained our well-deserved reputation, viz.: "America's Greatest Potato Introducers." Our Mr. Wm. F. Nichol, being known throughout the entire potato-growing world as the "King of Potato Specialists," our new offerings last season clearly demonstrated their superiority over all other rivals. This season we offer you a new Potato of excellent merit—EARLY "DIX" (see Yellow pages). We predict the future of all other great Potatoes as a shadow when compared with this new marvel. The potato-growing industry has become so prominent throughout the United States that it is well to take into consideration the importance of good seeds, as no other crop is more important than Potatoes. Kindly favor us with your orders as early as possible.

"Armugh, Ireland."

NICHOL'S NEW UP-TO-DATE.

The Finest, the Grandest and Most Up-to-Date Late Potato Ever Offered, Introduced Last Season for the First Time.

As modest as we are, we cannot restrain our enthusiasm. Such a mammoth late white potato we never saw before. We christened it Up-to-Date because it more than meets the requirements of the demand. We wish we had space to tell you all we know about this wonderful new late Potato. Up-to-Date is just the right shape; just the right color; just the right size; in fact, it is the ideal of all varieties. Has a good, thick, white skin, with a mealy, white, dry, floury meat that is irresistible.

It is a Potato we know that will not only make dollars for the grower, but please him beyond a doubt as well. A striking characteristic of this new Irish beauty is its productiveness. We will say right here that it will yield more potatoes by far on the same amount of ground than any other late sort you ever saw. We will back this statement by saying that it will be the most beautiful and of uniform size, as well as the highest price demanding potato you ever raised.

Can we say more? Need we say more? Our plea with you to plant freely of this new Potato is a guarantee that is mutual—your interests are ours. We know you will thank us and become as enthusiastic as we when once you see the enormous crop of handsome, large, mealy Potatoes you will raise. If you are not ready to order your seeds now, write us to reserve the amount of Up-to-Date Potatoes you desire, enclosing remittance for same. We want you to secure them. We want you to be one of the happy multitude that will shout praises for this "King" of all late Potatoes next fall. Order today, do it now.

PRICE: By freight or express: ½ pk. 35c; pk. 60c; ½ bu. \$1.10; bu. \$2.00.

NICHOL'S

New Improved PEACHBLOW

OVER 600 BUSHELS PER ACRE.

Read what Mr. Horne says:

"Hurrah for Nichol's New Improved Peachblow! It is the finest Potato I ever raised. I planted five acres and gathered over 3,000 bushels of nice, large, pink-eyed beauties. I will never plant any other variety."
ALEX A. HORNE, Poweshiek Co., Iowa.

This is the wonderful new potato which we introduced in 1905. It is the potato we attached so much faith to. It is the potato that more than fulfilled every promise which we made. In fact, it is the potato that has taken the entire country by storm. Market gardeners report it as the finest potato they ever raised, both in appearance and in quality.

Our New Improved Peachblow for the past four years has been tested with more than one hundred other varieties, and in every case it has proven itself superior to them all, not only in its enormous yielding capacity, but its improved size, the fine grain, the white mealy qualities and excellent flavor which has so long made the old Peachblow such a universal favorite. The potatoes are of a very uniform size, none growing so small but that they can be readily used. It is of a beautiful type, producing large, white, smooth potatoes, with handsome, shallow, pink eyes, giving them a very appetizing appearance when on the market. It is an excellent keeper, and we have never known them to rot, even late in the spring. One potato characteristic it does not contain, and that is it does not have any black or hollow core; in fact, it is so much superior to any other Medium Late Potato there cannot begin to be any comparison. Adding to these points its great attractiveness is one of the main features. Market gardeners and others growing for shipping purposes should take into consideration that it gives to you an ideal potato in every respect. You who were not fortunate enough to obtain stock last season, we urge you to try them this year. You will never regret the test. Order early, as there undoubtedly will be a big demand. Price—By freight or express: ½ pk., 50c; pk., 75c; ½ bu., \$1.25; bu., \$2.25.

Read these enthusiastic reports:

"I did not have much faith in ordering your New Peachblow. Now that I have tried them I would plant no other." **Albert Harrington, Cook Co., Ill.**

"Your New Peachblow Potato is the finest yielder I ever saw." **William Fox, Washington Co., Pa.**

"KING" OF MISSOURI.

One of the Best Medium Late Potatoes Ever Offered—a Close Second to Our Wonderful New Peachblow.

Being an improved late variety of slight russet appearance, growing to an enormous size. It is of a solid type, being firm and of a compact growth; is an excellent yielder and wonderfully productive. It is an improved variety over all other medium late sorts, such as Rural New Yorker and Carmen No. 3. The beauty of this new variety is that practically all the potatoes grow to an enormous size, yielding no small ones, as do other varieties. The term "Jumbo" would really apply to it for a name, notwithstanding its well-earned title, "King" of Missouri.

"King" of Missouri is a beautiful potato, most desirable of shape, very smooth and regular in form, and with a handsome russet skin with an unusually thick netting, making it an ideal shipping as well as a first-class keeping potato. It is of the finest quality, an excellent cooking variety, being of a dry, white, mealy nature. It will undoubtedly prove one of the favorite market sorts, and no one will do wrong to devote a large share of his ground to this new variety the coming season. Prices—By freight or express: ½ pk., 35c; pk., 60c; ½ bu., \$1.10; bu., \$2.00.

"Both your Improved Peachblow and 'King' of Missouri Potatoes proved to be the best and largest yielding potatoes we ever saw." **E. D. Briggs, Douglas Co., Neb.**

"'King' of Missouri Potato certainly is a wonder. From the small lot I obtained from you I raised nearly 500 bushels of monstrous large, mealy potatoes." **Frank Saunders, Richmond Co., Ohio.**

"King" of Missouri.

The Handsomest
and Smoothest
Potato on
Earth.

NICHOL'S KING OF EARLIES

ONE OF THE EARLIEST POTATOES IN EXISTENCE.

Potato Growers, Here is Your Chance. Order To-Day.

A handsome variety which is by far the earliest potato in the world, maturing a week before its nearest rival, it has proven itself superior to the famous Extra Early Ohio, which it very much resembles in appearance. It is composed of a very thick skin, with a beautiful pinkish color, with shallow fair sized eyes. It will undoubtedly prove popular among potato growers as the earliest for market use. It is wonderfully productive, 10 to 15 marketable size potatoes having been produced from a single eye, and the production per acre is immense. Its keeping qualities are better than any other early sort, the tubers remaining sound and in the best of condition until late in the spring. We are the sole introducers of this wonderful early variety, and it is of better quality, which is of choice Northern grown stock, grown for us under contract in the famous Red River Valley. It does not boil to

Nichol's King of Earlies.

pieces as do other early varieties, and it is of better quality. Early Potatoes always bring good prices, even if they are of inferior quality. But when you have a large size, good shape, handsome color and beauty added, together with the superb quality, as is in our New Nichol's Extra Early, it means money in your pocket. If you desire a profitable crop this year—a crop that will surprise and please you beyond doubt, whether for home or market use, plant this variety; it will fill the bill. Price, by freight or express, ½ pk 35c; pk 60c; ½ bu \$1.10; bu \$2.00.

"The potatoes, 'Nichol's King of Earlies,' were the best money makers I ever raised. I had potatoes on the market over two weeks before my brother gardeners. I demanded and got my own price." J. G. Jordan, Mahaska Co., Iowa.

"Your 'King of Earlies' potatoes proved just as you said. I will never plant any other kind. They are finer than words can express." Henry Martin, Deer Lodge Co., Mont.

SWEET POTATOES.

PRICES ARE SUBJECT
TO MARKET CHANGES

We are headquarters for seed Sweet Potatoes. We believe we handle and sell more of the following famous varieties than any other seed house. Our stock is the choicest that can be grown, each variety being grown by specialists in this line.

WHITE SOUTHERN QUEEN—These are the large "Yams," the famous Sweet Potatoes that are so popular in the South. Even the seed Potatoes are monster size, often weighing several pounds each, the gardener's favorite. Pk 50c; ½ bu 90c; bu \$1.50.

EARLY YELLOW NANSEMOND—This Potato is like the above, but averaging longer and not so chunky, very sweet and ideal home or market sort. Pk 50c; ½ bu 90c; bu \$1.50.

EARLY RED NANSEMOND—Similar to our Yellow Nansemond, only being of a red color, which many people prefer to the yellow; very productive. Pk 50c; ½ bu 90c; bu \$1.50.

RED BERMUDA—One of the most popular varieties in existence, being of a very large and solid nature, yielding heavier than any other sort. For market gardening and home use they are superior to all. Pk 60c; ½ bu \$1.00; bu \$1.75.

White Southern Queen.

NOTICE.

All orders for Sweet Potatoes are booked in rotation, upon receipt of same, and shipped just as soon as weather permits (about March 20th). We advise shipping by express. Sweet Potatoes are perishable, and in no case will we be responsible for decay or rot in transit. All Sweet Potatoes are packed in first-class condition and delivered to the transportation company accordingly. Then our responsibility ceases.

NEW WHITE TRIUMPH.

This remarkable early Potato has completely captured the country everywhere. Our customers are shouting words of praise for earliness, quality and yield. It is a record-breaker. It is a magnificent white, extremely fine potato, a great improvement on its famous parent variety. It is a potato that when you once plant you will plant no other. It will please and pay you ten fold over any other improved standard variety. We have tested it in every shape and form, in drouth and in wet. Our test report always shows it a marvel. We want everybody to try it this season. You will be more than delighted. Whether for market or home use, you will find it the "perfect variety." Price: $\frac{1}{2}$ pk 40c; pk 75c; $\frac{1}{2}$ bu \$1.20; bu \$2.25.

RURAL NEW YORK No. 2. This famous late sort we concede as one of the best of the well known varieties. It is quite distinct in appearance, flesh white, quality excellent, shape nearly round, somewhat flattened. Tubers large to very large, but not rough or irregular, eyes quite small, form symmetrical. One of the best late potatoes grown. An enormous yielder. $\frac{1}{2}$ pk 25c; pk 40c; $\frac{1}{2}$ bu 75c; bu \$1.40.

EARLY OHIO. Our stock of this standard old variety is grown for us under special contract by one of the greatest potato specialists in the Red River Valley. Much need not be said of this great potato. Among the standard early varieties it undoubtedly stands at the head of the list. It is a favorite everywhere, and one of the market gardener's money makers. However, neither this or any of the other varieties listed on this page (except our New White Triumph) can begin to compare with our great offerings on the preceding pages. Early Ohio is now widely known and is the popular sort for early planting. It has the advantage of being fit for use and sale even before becoming fully ripe. We have a splendid stock, and we urge you to order early. Price: $\frac{1}{2}$ pk 30c; pk 50c; $\frac{1}{2}$ bu 85c; bu \$1.60.

CARMEN No. 3. This great potato was originated by Mr. E. S. Carmen and is different to other famous varieties that so soon die out. Probably because it is a wonder everywhere and retains its popularity. It is little affected by drouth or bugs, and is a No. 1 yielder, of perfect form, almost every potato being of uniform size or shape, averaging nearly a pound each in weight. It has but few eyes, which are very hollow. Skin and flesh extremely white, having no dark or hollow parts, and its cooking qualities are exceptionally fine. Price: $\frac{1}{2}$ pk 25c; pk 40c; $\frac{1}{2}$ bu 85c; bu \$1.50.

We are Head-quarters for Choice SEED SWEET POTATOES, all of our stock being grown, stored and handled expressly for us, and we are sure will please you.

EXTRA EARLY EUREKA. A grand, new, extremely early Potato. Unlike other extra early varieties, the Eureka does not produce a crop of walnut-size tubers, but all are uniformly large and smooth. It is an extra early and a heavy yielder. It is an excellent keeper for such an early variety, and the quality is choice. It is indeed a highly valuable variety and we are not too strongly recommending it when we say to every potato grower—plant Eureka this year. Price: $\frac{1}{2}$ pk 35c; pk 60c; $\frac{1}{2}$ bu \$1.10; bu \$2.00.

Early Ohio.

EARLY TRIUMPH.

This variety matures its crop at least a week in advance of the Early Rose. Potatoes are of medium size, round and uniform in shape, and but very few small ones. Eyes are slightly depressed, color a beautiful light red. One of the best extra early market varieties, especially for the South. Price: $\frac{1}{2}$ pk 30c; pk 50c; $\frac{1}{2}$ bu 90c; bu \$1.75.

EARLY ROSE. No introduction is necessary for this standard productive variety. For earliness, goodness of quality and a No. 1 market sort it stands in the top rank. Price: $\frac{1}{2}$ pk 25c; pk 40c; $\frac{1}{2}$ bu 85c; bu \$1.50.

SNOW FLAKE. Here is a Potato we take off our hats to. It is the Potato that has been yielding record-breaking crops everywhere, the potato you have seen advertised under assumed names and sold for fancy prices; in fact, it is a close second to our new introductions. The tubers are of a good, medium and uniform size, elongated oval, compressed, exceedingly symmetrical and remarkably uniform. In quality, we do not hesitate to say that nothing can surpass this variety; its meanness, its pure, delicate flavor, and the evenness with which it cooks through, have never been eclipsed by any potato. We offer only the genuine stock. Price: $\frac{1}{2}$ pk 30c; pk 50c; $\frac{1}{2}$ bu 90c; bu \$1.75.

HOW TO SUCCEED GROWING POTATOES is told in T. B. Terry's new book, The "A-B-C" of Potato Culture. It is a book that everyone interested in potato culture should read. Price 40c, postpaid.

CONCAVED SEED POTATO KNIFE.

In offering you our new Concaved and Curved Seed Potato Knife we not only offer you a knife that is good for planting season, but as a household article, for peeling apples, potatoes, etc., it is indispensable, and is good for many years to come. Each, 35c, postpaid.

CLOVER SEED.

(60 Pounds per Bushel.)

Clover seed is one of our specialties, and our facilities for cleaning it are superior to many of our competitors, we leaving no trash, sand or shrunken seed in our stock, as do many other seed houses. Our supply is all choice, fancy re-cleaned stock, the actual test showing that our Choice Grade is equal to any Fancy Re-cleaned seed offered by other houses. Bags and drayage free. Crop is very short this season.

PRICES ARE SUBJECT TO MARKET CHANGES.

Write for Our Semi-Monthly Price List. It Quotes all Farm Seeds at Lowest Market Prices. Issued January, February and March, also September and October.

RED CLOVER—The most practical of all Clovers, being used for hay and pasturage, as well as for enriching lands. Our strictly "Fancy Re-cleaned" grade cannot be surpassed by any one, and we strongly advise all to use this grade. Always bear in mind that it takes *less seed* when you sow the best. Hence, it costs no more than inferior grades. Price: 1 lb 30c postpaid, or 20c per lb by freight or express; 10 lbs \$1.65; bu \$8.60; 100 lbs \$13.75.

MAMMOTH CLOVER (*Sapling*)—Grows much taller and heavier than common Red Clover. Produces an enormous yield and is of high feeding quality. It is a great soil enricher and is far cheaper than any other fertilizer. It will make your soils light and loamy. Do not fail to give it a trial. Price: **Fancy Re-cleaned**, 1 lb 35c, postpaid; by freight or express, 1 lb 25c; 10 lbs \$1.75; bu \$8.75; 100 lbs \$14.00.

CRIMSON CLOVER (*Scarlet Clover*)—This is a highly valuable variety on account of its wonderful quick growth. Sown early in spring it furnishes a large crop of hay in May or June. It may be sown in midsummer or early fall as a catch crop for fine winter pasturage and for early spring, before other grasses or clovers are ready. It does not winter-kill so easily as Red Clover, owing to its mass of roots which spread out and go to the depth of furrow. For hay, it must be cut before coming into *full bloom*. Price: 1 lb 25c, postpaid; by freight or express, 1 lb 15c; 10 lbs \$1.00; bu \$6.25; 100 lbs \$10.00.

ALFALFA CLOVER—The King of Forage Plants—Alfalfa is the corner-stone upon which is being built the prosperity of wide areas of our agricultural country—with its never-failing four to five crops of from six to eight great fattening qualities for horses, cattle, hogs, sheep and poultry; its drought-resisting qualities. After once being rooted, its perennity is more than two decades, while some claim for it immortality. There is not one crop known to the West that pays better returns in cost per acre. The plant is not so fastidious as to soils as has been thought, but flourishes best in a rich, loamy soil. It does not thrive where plant food is deficient. It grows in many dry places without irrigation, but where there is sub-irrigation in dry land, or good drainage in most soils, the plant will go fifty feet down and grow and bloom perennially. The best time to sow is in the spring. In some sections it is sown in the fall. Ground must be very carefully prepared. Price: 1 lb 35c, postpaid; by frt or exp, 1 lb 25c; 10 lbs \$1.75; bu \$9.00; 100 lbs \$14.00.

GENUINE TURKESTAN ALFALFA—Superior to the ordinary variety because of its greater ability to resist drought or drought. It is usually planted in mixture with grasses for pasturage and for hay; especially with Timothy. It is excellent for bees. When once established it yields enormously, and can be cut several times during the season. In recent years failures to secure a stand with Red Clover is of frequent occurrence. We suggest you trying Alsike. Many have done this to their advantage. It is similar to Red Clover in every particular of growth and feeding value. Price: 1 lb 35c, postpaid; by freight or express, 1 lb 25c; 10 lbs \$1.65; bu \$8.60; 100 lbs \$13.75.

ALSIKE OR SWEDISH CLOVER—A very hardy variety that succeeds on any kind of soil and resists extremes of heat and drought. It is usually planted in mixture with grasses for pasturage and for hay; especially with Timothy. It is excellent for bees. When once established it yields enormously, and can be cut several times during the season. In recent years failures to secure a stand with Red Clover is of frequent occurrence. We suggest you trying Alsike. Many have done this to their advantage. It is similar to Red Clover in every particular of growth and feeding value. Price: 1 lb 35c, postpaid; by freight or express, 1 lb 25c; 10 lbs \$1.65; bu \$8.60; 100 lbs \$13.75.

WHITE CLOVER—A small creeping perennial variety, valuable for pasturage and lawns; its flowers are well liked by bees. Flourishes in a variety of soils, but prefers moist ground. It should be included in mixtures for permanent pastures and for lawns. It is effective in preventing the soil from being washed by heavy rains. Price: 1 lb 50c, postpaid; by freight or express, 1 lb 40c; 10 lbs \$2.25; 100 lbs \$16.00.

HONEY OR BEE CLOVER (*Bokhara Sweet*)—Highly recommend by experimental stations; especially adapted to bees, the honey from it being as clear as a crystal. It is also highly recommended as a fertilizer, to be turned under when green. It is a very quick, vigorous grower, and possesses superior qualities to most other clovers. Price: 1 lb 60c, postpaid; by freight or express, 1 lb 50c; 10 lbs \$2.75; bu \$14.50.

JAPAN CLOVER (*Lespedeza*)—A low spreading perennial, very valuable for dry, sandy land. Price: 1 lb 60c, postpaid; by freight or express, 1 lb 50c; 10 lbs \$3.50; 100 lbs \$32.00.

PERMANENT PASTURE MIXTURES.

Every successful farmer and stockman will agree with us that a pasture or meadow of mixed grasses is far superior to a field of Clover or Timothy alone. More grass in the pasture season is an increasing need all over. Land, whether cut-over timber, hilly and dry, or low and wet, needs seeding to suit new conditions. Wild grasses are disappearing. Replace them with tried cultivated grasses instead of weeds. Use our Pasture Mixtures, which contain grasses of the best mixture.

PASTURE MIXTURE "A"—Good Moist Soils. Sow ten to fifteen pounds per acre. This is intended for the average soil. Use more seed where land is dryer. If stock does not keep down to six or ten inches use the mower to do so. Do not pasture too closely. This is well suited for "patching" your present pasture by disking or harrowing in. Price: 1 lb 30c, postpaid; by frt or exp, 1 lb 20c; 10 lbs \$1.75; 100 lbs \$12.

PASTURE MIXTURE "B"—Dry, Hilly Uplands. Sow fifteen to twenty pounds per acre. Recommended for rolling ground, or where stones or sand in soil demand drought-resisting varieties. Plow or disk in where possible, and on unplowed, stumpy or stony ground brush thoroughly. Price: 1 lb 30c, postpaid; by freight or express, 1 lb 20c; 10 lbs \$1.75; 100 lbs \$12.50.

PASTURE MIXTURE "C"—Shaded Pastures. Sow five to ten pounds per acre. This is especially planned to suit the woods, which is often waste except for its timber. Get the seed on and into the ground, do not leave on top of the leaves. The more open use the more seed. Price: 1 lb 30c, postpaid; by freight or express, 1 lb 20c; 10 lbs \$1.75; 100 lbs \$13.50.

PASTURE MIXTURE "D"—Wet, Swampy Soils. Sow ten pounds per acre. Intended to furnish feed where heretofore useless. Burn off the old grass. Use your judgment when and how to sow, keeping in mind washing away by water and getting it covered. Price: 1 lb 35c, postpaid; by freight or express, 1 lb 25c; 10 lbs \$2.25; 100 lbs \$20.00.

TERMS ON THE ABOVE MIXTURES ARE SUBJECT TO MARKET CHANGE

THE WONDERFUL EFFECT OF NITRO-CULTURE.

NOTE—Both vines were planted at the same time in the same soil. The one in the gentleman's right hand was treated with Nitro-Culture.

Nitro-Culture, the New Inoculation.

Will Revolutionize the Growth of Clover. Try It.

To be successful with Alfalfa, or any other variety of Clover, inoculate the seed before sowing. Use *Nitro-Culture*, the 20th Century wonder, praised and endorsed by Agricultural Experts and Practical Farmers everywhere. Trial package (enough for ¼ acre) 50c; 1-acre package \$1.50; 5-acre package \$5.00.

Write for our free pamphlet on "What it is and What it is for." Mailed free.

Special Notice—*Nitro-Culture* is prepared for different varieties of Clovers, Alfalfa, Vetch, etc. Kindly advise us, when ordering, the kind of seed you care to inoculate.

GRASS SEED. PRICES SUBJECT TO MARKET CHANGES.

Timothy.

GRASS SEEDS are sold on a very close margin of profit and the prices named are what we are selling the seed for at the time this catalog goes to press and are subject to market changes at the time of receiving your order. However, you may always rest assured that we will give you value for the amount received, whether the market be up or down. Should you desire a large quantity of anything in this line, write us for special prices, naming the amount needed. Please remember that our quotations are for our best grades of re-cleaned seed and at one-pound rate we prepay the postage. Larger quantities by freight or express at purchaser's expense. Grain bags to hold seed included free.

WE ISSUE A SEMI-MONTHLY PRICE-LIST ON FARM SEEDS DURING JAN., FEB. AND MARCH, ALSO SEPT. AND OCT. IT'S FREE.

TIMOTHY—(45 lbs. per bu.) The best of all grasses for hay. Is occasionally used for temporary pasture. It yields fair crops even on light soils. It should be cut when in blossom, in June or July. It is preferable to sow in the fall, but we sell almost as much seed in the early spring, and it is frequently sown then with equal success. Price: 1 lb. 25c, postpaid. Fancy—By freight or express: 1 lb. 15c; 10 lbs. 75c; bu. \$2.50; 100 lbs. \$5.25. Choice—20c lb., postpaid; by freight or express: per lb. 10c; 10 lbs. 65c; bu. \$2.25; 100 lbs. \$4.90.

KENTUCKY BLUE GRASS—(14 lbs. per bu.) Also called June Grass and Spear Grass. Very valuable and exceedingly popular as a pasture grass. Is too well known among our stock-raising friends to need any comment. It is also valuable as a lawn grass, but we advise sowing a lawn-grass mixture such as our "Havalawn,"

because it contains some Kentucky Blue Grass and white clover. Kentucky Blue Grass forms excellent pasturage for all kinds of stock and in many sections all winter long. It also makes good hay. (Beware of Canadian Blue Grass, which contains thistles, etc.) Perennial; flowers in June; height, 10 to 15 inches. Sow in October or early spring. Fancy solid seed for pastures—1 lb. 25c, postpaid; by freight or express: 1 lb. 15c; bu. \$2.00; 100 lbs. \$14.00. Extra clean in chaff—10 lbs. \$1.00, 100 lbs. \$8.50.

For Lawns, see page 82.

RED TOP—A very hardy native perennial grass, succeeding best on moist land. It accommodates itself to a variety of soils, however, even to quite dry situations, and stands our hot climate admirably. It is, perhaps, the most permanent grass we have. It remains green for the greater part of the year, and its long, trailing stems form a very close matting turf that is not affected by trampling. Sown largely in marshy land or sloughs. Fancy or solid seed—Price: 1 lb. 25c, postpaid; by freight or express: 1 lb. 15c; 10 lbs. \$1.20; 100 lbs. \$9.00. Choice seed in chaff—Price, by freight or express: 1 lb. 10c; 10 lbs. 80c; 100 lbs. \$6.00.

ENGLISH PERENNIAL RYE GRASS—(20 lbs. per bu.) This grass is of as great value to Great Britain as Timothy is to this country. It is invaluable for permanent pastures, for hay if cut when in blossom, and for lawn mixtures. Height 15 to 24 inches. 1 lb. 25c, postpaid; by freight or express: 1 lb. 15c; 10 lbs. \$1.15; bu. \$1.50; 100 lbs. \$7.00.

Orchard Grass.

ORCHARD GRASS (*Rough Cock's Foot*)—(14 lbs. per bu.) A rather coarse perennial grass that forms dense tufts, recommended for partially timbered soils of the central states. Flourishes best in the shade, making it just the grass for sowing where there is timber. It is a deep-rooting grass, withstanding drought remarkably well, is relished by all live stock, and is very quick to recover from close cropping. Flowers in June; height 2½ feet. Price 1 lb. 30c, postpaid; by freight or express: 1 lb. 20c 10 lbs. \$1.65; bu. \$2.00; 100 lbs. \$12.40.

ENGLISH BLUE GRASS—(14 lbs. per bu.) (*Meadow Fescue*.) A valuable pasture grass. Its long and tender leaves are much relished by all kinds of stock. Cured like Timothy, yields a very superior quality of hay. Also called *Sweet Grass*. It is one of the earliest in the spring and latest in the fall. Height 18 to 24 inches. Price: 1 lb. 25c, postpaid; by freight or express: 1 lb. 15c; 10 lbs. \$1.25; bu. \$1.50; 100 lbs. \$9.00.

SMART WEED—An ideal grass for lakes, ponds, etc. Sown extensively around hunting grounds as a wild duck food. Price: 1 lb. 20c, postpaid; by freight or express: 1 lb. 10c; 10 lbs. 60c; 100 lbs. \$5.00.

REED CANARY GRASS—This is also an excellent grass for a covering for wild game and for food, and is sown around spots similar to Smart Weed seed and wild rice. Price: 1 lb. 55c, postpaid; by freight or express: 1 lb. 45c; 10 lbs. \$3.50 100 lbs. \$31.00.

SHEEP'S FESCUE—(14 lbs. per bu.) Fescues are being appreciated wherever introduced. This variety deserves a place in the stock pastures of the central west and southwest. Price: 1 lb. 30c, postpaid; by freight or express: 1 lb. 20c; 10 lbs. \$1.40; bu. \$1.60; 100 lbs. \$10.50.

BERMUDA GRASS—Used extensively in the South for lawns, where other lawn grasses cannot be successfully grown. But it is not desirable for lawns except in the South, as it is affected by the first spell of cold weather. For hay, the first cutting can ordinarily be made in June. It is a creeping plant, putting out roots at every joint, and for binding banks of creeks, dams, etc., or any loose or sandy soils, it is perfectly adapted. Sow seed in the spring, as it will germinate best in warm weather. Price: 1 lb. 70c, postpaid; by freight or express: 1 lb. 60c; 10 lbs. \$5.50; 100 lbs. \$45.00.

JOHNSON GRASS—(25 lbs. per bu.) Extensively grown in the southern states, where during the hottest and driest months it yields large crops of hay. Cut it before the seed tops emerge from the sheaves. Perennial, and a very rapid grower. Sow from August to October, or in spring. Price: 1 lb. 25c, postpaid; by freight or express: 1 lb. 15c; 10 lbs. 90c; bu. \$1.65; 100 lbs. \$6.00.

RED FESCUE—(14 lbs. per bu.) For meadows or pastures on dry, hard or sandy soils. It is very hardy, a true perennial, growing about 1 to 2½ feet high. Price: 1 lb. 35c, postpaid; by freight or express: 1 lb. 25c; 10 lbs. \$1.70; bu. \$1.90; 100 lbs. \$12.50.

HARD FESCUE—Smaller and less vigorous growth than Sheep's Fescue, but has all the good points of that grass for pasture. It suits sandy or dry, hilly soils. It stands heat or cold and prolonged drought. Price: 1 lb. 25c, postpaid; by freight or express: 1 lb. 15c; 10 lbs. \$1.35; bu. \$1.50; 100 lbs. \$9.00.

AWNLESS, OR SMOOTH BROME GRASS—(14 lbs. per bu.) An erect perennial, 3 to 5 feet high. A native of Hungary, where it is considered one of the best hay grasses, yielding a good return in the arid and silicious soil. It has passed the experimental stage, and our customers can sow it with an assurance of success, on account of its remarkable drought-resisting powers. Price: 1 lb. 30c, postpaid; by freight or express: 1 lb. 20c; 10 lbs. \$1.50; bu. \$1.85; 100 lbs. \$12.00.

TALL MEADOW OAT GRASS—(14 lbs. per bu.) This grass should be given the trial its merit deserves. It is a luxuriant grower for early and late permanent pasture. For hay it may be cut twice a year and for green sowing it may be cut four or five times in favorable seasons. It is very hardy, and withstands extreme drought, heat and cold. Height 2 to 4 feet. Price: 1 lb. 35c, postpaid; by freight or express: 1 lb. 25c; 10 lbs. \$1.70; bu. \$1.90; 100 lbs. \$14.50.

Tall Meadow Oat Grass

MILLETS. (50 lbs. per bu.)

PRICES SUBJECT TO MARKET CHANGES.

The several varieties will furnish food for live stock in the form of grain, fodder or pasture. Especially valuable in seasons when the hay crop is short. They make the best hay if cut when in blossom and carefully cured.

COMMON—Requires a dry, light, rich soil, and grows 2½ to 4 feet high, with a fine bulk of straw and leaves, and is excellent forage. Choice—Price: 1 lb. 20c, postpaid; by freight or express: 1 lb. 10c; 10 lbs. 35c; bu. 90c; 100 lbs. \$1.75.

GERMAN, OR GOLDEN—It is usually given preference, by those who use Millets, over the common variety and Hungarian. It is a strong grower and will yield enormous crops of the finest hay, and should be cut before the seeds will harden. Can be sown late after some early crop, and if sown early will mature in time for the ground to be plowed for wheat, and it leaves the ground in fine shape for this purpose. For hay, sow from May to August 1st. For grain, sow in drills not later

June 20th. Fancy—Price: 1 lb. 20c, postpaid; by freight or express: 1 lb. 10c; 10 lbs. 50c; bu. \$1.50; 100 lbs. \$2.75.

HUNGARIAN—Commonly called Hungarian Grass. A quick-growing, valuable forage plant. May be sown at any time during the summer up to the middle of August. It has a long, slender head, and is darker in color than the German. Price: 1 lb. 20c, postpaid; by freight or express: 1 lb. 10c; 10 lbs. 40c; bu. \$1.25; 100 lbs. \$2.25.

CAT TAIL, OR PEARL—Does not at all resemble the ordinary variety of Millet. It is of tall growth and yields a large crop of fodder. No other crop yields so much forage as this when sown on richly-manured ground. Price: 1 lb. 25c, postpaid; by freight or express: 1 lb. 15c; 10 lbs. \$1.00; bu. \$4.00; 100 lbs. \$7.50.

SIBERIAN—More productive than the German or Golden, and of superior quality. Is superceding all other varieties in some sections. Price: 1 lb. 20c, postpaid; by freight or express: 1 lb. 10c; 10 lbs. 40c; bu. \$1.40; 100 lbs. \$2.25.

HOG MILLET—Ideal to sow around marshes and ponds. Greatly relished by swine. An excellent duck feed. Price: per bu. \$1.65; per 100 lbs. \$3.00.

Pearl Millet.

PENCILARIA—(One pound will plant one acre.) Is much superior to Corn Fodder, Kafir Corn or any other similar plant, and yields 3 to 4 crops each season. Stock are very fond of it; in fact, prefer it to any other forage plant. We urge our customers everywhere to try at least an acre of it this year. Price: 1 oz. 5c; ¼ lb. 10c; 1 lb. 30c; postpaid; by freight or express: 1 lb. 20c; 10 lbs. \$1.75; 25 lbs. \$3.75; 100 lbs. \$12.50.

WILD RICE.

Valuable as a forage plant for swamps and inundated lands, but chiefly as an attraction for wild fowl, ducks, geese, etc. Before sowing, soak in water for 24 hours. Sow in water which is from 6 inches to 5 feet deep, with soft mud bottom. In running water, sow out of strong current. Sow in fall, as seed must be sown before it becomes dry. We make shipments in September only. 1 lb. 50c, postpaid; by freight or express: 1 lb. 40c; 10 lbs. \$3.00; 25 lbs. \$6.25.

SPELTZ.

(40 pounds per bushel.)

Of high value for feeding and will make a fair grade of flour. Makes excellent pasturage and good hay. The grain is claimed to be much richer than corn for feeding, and of superior quality for fattening hogs, cattle, sheep, poultry, etc. Usually sown in the spring. By freight or express: pk. 50c; bu. 90c; 2 bu. at 85c per bu.

BUCKWHEAT.

(52 pounds per bushel.)

JAPANESE—About a week earlier than Silver-Hull and yields more. The flour made from it is equal in quality to any other buckwheat, while it is much more productive than any other, and succeeds well far north. The straw is heavier and it branches more; it does not need to be sown as thickly as other kinds. Best for bees. 1 lb. 20c, postpaid; by freight or express: 1 lb. 10c; pk. 40c; bu. \$1.40; 2 bu. at \$1.30.

SILVER-HULL—Very good popular variety. Grain is of light gray color, rounder than the common variety, has thinner husk, earlier, and yields more. 1 lb. 20c, postpaid; by freight or express: 1 lb. 10c; pk. 40c; bu. \$1.40; 2 bu. at \$1.30.

TEOSINTE. *Three pounds will sow one acre.*

This excellent fodder plant is grown largely in all parts of the country. It somewhat resembles corn in its general appearance, but the leaves are much longer and broader and the stalks contain sweeter sap. One plant is considered sufficient to feed a pair of cattle for twenty-four hours. Eighty-five stalks have been grown from one seed, attaining a height of eleven feet. Price: oz. 10c; ¼ lb. 30c; 1 lb. 75c, postpaid; by freight or express: 1 lb. 65c; 3 lbs. \$1.75.

Pencilaria.

Teosinte.

DWARF ESSEX RAPE.

PRICES SUBJECT TO MARKET CHANGE.

The demand for Dwarf Essex Rape is becoming so great that it is increasing many-fold each year. It is easily grown everywhere, and it always gives the best of satisfaction. As a forage plant for hogs, cattle or sheep it cannot be surpassed.

There is but one true variety, and that is English Grown, and we offer you the true stock—not German Rape, as is sent out by so many other houses. 1 lb 20c; postpaid. By freight or express, 1 lb 10c; 10 lbs 65c; 25 lbs. \$1.40; 100 lbs \$5.25.

CANE.

PRICE SUBJECT TO MARKET CHANGE.

EARLY AMBER—Farmers and stockmen say that Early Amber Cane is the most valuable fodder plant in existence. Not only is it adapted for feeding purposes, but its great qualities as a Sorghum producer is one of a paying investment, and has attracted general attention everywhere. It is profitably grown anywhere from Manitoba to Mexico, on any good corn ground, and is but little affected by drouth. 1 lb 20c; postpaid. By freight or express, 1 lb 10c; 10 lbs 30c; 25 lbs 60c; 100 lbs \$1.75.

EARLY ORANGE—A variety well adapted for the South. It is from eight to ten days later than the Early Amber and produces a syrup of excellent quality. 1 lb 20c; postpaid. By freight or express, 1 lb 10c; 10 lbs 40c; 25 lbs 65c; 100 lbs \$2.00.

MIXED CANE—1 lb 20c; postpaid. By freight or express, 1 lb 10c; 10 lbs 25c; 25 lbs 50c; 100 lbs \$1.50.

KAFFIR CORN.

One of the finest fodder plants, yielding two crops each season. Stalks grow to a height of five to six feet; each bearing numerous wide leaves. It is a wonderful yielder and one of the most profitable crops grown.

White Variety, 1 lb 20c; postpaid. By freight or express, 1 lb 10c; 10 lbs 30c; 25 lbs 65c; 100 lbs \$1.75.

Red Variety, grows taller than the white variety. Price 1 lb 20c; postpaid. By freight or express, 1 lb 10c; 10 lbs 40c; 25 lbs 85c; 100 lbs \$2.00.

Kaffir Corn.

Early Amber Cane.

the plants, or in spring, with oats or barley. It is the earliest crop for cutting, being nearly a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for planting spring crops. Price, 1 lb 30c; postpaid. By freight or express, 1 lb 20c; 10 lbs \$1.25; 25 lbs \$2.60; 100 lbs \$9.50.

St. L. S. Co.'s CHOICE SEED RYE—(50 pounds per bushel.) If sown early in the spring it makes an early and abundant pasture. 1 lb 20c; postpaid. By freight or express, 1 lb 10c; pk 30c; bu 90c; 2 bu at 87c per bu.

FLAX—(50 pounds per bushel.) Is one of the most productive and profitable crops and will yield you many fold the returns from numerous other crops. 1 lb 20c; postpaid. By freight or express, 1 lb 10c; pk 50c; bu \$1.65; 2 bu at \$1.60 per bu.

Gentlemen—"You may just use any words of praise you desire to express my delight and pleasure with the parcel you sent me. It is perfection in every respect."—W. W. Rose, St. Louis, Mo.

Send for Our Circulars on Growing Rape, Cane and Kaffir Corn.

BROOM CORN.

Possibly no other crop is more valuable than Broom Corn. Owing to the immense demand by factories everywhere, it is fast becoming one of the best money making crops.

STANDARD EVERGREEN—Grows about eight to ten feet high, stands up well and is entirely free from crooked brush. The fiber is long and fine. It will not get red in the field before it is cut, but is strictly a green variety of brush. Price, 1 lb 20c; postpaid.

By freight or express, 1 lb 10c; 10 lbs 50c; 25 lbs \$1.25; 100 lbs \$3.50.

LONG GREEN—This variety is much superior to the above, being of a taller and stiffer brush. Used extensively by factories. Price, 1 lb 25c; postpaid. By freight or express, 1 lb 15c; 10 lbs 65c; 25 lbs \$1.25; 100 lbs \$4.00.

"BROOM CORN AND BROOMS."

A treatise on raising Broom Corn and making Brooms on a small or large scale. Illustrated. Cloth, 50c; postpaid.

WINTER OR HAIRY VETCH.

Should be sown during August and September, mixed with Rye, it serves as a support for

Hairy Vetch.

COW PEAS.

Our Cow Peas are home grown stock.

Subject to Market Changes

Cow Peas are too well known in the South to need any description and have been used to such an extent in sections close to us and farther north that their adaptability to these latitudes is past the experimental stage. They are usually compared with clover. There feeding value is about equal, and many claim them superior, and their fertilizing value for land is about the same as clover. They can be sown from corn-planting time, in the spring, to September 1st. It takes 1½ to 2 bushels for an acre. There are a large number of varieties, but we list only a few, and these are the most popular and best sorts.

WHIPPOORWILL—The favorite early bunch-growing variety, has brown speckled seeds. 1 lb 20c; postpaid. By freight or express, 1 lb 10c; pk 65c; bu \$2.25; 10 bu @ \$2.00.

CLAYS—A favorite with some for hay. Makes a heavy growth of vine and is late in maturing. 1 lb 20c; postpaid; by freight or express, 1 lb 10c; pk 65c; bu \$2.25; 10 bu @ \$2.10.

BLACK—Seed black; best sort for planting with Fodder, Corn, Rye, Oats, etc., when mowing and curing for hay. Will make an enormous growth of vine in a short time. Equal to either of the above in feeding value, and is possibly the best variety for poor soils. 1 lb 20c; postpaid; by freight or express, 1 lb 10c; pk 65c; bu \$2.25; 10 bu @ \$2.10.

NEW ERA—The famous standard variety, grown extensively everywhere. 1 lb 20c; postpaid; by freight or express, 1 lb 10c; pk 50c; bu \$1.85; 10 bu @ \$1.75.

MIXED—We always have a supply of mixed varieties; usually a little lower in price because of this, and equally valuable for soiling. 1 lb 20c; postpaid; by freight or express, 1 lb 10c; pk 50c; bu \$1.75; 10 bu @ \$1.65.

CANADA FIELD PEAS—Quite distinct from the Cow Peas, yet similar in all valuable properties as fertilizer, food, etc. 1 lb 20c; postpaid; by freight or express, 1 lb 10c; pk 60c; bu \$1.75; 10 bu @ \$1.70.

FIELD BEANS

Large White Marrowfat—The Ideal Field Bean

LARGE WHITE MARROWFAT—Our greatest offering in Field Beans this season is our Large White Marrowfat. It is undoubtedly the most prolific bean grown; an ideal winter shelled variety. Pkt 10c; ½ pt 20c; pt 35c; qt 60c; postpaid.

WHITE NAVY—The standard White Bean, smaller than the above. ½ pt 15c; pt 20c; qt 35c; postpaid.

SEE PAGE 17 FOR PRICES ON LARGER QUANTITIES ON THE TWO ABOVE VARIETIES.

SOJA OR SOY BEANS—Like Cow Peas, they are grown for the grain for soiling food, for ensilage, for pasture and for green manure. Their greatest value, however, will be found in furnishing food for dairy cows, as they are in proper condition for being thus fed at that season of the year when but few plants are available for such use. 1 lb 25c; postpaid; by freight or express, 1 lb 15c; pk 75c; bu \$2.60; 10 bu @ \$2.50.

VELVET BEANS—Used almost exclusively in the South as a forage plant and also as a fertilizer for turning under in the same way as Cow Peas. Stock readily eat the vines and leaves, and the beans, when ground with or without the pod, are used in place of oats or corn, or mixed with them. 1 lb 25c; postpaid; by freight or express, 1 lb 15c; pk \$1.00; bu \$3.50.

PRICES ON ALL FARM SEEDS

BARLEY (48 Pounds per Bushel.)

SUCCESS BEARDLESS BARLEY—Earliest variety in existence; is a heavy yielder. 1 lb 20c; postpaid; by freight or express, 1 lb 10c; pk 50c; bu \$1.25; 2 bu @ \$1.20 per bu.

SPRING BARLEY—A close second to the famous Beardless Barley. 1 lb 20c; postpaid; by freight or express, 1 lb 10c; pk 25c; bu 85c; 2 bu @ 80c per bu.

SUNFLOWER.

MAMMOTH RUSSIAN—Sunflower Seeds are superior food for poultry (said to improve the meat). The plant affords efficient protection from malaria, and should be liberally planted in hedges about the house in all districts where this insidious disease prevails. 1 lb 20c; postpaid; by freight or express, 1 lb 10c; 10 lbs 70c; 25 lbs \$1.25; 100 lbs \$5.00.

PEANUTS—Yield largely and are a paying crop. Planted in April, they ripen in August, and planted as late as July 1st, they will mature full crops before frost.

White—1 lb 25c; postpaid. By freight or express, 1 lb 15c; 10 lbs \$1.25.

Spanish—1 lb 25c; postpaid. By freight or express, 1 lb 15c; 10 lbs \$1.25.

STOCK MANGELS.

See Page 17 for Prices in Large Quantities.

No crop pays the stock raiser better than Mangels. As high as 2,000 bushels having been grown to the acre. Greatly relished by cattle, horses, hogs, sheep, chickens, etc. Sow about 5 pounds of seed to the acre.

GOLDEN TANKARD—The best yellow for stock feeding. 1 oz 5c; ¼ lb 15c; postpaid.

MAMMOTH LONG RED—(Norbiton Giant or Jumbo Mangel.) Enormous and of fine quality. 1 oz 5c; ¼ lb 15c; postpaid.

VILMORIN'S IMPROVED—The best variety for producing sugar. 1 oz 5c; ¼ lb 15c; postpaid.

Stock Mangels.

WHALE-OIL SOAP—1-lb. cartons, 15c; 5 lbs., 75c.

PARIS GREEN—¼ lb., 15c; ½ lb., 25c; postpaid; by express, 1 lb., 25c; 5 lbs., \$1.00.

ST. L. S. CO.'S SPECIAL LAWN AND GARDEN FERTILIZERS

PRICES QUOTED ARE BY FREIGHT OR EXPRESS.

The farms of our land were never in such need of fertilizing as they are to-day. The Government Experiment Stations have proven that with the use of fertilizer you can raise much larger and finer crops, and without drawing on the land for all its nutriment. Reports show that the Western States are "waking up," and that there has been from 500 to 1,000 per cent. more increase in different States in the past year in the use of fertilizers. Eastern farmers never think of sowing wheat and grasses without sowing fertilizer also, and our western customers will soon do the same. The proper time to fertilize in St. Louis latitude is September for fall sowing and March for spring sowing.

ST. L. S. CO.'S UNIVERSAL FERTILIZER FOR LAWNS AND GRASSES—Is guaranteed to be uniform in composition, to contain not less than 5 per cent. ammonia, 4 per cent. of actual potash and 3 per cent. soluble phosphoric acid. To give a spoonful to each hill of corn requires about 400 lbs. to the acre; grass, 400 lbs.; potatoes, 400 lbs.; turnips, 200 lbs.; roots in drills, 250 lbs. Garden soil for general crops requires 400 to 600 lbs., well mixed, etc. The best fertilizer in existence for lawns. 25 lbs., 75c; 100 lbs., \$2.25; 500 lbs., \$9.00; 1 ton, \$33.

COTTON SEED MEAL, an Ideal Fertilizer for the Lawn—Does not burn or injure the young grass, as do some other cheap fertilizers offered by other houses. 25 lbs., 75c; 50 lbs., \$1.25; 100 lbs., \$2.50.

PURE BONE MEAL, for Farm Purposes—It will take from 200 to 500 lbs. to the acre, according to crop. 10 lbs., 25c; 25 lbs., 60c; 50 lbs., \$1.00; 100 lbs., \$1.75; 500 lbs., \$8.00; 1 ton, \$30.00.

PURE BONE FLOUR—Mostly used by florists. Dissolves very quickly. 100 lbs., \$2.50.

NITRATE OF SODA—95 to 98 per cent. purity, 1 1/2 to 1 3/4 per cent. ammonia. Sow 100 to 200 lbs to the acre. 25 lbs., \$1.50; 50 lbs., \$2.50; 100 lbs., \$4.25; 500 lbs., \$20.

LAND PLASTER, OR GYPSUM—Seems to have a specific effect upon clover, and is useful upon potatoes, grass and grain. Per bbl. (about 275 lbs.), \$1.75; 5 bbls., \$8.

PULVERIZED SHEEP MANURE—As a top dressing for lawns there is nothing better. (See page 82). Promotes a steady and rapid growth in the vegetable garden. For garden and field crops, 1 to 2 tons per acre; one-half before plowing, balance before harrowing. For top dressing use 1 ton per acre—fall or early spring. 25 lbs., 75c; 100 lbs., \$2; 1 ton \$22.

"BONORA"—Nature's greatest Lawn and Plant Food. Used and endorsed by all the leading city parks in the United States, as well as all the botanical gardens throughout the land. It is the elixir of life and beauty to lawns, plants, flowers, vegetables, trees, etc., etc. A vitality producer par excellence. "Bonora" will yield from 2 to 3 crops of vegetables each season. Price: ¼-lb. can, makes 56 pints liquid, 25c; 1-lb. can, makes 28 gallons liquid, 50c; 5-lb. can, makes 140 gallons liquid, \$2.50.

"BONORA" COMES IN DRY POWDER FORM. SEND FOR LARGE ILLUSTRATED CIRCULAR, FREE.

Fountain Compressed Air Sprayer.

WE ARE HEADQUARTERS FOR
SPRAYERS that SPRAY

Myers' Perfect Double-Acting Barrel Spray Pumps.

LEVER BUCKET PUMP AND BARREL SPRAYER No. 507—This is the best combination made for small fruit growers. Has brass cylinders, patent agitators, coarse and fine stream nozzles. Being a combination pump it can be used on a barrel or in a bucket. A Number 1 machine for whitewashing as well as spraying. Price, \$4.00; with 8-foot extension pipe \$4.40.

IMPROVED BRASS BARREL SPRAY No. 505—So constructed that the cylinders are entirely submerged in the liquid. It fastens to the chime of any good barrel. Is fitted with two discharge hose, 3-ply 5 feet long, two graduated Vermorel nozzles and patent agitator, which keeps the liquid well mixed, and two 8-foot extension pipes. Price, \$6.95. No. 506, same as 505, with one discharge hose, \$5.95.

THE FOUNTAIN COMPRESSED AIR SPRAYER—Undoubtedly the best and cheapest sprayer on the market. Being of a very compact form it is easy to carry. Every Sprayer tested to 30 lbs square inch pressure, while a 15-lb pressure is sufficient. No safety valve or indicator needed with the "Fountain." Price, complete, with tree attachment, galvanized, \$5.25 each; brass, \$6.50; with cucumber attachment, 50c extra.

"AUTO" COMPRESSED AIR SPRAYER—This well-known machine has given the best of satisfaction wherever tried. It is well made, easy to carry and operate. Any boy can use it. Nothing better for spraying potatoes, melons, small trees and bushes, also for whitewashing. Galvanized, plain, 4 gallons, \$4.50; brass, plain, 4 gallons, \$6.00. 2-foot extension and elbow 35c additional. New "Auto" Pop Attachment (same as illustration), something new. Much easier to operate and saves the liquid. Price, \$1.00 additional.

LIGHTNING COMPRESSED AIR SPRAYER—We have no hesitancy in offering to our customers this Sprayer, which we believe will fulfill every requirement. Made of heavy galvanized iron, and holds 2 gallons. It is tested with a high pressure, and every one is in perfect condition before leaving the factory, is fitted with a combination nozzle by which 3 different size streams can be used. Complete with 3-foot hose. Price, only \$2.50. 3-foot extension rods, extra, each, 25c.

THE PRIZE BRASS SPRAY PUMP—For greenhouse, garden use, washing windows or buggies, this pump cannot be equaled. It is fitted with the celebrated Acme nozzle, and will throw a fine spray or solid stream. An ideal pump to have around the house in case of fire. It will fit any size bucket. Price, only \$2.75 each.

LIGHTNING WHITEWASH SPRAYER AND FORCE PUMP—This is the only spray pump that will properly spray whitewash without clogging, and it will do better work than can be done with a brush, as the force with which the material is applied causes it to penetrate the small crevices, thus making a complete and perfect job. It is the cracks and crevices where you will generally find lice, which places you cannot reach properly with a brush, but this pump forces the liquids into all of these rough places. Constructed of heavy galvanized iron, is nicely painted, with brass tops and bottoms, and is furnished with a brass nozzle that will give two different sizes of spray. Price, only \$1.95 each.

BARREL PUMP No. 400—Complete, consisting of pump, with 1-in suction pipe, strainer, two leads 1/2-in three-ply discharge hose, each 5 feet long, two graduated Vermorel nozzles, two 8-foot extension pipes. Price, \$9.00. No. 402, complete as above, less extension pipes, and fitted with Bordeaux nozzles. Price, \$8.25.

BARREL CART—All steel, 36-in wheels, ready to attach to a barrel. No legs to shut up. Always ready; best made (without barrel). Price, \$6.00.

BORDEAUX NOZZLE—This spray and solid stream nozzle is the finest single stream nozzle that has ever been invented. For spraying whitewash it cannot be surpassed. It readily unclogs itself when cock handle is turned. Can be adjusted to throw the finest spray or solid stream. Fits all standard size pumps. Price, \$1.00.

Daisy Spray Pump.

WE SELL MORE SPRAYERS THAN ANY OTHER HOUSE WEST OF THE MISSISSIPPI.

Myer's Knapsack Sprayer.

Lightning Whirl Spray.

THE "LIGHTNING WHIRL SPRAYER"

— Is undoubtedly the "best" small sprayer ever offered, being the ladies' favorite, holds 2 quarts, is nicely finished, making it very neat and attractive. It is the best adapted for garden use, greenhouses, house plants. Also for washing windows, sprinkling clothes and floors. For killing insects on garden plants it has no equal, and for the sick room it is indispensable. Price, only \$1.00.

The Standard Sprayer.

LIGHTNING HAND SPRAYER—We have been trying for some time to secure a low-priced serviceable Spraying Atomizer, and we are pleased to be able to offer this year one of the best at a price that is almost beyond belief. We urge you to order one, as they are indispensable for the abolishment of insects, etc. The "Lightning" we consider the best, and fully equal to the more expensive machines for this purpose. Galvanized tank, 1 quart size, only 45c. By mail 20c extra.

The Lightning Hand Sprayer.

THE "JUMBO" 5-TUBE SPRAYER—In offering you this sprayer we offer you the largest hand sprayer made. The "Jumbo" has 5 brass tubes and holds about 2 quarts. It is adapted for spraying all kinds of plants, stock, etc., and also for oiling floors. It is an ideal sprayer in every respect. Price, 90c.

DAISY SPRAYING PUMP—Excellent for spraying insecticides and whitewash in the poultry house, also for spraying fruit trees and plants. Can be changed so as to throw a solid stream of water 20 to 30 feet high. An ideal pump for washing windows, buggies, etc. Price, only \$1.00.

The "Jumbo" 5-Tube Sprayer.

MYERS' KNAPSACK SPRAY—The tank holds 5 gallons, fitted with lid and strainer, and is so arranged that no water can drip on the operator. The handle lever can be shifted from right to left shoulder at will. It can be set on the ground. Has brass stop-cock at end of hose and has large air chamber, ball valves, solid plunger and agitator, with 5 feet of hose, extension rod and nozzles. Price, galvanized, \$6.75; copper, \$9.00.

"JUMBO" POWDER GUN—Largest made, for drag sled or wagon, the former method being used for side-hill spraying. The most powerful powder gun made. More effective than liquid spraying, as the powder is shot with such pressure as to force it on blossoms and foliage of the highest orchard. Standpipe 1 1/2 in. in diameter. Pronounced by experts as the best. Price \$26.00.

THE STANDARD SPRAYER—The Standard Sprayer is made of brass. It has suction hose and ball bearing valves. Throws 2 size sprays. Will throw a solid stream 75 feet. An ideal spray to have around the house in case of fire. Price, \$3.25.

LEGGETT'S CHAMPION DRY POWDER GUN—For applying any dry powder, such as Paris green, hellebore, insect powder, plaster, etc., on plants and trees, the powder being evenly distributed over a wide space, and with the least possible waste, the work being more rapidly done than by any other known implement. It is 27 inches long, with extra tubes for dusting trees, and holds one quart of powder. By turning a crank a fan is rapidly revolved, which forces a current of air through the tubes, that carries with it a small portion of powder. The quantity may be increased or diminished as desired. Price, complete, \$7.50.

LITTLE GIANT DUSTER—Like Champion; still smaller, double tube, \$5.50.

LITTLE BROWNIE DUSTER—Same as above, only smaller, single tube, \$3.50.

DOUBLE VERMOREL NOZZLE—The nozzle of perfection for double spraying. Throws streams in two directions. Ideal in every respect. Price, \$2.00.

SINGLE VERMOREL NOZZLE—Like above, only one nozzle. Price, 75c.

Double VERMOREL NOZZLE.

Baskets Made from Raffia and Reed.

GRASS SEED SOWERS.

Perfect Seed Sower—This is one of the very best sowers made. Has a solid malleable iron frame, but the hopper and most of the balance of the machine is of copper-colored steel. The bag will hold half a bushel. It is equipped with an agitator, thus making a practical force feed, and also with a seed gauge for adjusting the quantity of seed sown. It weighs only 3½ pounds; will sow 50 feet of wheat or rye at a round, 30 to 36 feet of flax, clover, timothy or millet; light grass seeds 15 to 30 feet. Price only \$1.50.

The Improved Cyclone Grass Seed Sower—Sows all grass and grain seeds. It has a slant feed board and an oscillating feed plate, which insure a uniform flow of seed. Price, \$1.50.

Cahoon's Broadcast Sower—Sows all kinds of grass and grain seeds, 4 to 8 acres an hour. It will throw heavy seed 40 feet. Price, \$3.

Acme Weeder or Hand Cultivator—Combination hoe and cultivator combined. Made with a solid steel shank, polished blade and points, bronzed malleable shank and bronzed steel ferrule. Price, 85c.

Automatic Rake—One of the finest rakes made. Has 26 teeth, 25½-inch wood head, oil finished and varnished; selected hickory, with japanned malleable iron castings. Price, \$1.00.

Climax Weed Puller—A neat little tool, very much used by landscape gardeners and lawnmakers everywhere. For cutting out weeds, dandelion, etc., it is indispensable. Price each, only 75c, by express.

The 20th Century Lawn Roller—This season we are pleased to offer you for the first time the Famous 20th Century Lawn Roller. They are praised and endorsed by the leading lawn owners and yard men throughout the country. They have a highly-polished surface with a silver-finished face, therefore making them the smoothest roller ever invented. The outer edges are beveled. They are made in sections. Handles are thoroughly reinforced, and can easily be made heavier at will.

Size, 20 in. diameter, 16 in. long, 2 sections, weight 200 lbs., price \$10.50.
 Size, 24 in. diameter, 24 in. long, 2 sections, weight 300 lbs., price \$14.00.
 Size, 24 in. diameter, 36 in. long, 3 sections, weight 425 lbs., price \$20.50.
 We can furnish 25-lb. and 50-lb. additional weights to above rollers at 5c per lb. extra.

GRASS SEED NOVELTIES.

These are the latest craze—a small hollow earthen figure. Fill with water, sprinkle grass seed on the head, and his hair will grow. A beautiful window ornament. Made in various sizes and images.

The Laughing Jew (see cut), 4 in. high, 50c; medium, 5 in. high, 75c; large, 6 in. high, 90c.
 The Laughing Baby, The Crying Baby, same size and price as above. Pigs 40c; Lions 50c.
 The above prices include grass seed for each figure ordered.

"PLANET JR." Farm and Garden Implements

The PLANET JR. goods are known agricultural country on the globe. They are noted as the standard implements of America. They do the work and used in every lighten the labor of both man and beast. "PLANET JR." Implement Catalog for 1907 will be mailed Free to all who apply for it.

No. 1. Combined Drill
 Holds 3 Pints, Consists of Drill Seeder, Wheel Hoe, Cultivator and Plow Combined. An excellent seed sower; a first-class double wheel hoe for use while plants are small; an ideal single wheel hoe; an excellent furrower; an admirable wheel cultivator, and a rapid and efficient wheel garden plow.....\$9.00

No. 2 Drill Seeder, same as above, without attachments..... 7.00

No. 8. Combined Horse Hoe and Cultivator.

Probably no other cultivating machine is so widely known as this. It is so strongly built as to withstand incredible strain, yet it is light and easy to handle. . . . \$8.00.

A Practical Machine for Farm or Garden

No. 3. Hill and Drill Seeder.

Sows evenly in drills, and also drops in hills, at 4, 6, 8, 12 or 24 inches. The latest and most perfect development of the hand seed drill. Holds 3 quarts.

Price.....\$10.00

The Best Drill Made

Twelve-tooth Harrow and Cultivator.

This tool has rapidly grown into favor with farmers, market gardeners and strawberry growers. It has high frame, and the chisel-shaped teeth cut an inch wide each. It may be set with teeth-trailing. Hand lever regulates width and depth while in motion.

Complete (as illustrated)..... \$8.00
 Without Pulverizer..... 6.40
 Without Pulverizer or Wheel..... 5.30

No. 4. Combined Hill and Drill Seeder, Single Wheel Hoe, Cultivator and Plow.

With this implement the small farmer or gardener can do practically all the work in his small crops. Holds 2 quarts.

As a Drill Only..... \$8.00

Three rakes, with three, five and seven teeth, can be supplied for this machine \$1.20 extra.

Complete... \$10.00

Nichol's "King" Garden Plow.

We have been working for some time trying to perfect an extra light draft adjustable single and double wheel hoe and garden plow combined that we could offer as the best at a very reasonable price.

Wheels are of steel bicycle pattern, 16-inches high, with a 20-inch arch, thus allowing you to cultivate and care for plants much longer than with other wheel hoes.

Price only . . . \$6.00

No. 12. Double Wheel Hoe, Cultivator and Plow.

The tools shown are those gardeners use most. Others can be added if wanted. \$6.50.

No. 16. Single Wheel Hoe, Cultivator, Rake and Plow.

The latest and best that has a full set of tools. Leaf guard included. 11-inch wheel..... \$5.35.

No. 17. Single Wheel Hoe Cultivator and Plow.

Same as No. 16, but without rakes and leaf guard. . . \$4.50.

No. 13. Double Wheel Hoe.

This is the No. 12 tool with 6-inch hoes only..... \$4.25.

The "Fire-Fly" Garden Plow.

This tool is most useful in small gardens..... \$2.00

Missouri Boy.

You can do more with this plow in one hour than three men can do with hoes in a day. Our greatest offering in plows. Over 2500 sold last year. It is the cheapest and best garden tool ever offered.

Price.....\$2.95

No. 17 1/2. Single Wheel Hoe and Cultivator.

Similar to No. 17, except it has no plow, but it has a leaf-lifter. Very popular for cultivating onions and sugar beets..... \$4.00.

"To Have a Lawn that is a Lawn It Must Be Sown with "Havalawn."

HAVE A LAWN

—AND YOU'LL HAVE A HOME—

Nothing adds more to the appearance of one's home than a nice, green, velvety lawn, whether living in the city or country. A dollar expended in our famous HAVALAWN Grass Mixture will add more than a twenty-five dollar expenditure in any other way.

"HAVALAWN," THE ONLY INOCULATED GRASS SEED MIXTURE EVER DISCOVERED. Praised and Endorsed by Homelovers Everywhere. AWARDED THE GREAT WORLD'S FAIR MEDAL 1904.

HAVALAWN (name registered in U.S. Patent Office) is procurable only from us. Every package bears our green label. No other is genuine, and we will prosecute all infringements.

HAVALAWN mixture will insure a beautiful, compact evergreen sod on any lawn where the essential requirements of grass culture have been complied with. Its component parts are the grasses peculiarly adapted to lawns and door yards. It is composed of the best thriving varieties, together with the best known creeping or sod-forming sorts. Timothy and orchard grass are wholly excluded on account of their coarse leaves and only finest sorts are used. Full provision is made for a succession of growth, so that there shall be no break in the richness of the verdure from spring until autumn, and experience proves that Havalawn Grass Mixture is now perfect. Nothing better can be purchased on the American market, no matter what claims may be advanced by other seedsmen.

When and What To Sow On Your Lawn.—To start a new lawn, prepare your ground, and see, too, that it is loose and pulverized very fine with a hand rake; then sow the seed. It is best to always cross-sow, as this enables you to get it on more evenly; then rake in and roll it good. Everybody interested in beautiful lawns should write or call for our New Free Pamphlet, "How to Make and Care for the Lawn." It tells you how and what to sow, how to prepare the soil, why many lawns fail, the difference in soil, how to fertilize, together with instructions for replenishing the old lawn; in fact, it is a veritable gold mine for every homelover. Mailed free to any address for the asking.

Price of HAVALAWN Grass Mixture.

	1 lb.	2 lbs.	3 lbs.	7 lbs. (½ bu.)	14 lbs. (1 bu.)
Sows about (square feet)	300	600	900	2,100	½ acre
Havalawn	\$.25	\$.50	\$.75	\$1.75	\$3.00

"EVERGREEN" LAWN SEED—In our "Evergreen" Lawn Grass Mixture we have a mixture of grasses that grows quickly and makes a very satisfactory turf in five or six weeks' time from sowing the seed. We especially recommend this lawn seed for use by persons who desire a coarse grass. Sow, for 1 acre, 40 to 50 lbs.; for ¼ acre, 2 bu. We advise heavy sowing for a new lawn. For renewing old lawns, use ¼ or ½ of these amounts, according to the money you care to spend.

	1 lb.	2 lbs.	3 lbs.	7 lbs. (1 bu.)	14 lbs. (½ acre)
Sufficient for (square feet)	300	600	900	2,100	½ acre
Price	\$.20	\$.35	\$.50	\$1.00	\$2.00

Extra Fancy Kentucky Blue Grass Seed—(Price Subject to Change.) It is most valuable as a lawn grass, but we advise sowing a lawn-grass mixture such as our Havalawn, because it contains some Kentucky Blue Grass, White Clover and other lawn grasses in proper proportions to make a lawn that is not so easily affected by drouth and heat and is more permanent in winter weather. Sow in October or early spring. 20c per lb.; 7 lbs. \$1.10; 14 lbs. (1 bu.) \$2.00.

St. L. S. Co's Shady Lawn Mixture—This mixture is intended for all situations that are in partial or complete shade, and will be found invaluable on grounds lying under the shadows of trees or buildings. This mixture is a combination of fine dwarf-growing evergreen varieties of grass, which grow naturally in shaded spots. Sow seed thickly, 1 pound to 300 square feet. 25c per lb.; per bu. (14 lbs.) \$3.00.

"Quick Result" Lawn Grass Mixture—In offering this, our new mixture of close interwoven grasses, we do so with the knowledge that we have at last discovered a long-felt want in producing a rich velvety green lawn, within 10 days from time of sowing, is something unheard of heretofore. For backyards and all unsightly places we especially recommend this mixture, but we do not recommend it for a permanent lawn. It will surprise and please you beyond doubt. Price: 1 lb. 15c; 2 lbs. 25c; 7 lbs. 75c; 14 lbs. (1 bu.) \$1.50.

White Clover (Especially Adapted for Lawns)—A small creeping perennial variety. Valuable for pastures and lawns; its flowers are well liked by bees. Flourishes in a variety of soils, but prefers moist ground. It should be included in mixtures for permanent pastures and for lawns. It is effective in preventing the soil from being washed by heavy rains. ¼ lb. 10c; ½ lb. 20c; 1 lb. 35c.

USE SHEEP MANURE ON YOUR LAWN

Sheep manure is the greatest lawn invigorator ever discovered. It will produce a lawn when everything else fails. Our sheep manure is treated by a secret process that adds vitality to the grass roots that cannot be secured otherwise. See Page 75 for prices.

See Page 79 For Lawn Rollers.

HARDY SHRUBS AND CLIMBERS.

Ampelopsis.

BOSTON IVY—Veitchii—The popular Boston or Japan Ivy. The finest climber for training over brick walls, as it clings firmly to the smoothest surface, covering it smoothly and densely with fresh green heart-shaped leaves in summer, which change in the fall to the bright autumn colors. It likes a rich soil. Quite hardy. In popular demand everywhere. Strong plants, each 15c; 2 for 25c. Extra strong plants, each 25c; 3 for 60c.

Wisteria Vine.

A beautiful hardy climber; will grow in one season 20 feet high, covering side of an ordinary house; flowers in clusters, pale blue; sometimes gives the second crop of flowers in fall. By express, each 40c; per 10, \$3.75.

Honeysuckle. *Lonicera*. *Tartarica*.

The beautiful, fragrant Honeysuckle needs little if any introduction, being one of the leading flowers of our nation. We offer them in white and pink colors. By express, each 40c; 10 for \$3.50.

Clematis.

One of the most beautiful and showy climbers we have. The flowers are of enormous size, many growing from 5 to 7 inches in diameter. Owing to their very hardy nature, they are easily a favorite, requiring very little care. For pillars, trellises and for running over rockwork or trees they cannot be surpassed. The following varieties, which we offer you, are the best in their respective class.

PANICULATA—One of the best varieties. The beauty and usefulness of this hardy, fragrant climber cannot be equaled. We sell more roots of this than of any other hardy climber. Extra large roots, three years old, 30c; postpaid.

JACKMANNII—The large, deep purple variety. Extra large roots, three years old, 50c; postpaid.

HENRYI—Color, white. Size of the Jackmannii. Extra large roots, three years old, 50c; postpaid.

Deutzia.

Beautiful, showy Japanese shrubs of the highest ornamental merit, and adapted to all good soils. Their clean foliage, upright, dense growth and free flowering nature render them especially valuable. Colors, pink and white. 2 to 3 ft. By express, each 50c; 10 for \$4.

Hibiscus Syriacus—Althea or Rose of Sharon.

These are very fine, hardy, free growing, flowering shrubs, of very easy cultivation, and very desirable on account of their late summer blooming. Should be in every garden. Our collection comprises a great variety of colors and shades. 3 to 4 ft. By express, each 50c; 10 for \$4.

Clematis Paniculata.

Ampelopsis.

Lilac or Syringa.

Persian. Of more slender growth and finer foliage than the common Lilac. We offer these in pink and white colors. 3 to 5 ft. By express, each 40c; 10 for \$3.

Hydrangea Paniculata Grandiflora. Bush Shape.

This is one of the most valuable hardy shrubs in cultivation. It attains a height of six to eight feet, and is perfectly hardy in all parts of the country. The flowers are white, borne in immense pyramidal panicles nearly a foot in length. It commences flowering in July and continues until November. This is the finest flowering shrub for cemetery planting we know of. 2½ to 3½ ft. By express, each 50c; 10 for \$4.

Philadelphus—Syringa or Mock Orange.

For grouping with other shrubs, forming large screens or hedges which may not require pruning, or used as single specimen lawn plants, they are desirable. They will bear heavy pruning, and quickly reassume their free, semi-pendulous, picturesque effect. 3 to 4 ft. By express, each 40c; 10 for \$3.50.

Kerria (Corchorus)—Globe Flower.

Handsome, free-flowering shrubs, thriving in common garden soils all summer. Handsome, light-green, finely-toothed foliage and showy flowers. 2½ to 3 ft. By express, each 35c; 10 for \$3.

Diervilla—Weigelia.

Beautiful shrubs that bloom in June and July. The flowers are produced in so great profusion as almost entirely to hide the foliage. They are very desirable for the border or for grouping, and also as specimen plants for the lawn. Colors, white and rose. 3 to 4 ft. By express, each 40c; 10 for \$4.

California Privet.

CALIFORNIA PRIVET.

Of all the shrubs which have been tried for hedging, none can compare with this. Of easy growth and splendid foliage, free from insects. Its inexpensiveness alone would give it first place for the purpose. It is now planted by the million annually. It is of free growth, and succeeds under the most adverse conditions, such as under dense shade of trees, where other plants would not exist. Price: By express, 10 for 75c; 25 for \$1.25; 50 for \$2.25; 100 for \$4.00.

Snowball or Viburnum.

The popular white Snowball seen growing in yards almost everywhere. Very hardy, 2 to 3 feet. By express, each 30c; 10 for \$2.00.

Spiraeas.

VAN HOUTTE—The grandest of all the Spiraeas. It is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Clusters of twenty to thirty flat white florets make up the racemes, and these clusters are set close along the drooping stem. Perfectly hardy and an early bloomer. Two-year-old clump about 24 inches high. By exp, each 30c; 10 for \$2.00.

Cinnamon Vine.

SPRING AND SUMMER FLOWERING BULBS.

WE PAY THE POSTAGE, EXCEPT WHERE NOTED.

Atamasco or Fairy Lily.

Beautiful, dwarf, bulbous plants, quite similar in form to amaryllis, and easily cultivated. They thrive in any good garden soil. They bloom all summer, and are invariably admired. They make admirable pot plants. The flowers are good for cutting, lasting for days. Color rosy pink. Each 10c, postpaid.

Cinnamon Vine.

This beautiful climber possesses the rare quality of emitting from its flowers the delightful odor of cinnamon, and is very appropriately called the cinnamon vine. Perfectly hardy, the stem dying down every autumn, but growing again so rapidly as to completely cover any trellis or arbor very early in the season. With its beautiful heart shaped leaves and clusters of delicate white flowers and delicious cinnamon odor, it is a most desirable climber. Price: Each 10c; 3 for 25c; postpaid.

Bleeding Heart *Diclytra* or *Decentra*.

The old fashioned favorite flower, adapted for forcing, also for planting in the open border; its long racemes of graceful heart-shaped pink flowers are always attractive. Each, 20c postpaid.

Begonias.

The tuberous-rooted begonias are among the most famed and fashionable of flowers at the present time. A wealth of bloom will be afforded during summer and fall. The flowers are of many bright hues. Some of the newer types, especially the singles, have flowers 3 inches, or even 4 inches across, and are of almost dazzling beauty. Tuberous-rooted, single mixed, each 10c; per dozen \$1.00; postpaid.

The Japanese Kudzu Vine.

An Ornamental and Rapid Growing Climber.

This new climber comes from Japan, the land so productive of curious and ornamental flowers. It is a beautiful climber, remarkable for its great vigor of growth and its handsome flowers. The blossoms are large and in panicles somewhat like wistaria, but much larger in size and better clusters. The color is a pleasing shade of purple. The foliage is large, shaped somewhat like the leaf of a bean; the vine is extremely rapid and dense in growth, making the Japanese Kudzu Vine of great value to those who have a place for an ornamental shade vine. It is perfectly hardy, increasing in size and beauty year after year. Strong roots, 35c each, postpaid. (See page 15 for seed of this vine.)

Japanese Kudzu Vine.

Maderia Vine.

MADERIA VINE.

This is an old favorite climbing mignonette, bearing clusters of pure white fragrant flowers. A very free bloomer, with thick, glossy leaves. Suitable for trellis, rockwork, hanging baskets, etc. Price: Bulbs 5c each, 6 for 25c; or lb. 40c, postpaid. By express, 3 for 10c, 10 for 25c; per lb, 20c.

Mexican Morning Glory (*Century Vine.*)

A vine of quick growth, and produces beautiful foliage and handsome flowers in enormous quantities; blossoms rosy crimson, shaded violet; remain in bloom all day in shaded places. Sometimes grows 40 feet in a season. Not hardy, but roots can be wintered like Dahlias. Tubers, each 35c; postpaid.

Cyclamen.

One of the choicest greenhouse or window plants. Root bulbous in shape; foliage rich and beautiful; flowers bird like and fragrant. Colors, white, pink, crimson, etc. Should be sown in light soil containing leaf mold. **Giant Mixed**, extra large bulbs, each 25c; postpaid.

Gloxinia.

These gorgeous plants can be grown successfully with ordinary care, flowering six to eight weeks after bulbs are placed in the soil. They should be started in a greenhouse, hotbed or sunny window. They will bloom until late summer, when they should be dried off, letting the leaves die. The bulbs must be kept out of reach of frost. Gloxinias are among the most ornamental of our tender flowering plants. No window garden or conservatory is complete without a few of them.

Giant Flowered Mixed, each 15c.

Golden Glow or Rudbeckia.

We question if any one hardy perennial plant has ever met greater popularity than this. It is a strong, robust grower, attaining a height of 5 to 6 feet, and produces masses of double golden-yellow Cactus Dahlia-like flowers from July to September. Each 15c, postpaid; by express 10c each, per doz \$1.

Caladium or Elephant Ears.

A handsome plant of tropical aspect, bearing leaves sometimes a yard or more in expanse. Effective as a single plant on a lawn, or in groups; also useful for decorative effect near streams or ponds.

ESCULENTUM—Small size, 15c; medium, 25c; large, 50c; mammoth, \$1; postpaid.

FANCY-LEAVED MIXED. Marked with gorgeous colors; 3 for 50c, each 20c; postpd.

CANNAS.

Cannas are now recognized as the prettiest and showiest of all bedding plants. They have grand tropical-appearance; foliage, and are certainly one of the most handsome plants in existence. The varieties enumerated below are a selection of sorts that have proven themselves perfect in every way, and which succeed under the most adverse conditions, in dry as

Caladium Esculentum.

well as in wet seasons. All are of uniform, vigorous growth, and whether planted singly or in masses will make a display certain to give full satisfaction.

ITALIA—The New Giant Orchid-Flowered Canna. The coloring is gorgeous in the extreme, rich golden-yellow with great patches of brilliant reddish crimson and irregular spots of the same shade on the upper petals. It surpasses even an orchid in color effects.

AUSTRIA—The New Giant Golden Lily-Flowered Canna. In truth a giant, with flowers 6 to 8 inches across; grows over 6 feet high, surmounted with glorious, golden, lily-like flowers. *Dormant roots.*

CHARLES HENDERSON—Deep crimson, yellow flame at the throat.

EGANDALE—Fine dark variety, flowers of soft currant red.

FLORENCE VAUGHAN—Deep yellow, mottled rich crimson.

MADAME CROZY—A brilliant vermilion-scarlet, bordered with deep golden yellow; flowers borne in great clusters in such profusion that they crown the plant with a blaze of glowing color.

PAUL MARQUANT—A peculiar shade of salmon; very unique.

BLACK PRINCE—Intense dark velvety maroon; grows strong and erect, 3 to 4 feet, fine dark red stems, and deep green leaves edged with purple.

BEAUTE POITEVINE—A very fine dark crimson variety with dark metallic green foliage and deep, rich crimson flowers. A magnificent bloomer.

QUEEN CHARLOTTE—A grand, large-flowered, ever-blooming French canna, with a distinct golden belt around each petal, the center brilliant orange-scarlet, with crimson tones. The plant is sturdy and compact; flowers are stout and densely set.

PRESIDENT MEYER—A pleasing cherry-carmine, both individual flowers and truss of immense size; massive bronze foliage; 4½ feet.

Price on any of above, 15c each, postpaid. By express, each 10c; doz, \$1.

Dwarf Varieties—Mixed. All colors, Price: doz 75c; each 10c.

Caladium, Fancy-leaved

Part of a Bed of Cannas.

Tall Varieties—Mixed. All colors, Price: doz 75c; each 10c.

The above are all ever-blooming varieties. The tall ones for use in the center of beds or backgrounds, and dwarf varieties for the outside.

Growing plants ready of above about April 20th. By express, 20c each; \$1.50 per doz.

LOOK FOR THE PLOW

TYPE OF OUR SHOW DAHLIA.

Our Business Grows Because Our Seeds Grow.

SHOW DAHLIAS—WHITE VARIETIES.

The "Show" Dahlias differ from the true "Cactus" type in having broader and heavier petals. They are also, generally speaking, stronger in growth and have larger and bolder flowers. They are invaluable for cut-flower decoration and are magnificent beyond comparison in the garden.

RUTH—A beautiful new large creamy white Show Dahlia of perfect form. Sometimes tinted pink. The plant is of dwarf nature and is continually covered with handsome flowers during blooming season.

JOHN WALKER—Similar to the above. Always full to the center. One of the finest exhibition varieties.

WHITE DOVE—Pure white and of beautiful form. A strong vigorous grower.

WHITE SWAN—Pure white, full flower, borne in great profusion on long stems. Especially fine for cutting. Flowers are large and very uniform.

RED AND PINK VARIETIES.

MRS. GLADSTONE—One of the finest of all show varieties, of exquisite form. Delicate soft pink color. A free and constant bloomer.

MADAME MOREAU—Very large deep pink with long stems. Fine for cutting.

LE PHARE—Large full deep scarlet and of vigorous growth. Very fine.

HERCULES—A very large crimson scarlet. Very showy and a great favorite.

YELLOW VARIETIES.

SIR CHAS. MILLER—Large! pure golden yellow of superb form and finish.

RONALD—A fine deep rich orange. One of the best yellow sorts.

QUEEN VICTORIA—A finely quilled, deep yellow variety of exquisite tint and hue.

Bulbs of any of the above varieties, 15c each or 4 for 50c; postpaid. By express, \$1.20 per doz.

DAHLIAS.

The Dahlia is one of the showiest of all autumn flowers. Commencing to flower in July, they are a perfect blaze of bloom until stopped by frost. Especially fine for cut flowers. We know of nothing more showy for table decoration than a loosely arranged bouquet of long-stemmed Dahlias. We spare neither time nor expense in testing the new varieties of both domestic and foreign production, and feel justified in claiming that our collection is unequalled, all having been selected for their free and continuous-flowering qualities, purity of color, perfection of form, general excellence and adaptability to the most ordinary garden culture.

CACTUS DAHLIAS.

MRS. BENNETT—A deep bright scarlet. One of the finest cactus varieties.

WINSOME—The best white yet introduced; clear in color and of perfect shape.

JOHN H. ROACH—A beautiful clear, light yellow flower, of perfect form; with long, incurved, and twisted petals. Plant vigorous and bushy.

WM. CUTHERTSON—One of the finest rosy crimson sorts. Very showy.

Bulbs of any of the above cactus varieties 20c each; 3 for 50c; postpaid. By express 3 for 40c.

POMPONS DAHLIAS.

RED PIPER—Very dark red of a peculiarly handsome shade. Very rich, good shape.

GUIDING STAR—Pure white, very showy; handsome in appearance. A favorite everywhere.

GOLDEN BEDDER—A beautiful deep golden yellow sort. Very fine.

Bulbs of any of the above pompons varieties each 20c; 3 for 50c; postpaid. By express 4 for 50c.

Cactus Dahlia.

MIXED DAHLIAS—Assortment of all the choice mixed sorts, 10c each or \$1.00 per dozen by express.

THREE GRAND NEW DAHLIAS.

GOLDEN PRINCE—(show dahlia), large and round with full high center; richest golden yellow. Extra strong plants 35c each by mail.

WHITE FAIRY—(show dahlia), finest snow white ever produced; the flower is of fine round form with high center; each 35c; postpaid.

LA DOREUS—(cactus), color pleasing shade of rosy crimson; constant bloomer and good bedder; strong plant; 35c each.

One each of these 3 varieties 80c; postpaid. \$2.50 dozen by express.

TRIAL BULB COLLECTION.
For Spring Planting.

Will produce a beautiful effect.	Will all bloom the first season.

1 " Caladium.	2 " Dahlias, Fine Colors
1 " Cinnamon Vine.	1 " Japanese Lilly.

16 Bulbs, Retail for \$1.75, our Special Price 85c; postpaid.
POSITIVELY ONLY ONE COLLECTION TO A CUSTOMER.

GLADIOLUS.

GLADIOLUS.

UNDOUBTEDLY the most attractive of all summer-flowering bulbs. The fragrance and beauty of these flowers make them universal favorites. Our mixtures and named sorts are the finest to be had. Their cultivation is very simple, as they will thrive in any ordinary garden soil. A succession of bloom may be had from July to September by planting at intervals from April to June. The strongest bulbs should be kept for the latest planting. Plant six inches apart in beds or double rows and three inches deep. They are very effective when planted among roses, shrubbery, etc.

- MADAM MONNERET**—Delicate rose, with a velvety carmine blotch. Handsome. Each 5c.
- AUGUSTA**—A snow-white variety, with conspicuous blue antlers. Each 10c.
- WHITE AND LIGHT VARIETIES, MIXED**—Each 5c; doz. 40c; postpaid.
- PINK AND ROSE VARIETIES, MIXED**—Each 5c; doz. 40c; postpaid.
- ALL COLORS MIXED**—3 for 10c; doz 30c; postpaid.

HOLLYHOCKS.

PROBABLY no other flower produces a more sentimental thyme, and few hardy plants combine as many good qualities as the Hollyhock. For planting in rows or groups on the lawn, or for interspersing among shrubbery, they are invaluable. The flowers form perfect rosettes of the most lovely shades of yellow, crimson, rose, pink, orange, white, etc. The Hollyhock requires a deep, rich soil, well drained.

BEST DOUBLE—All colors: postpaid, 35c each; by express, 25c each; doz. \$2.50.

Lily Album.

LILIES.

THE LILY, with its Beauty and Faultless Purity, undoubtedly surpasses any other known flower. For ages they have been referred to as the "most beautiful of all flowers." They are very fragrant, as well as very lasting; in fact, their delicious odor makes them the ideal of all pot flowers for table decoration, bouquets, vases, etc. All herbaceous borders should have a few Lilies scattered through them, including Auratum, Speciosum varieties, etc., etc. The sorts offered below can be planted with excellent results during the spring months. It is in the hardy border that Lilies do best, as they get the benefit of the shade of the surrounding plants, which is so necessary to their welfare.

AURATUM—(The Golden-rayed Lily of Japan.) The grandest of all the Lily family. Flowers pure white, with crimson spots, while through the center of each petal runs a clear golden band. Flowers measure nearly a foot across, produced abundantly; deliciously fragrant. 3 to 5 feet. Each 20c, postpaid.

SPECIOSUM VARIETIES.

Perhaps the most popular Lilies grown, being easy of cultivation, and produce large flowers of delicate beauty on strong stems. Height from 2 to 4 feet; bloom in August.

- SPECIOSUM ALBUM**—White. Price 20c each, postpaid.
- SPECIOSUM ROSEUM**—White, shaded and spotted with rose and red. Price 20c each, postpaid.
- SPECIOSUM RUBRUM**—White, spotted crimson. Each 20c, postpaid.

TIGRINUM FLORA PLENA (Double Tiger Lily)—This is a plant of stately habit, growing from 4 to 6 feet high, bearing an immense number of double bright orange-red flowers, spotted with black. Blooms in August. Price 20c each, postpaid.

WHITE DAY LILY (or Funkia)—A handsome genus of hardy herbaceous plants, introduced from Japan. They are remarkable for their neat habit, the fine character of their foliage, and their beautiful, fragrant, white lily-like flowers. As a permanent plant on the lawn or in the garden they have no superior. They thrive best in a partially shaded, moist situation. Each 20c, postpaid.

YELLOW DAY LILY (or Hemerocallis)—Each 15c, postpaid.

TRITOMA Pefitzerii—A marvelous improvement over the well-known Red Hot Poker Plant. Large spikes of brilliant flame color. A border of it around Cannas or Caladiums makes a brilliant contrast. A root planted here and there among shrubbery livens up the effect wonderfully. Hardy, with protection. Each 20c, postpaid; by express, 15c.

LILY OF THE VALLEY—One of the most charming spring flowering plants, producing in profusion its delicate, bell shaped, delightfully fragrant white flowers. It will thrive in any common soil, and will do well in shady situations where few other plants will succeed. **Pips**—Per dozen by express, 25c; postpaid, 35c.

Lily Auratum.

Lily of the Valley.

Hollyhocks.

Our special sale of two-year-old Hardy Rose Bushes, assorted varieties, regular each 50c values, in our special April sale at only \$1.25 per half dozen, or \$2.00 per dozen, by express.

PEONIES.

EVERYONE remembers the old favorite, Grandmother "Piny," and, as one noted specialist says, "it fully equals the rose without the thorn, rivalling it closely in brilliancy of color and perfection of bloom, while greatly surpassing it in size and stately grandeur." They are of the easiest culture, most vigorous habit, and free from all disease and insects. We urge all our customers to decorate their lawn with a large bed of them. They will make a grand show.

QUEEN VICTORIA—Pure white with red markings on edge of petals. Each 20c, postpaid; \$2.00 per dozen by express.

FESTIVA MAXIMA—The finest white. Each 50c, postpaid; \$5.00 per dozen by express.

MARIE LEMOINE—Delicate flesh, passing to white; very early. Each 30c, postpaid; \$3.00 per dozen by express.

ELEGANCE—A beautiful deep pink. Each 20c; \$2 per dozen by express.

OFFICIALIS RUBA—Early crimson. Each 25c; \$2.50 doz. by express.

FRAGRANT LATE—Rose colored. Each 20c, postpaid; \$2.00 per dozen by express.

PINK, RED AND WHITE—Mixed colors: varieties 25c each, postpaid; \$2.00 per dozen by express.

TIGRIDIAS.

MIXED (*Shell Flowers or Tiger Flower*)—Gorgeously colored flowers of unique form and in continuous bloom. Each 5c, postpaid; 50c doz. by express.

OXALIS.

MIXED—A beautiful, free-flowering edging plant. Per doz. 10c, postpaid.

JAPANESE IRIS.

FINEST of all the Iris family. The flowers are of immense size, from 6 to 8 inches in diameter, and of the most beautiful and delicate shades. They are perfectly hardy, and flower in great profusion during June and July. A well-established plant gives a dozen or more flower stalks 2 to 3 feet high, each stalk producing 2 to 4 enormous blooms. The Iris thrives best in a moist soil; if this cannot be had, should be plentifully supplied with water while growing and flowering. The clumps we offer are large: 25c each; \$2.50 per dozen; add 10c per clump for postage.

LIST OF VARIETIES AND COLORS:

Gekka-no-nami—Pearl-white petals delicately tinted with yellow toward the center.

Ho-o-jo—Dark velvety shade of red, yellow center.

Sofu-no-koi—Light blue with dashes of darker blue, purple center.

Vehiu—Light blue with yellow and white center, petals curly.

Oshokun—Blue black, yellow center, very rich colors.

Shishi-ikari—Light red wine shade, shaded darker, yellow center.

Kaku-jaku-ro—Delicate lavender, shading to light blue toward center, yellow center.

Shuchiu-Krva—White-edged with maroon, curled edges. Very light yellow center.

Kyodai-san—Very rich purple, shading to blue, white and yellow center.

Japanese Iris.

GERMAN IRIS—FLEUR-DE-LIS.

The National Flower of France. Like the Japanese varieties, they are excellent bloomers, perfectly hardy, and thrive almost anywhere. They should be well supplied with water during the blooming season as the above.

Falcata—Yellow, tinged with purple, and purple stripes. **Florentina**—White, tinged with blue and yellow. **Jordain**—Deep purple, shaded with rose. **L'Avenir**—Lavender, a beautiful shade. **Liaband**—Yellow and maroon; fine. Each 15c; \$1.00 per dozen; postpaid.

GERMAN MIXED COLORS—Each 15c; \$1.50 per dozen; postpaid.

Double White Peony.

TUBEROSES.

Asters, Pansies and Nasturtiums, and are even easier to raise. Their flower spikes last longer after cutting than Gladioli, Dahlias or any other bulbous plants. In delightful fragrance they rival the Rose and Violet. This is the best double variety. They ought to be in your garden if any flowers are. Per dozen 35c; three for 10c; postpaid; by express, 25c per dozen.

ARMSTRONG EVER-BLOOMING SINGLE

—Beautiful new sort. Two or more spikes to a plant are produced by this valuable new sort, and it is a continuous bloomer. It is exceedingly fragrant and generally considered more beautiful than any double-flower variety. NOTE—The bulbs can be kept for years and bloom. Per dozen 35c; 3 for 10c; postpaid; by express, 25c per dozen.

culture, and generally the seed requires particular care and attention to successfully start it.

Our Packets are Large—Instead of giving a large selection of premiums and other catch-penny "gifts," which the customer always pays for, we give a larger quantity of seed.

Cultural Directions will be found in each packet.

A HANDY FLOWER SEED GUIDE

This will enable you to quickly learn the different names of Flowers without searching all through the catalog. It also tells of the purposes for which many of the plants are best suited.

Take, for example, Floss Flower. It is not listed in our catalog by that name, and you do not remember or may not know its other name. Look down this Guide for Floss Flower and you find that it is numbered 103, which number is only used for convenience. You often see that its other name is number 4. Look back for 4 and you find the name Ageratum. Now you can readily find the description and price by looking for Ageratum, which is on page 91. If you found Ageratum first, the number of its other name, as you see, is 103.

The letters signify, that it is good for bedding, B; for cut flowers, C; for both bedding and cutting, marked X. If it is fragrant it is marked F, and for window boxes, W; for partial shade, S. Where there is no number given, it is known by no other name.

YOU MUST NEVER ORDER THE SEED BY THE NUMBERS.

ABUTILON OR FLOWERING MAPLE.

A very ornamental pot plant. Handsome little bushes, covered with bell shaped flowers in the daintiest and also strongest colors, dotted and veined. Bloom readily from seed the first summer. **Hybrids Mixed**, pkt 15c.

ABRONIA UMBELLATA (Sand Verbena).

Verbena-like, rose-colored flowers. Elegant trailing habit. HA. pkt 5c.

ADONIS AESTIVALIS (Pheasant's Eye).

Beautiful dark scarlet flowers with light center. Of easy culture and showy. Fine cut foliage. A very pretty plant. 1 foot, HA, pkt 5c.

AGERATUM (Floss Flower).

One of our best bedding plants in white and blue colors. Blooms all summer long. It is one of the few good bedders whose flowers do not fade out or become spoiled by rain, sun or drouth. It often keeps up a good appearance longer than geraniums. HA.

BLUE STAR—A handsome new variety, different from all other Tom Thumb sorts. The tiny bushy plants do not exceed 4 or 5 inches in height, with clusters of flowers of light blue, with dark red center, changing to pure light blue. The plants are literally covered with flowers; we have counted over 200 on a single plant. Pkt 10c.

IMPERIAL DWARF BLUE—Good plant for ribbon borders; 6 in. Pkt 5c.

IMPERIAL DWARF WHITE—Like above except in color. Pkt 5c.

LITTLE DORRIT—Azure blue, splendid coloring, 6 inches high, 1 foot across. Pkt 5c.

MEXICANUM MIXED—Blue and white, good for cutting; 18 inches. Pkt 5c.

AMARANTHUS.

Beautifully colored foliage plants; succeeds best in sunny, dry locations. TA.

CAUDATUS (Love Lies Bleeding)—3 to 5 feet. Pkt 5c.

SALICIFOLIUS (Fountain Plant)—Highly ornamental; 3 ft. Pkt 5c.

TRI-COLOR (Joseph's Coat)—Makes a very pretty effect when used the same as Coleus. Keep it cut back to produce a symmetrical plant for edging; red yellow and green; 3 ft. Pkt 5c.

CHOICE MIXED—Includes the above varieties and others. ½ oz 15c; pkt 5c.

ARABIS ALPINA NANA COMPACTA (Rock Cress).

One of the first flowers to bloom in the spring. Pure white, low, compact, carpet-like growth, useful for rockeries and the edge of a bed of perennials. For covering graves is unexcelled. HP. Pkt 10c.

Ageratum.

ANTIRRHINUM (Snapdragon)

The flowers are of very large size, very fragrant, and are produced on immense long spikes, which render them extremely well adapted for cut flowers. They are easily raised from seeds in any rich, sunny bed. Spring seedlings bloom by midsummer, and if the flowers are cut freely the flowering will be continuous till fall. If intended for winter flowering in the house cut them well back in September.

QUEEN VICTORIA—The best of the tall-growing white Snapdragons for cut flowers. The plants (3 ft) produce beautiful large, white flowers on long slender stems the entire season. Pkt 10c; ½ oz 20c.

GIANT MIXED—A showy border plant. Excellent for cutting. A fine winter bloomer also. Blooms the first year. 1½ ft. TP. Pkt 5c.

TOM THUMB VARIETIES. Mixed Colors—Only 1 ft high. Pkt 5c.

ARCTOTIS GRANDIS (Blue-eyed Daisy).

Forms profusely-branched bushes of about 2 to 2½ feet in height and breadth. Its flower-heads, borne on long stems and rising well above the foliage, are large and showy, from 2½ to 3 inches across; the ray florets, being pure white on the upper surface, are embellished by a narrow yellow zone at their base; reverse of petals pale lilac; of very easy culture. HA. Pkt 5c.

Antirrhinum.

ALYSSUM.

This is one of the finest hardy annuals we have, and is beloved by many on account of its modest blossoms, very similar to white forget-me-nots. It is pleasantly fragrant, and just the thing for personal adornment or for the breakfast table. It begins to blossom early in the season and blooms more or less constantly until fall.

CARPET OF SNOW—We know of no other white flower which is so particularly well adapted to borders, ribbons, etc., as our Carpet of Snow Alyssum. The plants commence to bloom when quite small, and will flower all summer long till late in the fall. This habit with its fragrance makes it indispensable. HA. ¼ oz 20c; pkt 5c.

LITTLE GEM—The best variety for bedding. Very dwarf and compact. ½ oz 25c; pkt 5c.

MARITIMUM—Not compact like Little Gem. Oz 25c; pkt 5c.

ASPARAGUS.

PLUMOSUS—Probably the most popular house plant today. We sell thousands to florists who grow the pot plants. You can grow it for yourselves and neighbors. The leaves are bright green, gracefully arched, surpassing Maidenhair Ferns in grace, delicacy of texture and richness of color. GP. Pkt 10c.

SPRENGERI—Similar to Plumosus in coloring, only hardier and more easily grown. Pkt 10c.

AQUILEGIA (Columbine).

Charming hardy perennials, bearing in countless numbers through May and June their exquisite blossoms of clear blue, white, rose, yellow, purple, striped (2 ft). For planting in permanent places. HP.

AQUILEGIA, Double Mixed—Pkt 10c.

Sweet Alyssum.

Louisiana Purchase Mixture.

eties. The colors range from pure white to the deepest, crimson and darkest purple. Such varieties as the Ostrich Plume, Branching, Comet, Crown and other expensive sorts are included, and many others that are good for cut flowers. Packet 10 cents.

"LOUISIANA PURCHASE" BEDDING MIXTURE.

Is composed of all the best dwarf even-growing Asters that bloom freely and make bright, attractive beds. No low-priced varieties are put in, and no high-priced bedding varieties are left out. Makes a dazzling show if planted alone in large beds. Packet 10 cents.

Semple's Branching.

ASTERS.

QUEEN OF THE MARKET—The best extra early Aster. Flowers of good size, produced on long stems, about two weeks earlier than any other variety. Of graceful, spreading growth. A favorite with florists for early planting. 14 to 18 inches. We offer six varieties: White, Light Blue, Crimson, Pink, Purple, Lavender, and Mixed. Each per pkt. 5 cents.

"LOUISIANA PURCHASE" CUTTING MIXTURE.

This new mixture has proven to be a favorite everywhere, it being composed of both early and late-blooming vari-

Queen of the Market.

GIANT COMET—One of the most beautiful varieties of Asters, closely resembling the large-flowering Japanese Chrysanthemum. Flowers grow from 3 to 5 inches in diameter and to a height of about 18 inches. We can furnish the following colors: White, Light Blue, Deep Blue, Rose or Crimson, and White passing to Rose, or all the above colors mixed. Pkt, each 10c.

Giant Comet.

DAYBREAK

— Beautiful shell-pink color. Especially fine for cutting. We concede this as being one of the most beautiful varieties. Large round flowers. Pkt 5c.

DWARF CHRYSANTHEMUM-FLOWERED MIXED—A profuse late-flowering variety, growing only 12 inches high. Large double flowers like Chrysanthemums. Pkt 5c.

GERMAN QUILLED MIXED—An unequalled mixture of out-door culture, growing large and producing a brilliant ray of gorgeous colorings. Pkt 5c.

ROSE-FLOWERED FINE MIXED—Plants bear 20 or more flowers, making the appearance of an elegant pyramid, 1½ feet. All colors. Pkt 10c.

VICTORIA IMPROVED—Large handsome flowers with reflexed petals. The colors are unusually rich and attractive. Good variety for pot culture; also for bedding, and cutting. 18 inches. Colors: Lavender, White, Pink, and Mixed. Pkt, each 10c.

OSTRICH PLUME—These new Asters are winning enthusiastic admiration from all who have tried them. They branch out freely into well-formed bushes, each plant bearing from 25 to 40 magnificent flowers. White Ostrich Plume—Pkt 10c. All Colors Mixed—Pkt 10c.

TRIUMPH—The rich, heavy flowers are elegantly incurved, and have a wonderful depth and brilliancy of scarlet coloring. Height, 10 to 12 inches. Pkt 10c.

BALL, OR JEWEL—Flowers, long-stemmed, round, desirable for cutting or bunching. Dwarf and free-flowering. Pkt 10c.

MIGNON MIXED—Similar to the Victoria, only more floriferous. Flowers are somewhat smaller. An excellent variety for Florists. Pkt 10c.

SEMPLER'S BRANCHING—The best strain of late-flowering branching Asters. They bloom up to frost. 18 to 24 inches high. Colors: Lavender, Shell-Pink, White, and Mixed. Pkt 10c each.

BALSAM.

THESE beautiful Annuals have always been popular, and are yet recalled under the old name of Touch-Me-Not and Lady Slippers, but of recent years they have been greatly improved. The flowers are most brilliantly colored, very large, and double as the Rose, very striking in their rich colorings, ranging from pure white to rich dark crimson. HHA, 1½ to 2½ feet.

ROSE-FLOWERED DOUBLE MIXED—Flowers of extraordinary size and perfectly double. Pkt 5c.

CAMELLIA-FLOWERED MIXED—Flowers of extra size, double and full-centered, with reflexed petals. The most elegant of all Balsams. (See cut.) Pkt 10c.

CAMELLIA-FLOWERED PURE WHITE—Pkt 10c.

CAMELLIA-FLOWERED PRINCE BISMARCK—Salmon pink. Very double. A pleasing color. Pkt 5c.

SEND FOR OUR BULB CATALOG. IT'S FREE.

BANANA ABYSSINIAN (*Musa Ensete*).

A plant of unrivaled beauty. For tubs or lawn display it cannot be equaled. Pkt 25c.

BROWALLIA.

Browallia Major—This new sort is without doubt the most beautiful of all the Browallias. The plants grow only about a foot high and form dense little bushes, which are covered with an abundance of the most delightful sky-blue flowers, much larger than those of the other varieties. For beds, borders or pots, there is hardly a plant with blue flowers that compares with it. Pkt 10c.

CACALIA, or Tassel Flower.

A pretty free-blooming plant with tassel-shaped flowers, also called Devil's Paint Brush. Of easy growth; annual; 18 inches. Pkt 5c.

CALADIUM.

(Also see Bulb Dept.)
Ornamental Leaved—G. P. Packet 25c.

Balsam: Camellia-flowering Mixed.

BEGONIA.

A beautiful flower of deep red color. Blooms in constant profusion from early summer until late fall, and an excellent house plant for winter blooming. T. P.

SEMPERFLORENCE VERNON—A beautiful rich crimson scarlet. A splendid bedding variety. Pkt 10c.

SEMPERFLORENCE MIXED—Similar to above, only colors mixed. Pkt 10c.

BEGONIA REX—Fine for growing in pots. With perfect habit. A beautiful foliage. Pkt 25c.

Begonia: Semperflorens.

CALANDRINIA. Beautiful dwarf garden annual. In the sunshine the large rose-colored flowers expand into a perfect blaze of beauty. One foot. HA. **LARGE-FLOWERED MIXED**—Pkt 5c.

CALCEOLARIA. These gorgeous plants are excellent for greenhouse and window decoration. The immense pocket-shaped flowers are borne in the greatest profusion through spring and summer. Colors: Yellow, Maroon, Crimson, White, etc., spotted and blotched in the most unique fashion. 1½ feet. **LARGE-FLOWERED HYBRIDS**—Pkt 25c.

CALLIRHOE PEDATA (*Poppy Mallow*.) Velvety purple, with white eye. HA. Pkt 5c.

Calliopsis: Golden Wave.

BRACHYCOME. IBERIDIFOLIA MIXED—Very effective in edgings, beds and rustic baskets. Good for house culture in winter. Always in full bloom. HHA. Pkt 5c.

CALLIOPSIS.

One of the most showy flowers; very easily grown; will thrive almost anywhere without trouble or care. A favorite for the home yard or lawn. HA.

FINE MIXED—Valuable for mixed beds and borders. About 1 foot. Pkt 5c.

SUPERB HYBRIDS, Mixed—Unlike other varieties, this is a fine bed plant, besides being useful for bouquets. The colors are richer and more varied. About 14 inches. Pkt 10c.

GOLDEN WAVE—(See illustration.) Pkt 5c.

COREOPSIS.

A beautiful hardy flower blooming from seed the first year. Very large golden yellow flowers of great elegance and beauty. The plant is covered with flowers the entire summer. One of our most artistic flowers. Pkt 5c.

Brachycome.

CARNATIONS.

This variety of flowers is one of our largest sellers in seeds. If more people knew how easily the Carnation can be raised from seed, they would never buy the plants and would seldom call upon the florists for the flowers. It will pay you to sow a few packets this season.

MARGUERITE MIXED—These beautiful Carnations succeed in any good situation. Exquisite in color, showing beautiful shades in red, pink, white, variegated, etc. 1/2 oz 25c; pkt 5c.

MARGUERITE WHITE—A beautiful snow white. Pkt 10c.

PRESIDENT McKinley—This valuable new Chabaud-Carnation is of a strikingly beautiful bright scarlet color and strongly scented. Fully equal in beauty to the perpetual Carnations and Picotees. It surpasses them in making an early show of flowers. Pkt 10c.

FINEST DOUBLE MIXED—Many colors; saved from the most perfect flowers. About 2 feet. Pkt 10c.

DOUBLE PICOTEE MIXED—Various colors. "Picotee" edged with purple, rose or red. A distinct class. Pkt 20c.

CENTAUREA.

(Corn Flower or Bachelor's Button.)

This favorite old-time flower is also known as Ragged Sailor, Blue Bottle, etc. It is a free flowering bloomer, very showy, growing from 2 to 3 feet high and are largely used for cut flowers. It grows in any soil and almost equals the Aster popularity. HA.

CYANUS KAISER WILHELM—Rich, deep blue, 1 1/2 feet. Pkt 5c.

CYANUS SINGLE MIXED—Contains all the popular colors. 1 1/2 ft, 1/2 oz 15c; pkt 5c.

CYANUS DOUBLE MIXED—A much better strain than the above. Bunch this with Sweet Peas, and it makes a pretty combination. Pkt 10c.

IMPERIALS—(Giant Royal Sweet Sultans.) This is a new type of annual Centaurea. Bushes are from 3 to 4 feet in height, flowers are finely fringed, soft and feathery, and frequently three inches across. Fine for cutting and of a strong hardy constitution. White, pkt 5c; mixed, all colors, pkt 10c.

MARGUERITE—Distinct from all other varieties. Flowers pure white; exceedingly fragrant; long stems. The centers are full and double. Grows quite bushy and of the easiest culture. It will please you in every way. Pkt 10c.

MOSCHATA, OR SWEET SULTAN—A beautiful new variety, similar to Marguerite, producing freely large, graceful, fragrant flowers on long stems, height about 1 1/2 ft. Pkt 5c.

Cosmos--Giant Flowering.

Carnation--Marguerite Mixed.

St. L. S. Co.'s New Perpetual Carnation.

CHABAUD'S EVER-BLOOMING MIXED—Resembles the Marguerite Carnation, but is perpetual growing or perennial. Exquisite colors, large flowers. Pkt 15c.

PERPETUAL CARNATIONS—This specie has large, elegantly formed flowers, continually bloom, upon closely branched, symmetrical plants, often called, from their neat habit, "Tree Carnations."

FINEST MIXED—The choicest offering in Carnations. Pkt 15c.

Centaurea Imperials

ORNAMENTAL LEAVED CENTAUREA (Dusty Miller)—For bedding, hanging baskets, and pots, and for edging of beds where white foliage is desired. Easily raised from seed.

CANDIDISSIMA—Silvery white, finely cut leaves. 1 ft. Pkt 10c.
GYMNOCARPA—Leaves not so white as the above. 1 1/2 ft. Pkt 5c.

COSMOS.

This magnificent annual is among the most beautiful and graceful of all garden flowers, and nothing can give greater satisfaction for a display. They make large plants, growing 5 to 7 feet high, which are beautiful masses of the most elegant foliage, until they begin to bloom, when each plant will have hundreds of large, showy blossoms. One of the best cutting flowers.

HA.	Pkt.	HA.	Pkt.

Giant Flowering White.....	5	Giant Flowering Mixed.....	10

HYBRIDUS MIXED—The ordinary strain. The flowers are smaller and the colors inferior to the Giant strain. Pkt 5c; oz 25c.

KLONDYKE—The true yellow Cosmos. Pkt 10c.
BLACK COSMOS (Biden's astrosanguinea)—Of the deepest velvety dark blood-red, appearing nearly black. 1 ft. HHA. Pkt 10c.

Flower Seeds is one of Our Great Specialties.

Candytuft, Empress.

See the Yellow Pages for Our New Varieties.

CANDY TUFT.

This popular dwarf annual needs little if any introduction. It produces flowers profusely throughout the entire season. They are great favorites everywhere. For beds, edging, pots and borders, they are in supreme demand. The plants become thoroughly covered with blossoms of the most delicate nature; 18 in. HA.

EMPRESS—The best pure white and the best for cut flowers; fragrant. Pkt 5c.

MIXED—Oz 15c; pkt 5c.

Celosia or Coxcomb.

COTTON.

Grown extensively for decorating purposes. Very showy and attractive. Pkt 5c.

CANNA.

Cannas are famous for their luxuriant dwarf growth and immense Gladiolus-like flowers of most brilliant colors; their profusion and continuity of bloom, under all climes and conditions, render them easily the most useful, showy and universally popular garden plants grown. Our seed may be expected to produce exceptionally grand and beautiful Cannas. This seed, sown in the house or hotbed from January to April, will produce flowering plants by July. (Also see Bulb Department.)

LARGE, FLOWERING HYBRIDS—The best and finest Canna. Pkt 10c.

Celosia, Thompson's.

CELOSIA (Feathered).

Beautiful plumes of brilliant colors. HHA. Being fine for vases, and of splendid foliage, Celosia is the finest of all novelty plants, producing very large, ostrich-feather-like plumes.

THOMPSON'S MAGNIFICA—A new improved strain. Colors golden yellow, fiery scarlet, purple, salmon, blood red, etc. Pkt 10c.

PYRAMIDALIS, MIXED—A beautiful mixture of garden plumes. 5c.

CELOSIA Cristata (Cockscomb)—They make attractive beds planted in a mass or as the border for other plants. May be dried and kept for years, still retaining their color. HHA.

CINERARIA.

Magnificent and indispensable flowering plants for spring decoration for the conservatory or window garden. The flowers measure 2 to 3 inches across, are of white, blue, violet and crimson shades; usually two or more colors are shown in one flower, covering the plant with a sheet of bloom.

GIANT PRIZE—Our finest offering. Pkt 20c.

Type of Our FAMOUS MIXED CANNA.

DWARF MIXED—Combs often more than 1 foot wide. Pkt 5c.

GLASGOW PRIZE—The best dwarf crimson sort, with handsome dark foliage. Combs very large and solid. Pkt 10c.

CUPHEA (Cigar Plant).

A very pretty border plant. Known as "Cigar Plant." Very showy for borders and bedding. Dwarf Habit. HHAG.

PLATYCENTRA—The favorite Cuphea. Pkt 5c.

Cuphea.

Cineraria.

CHRYSANTHEMUMS.

This Seed will Produce Blooming Plants the First Season.

THE regal beauty of these Royal Flowers of the Orient is well known. There are many people, however, who do not realize how easily they may be grown from seed, and that all of the magnificent new varieties were raised from hybridized seed, similar to that we are now offering.

St. L. S. Co's CHRYsanTHEMUM, "PRINCESS HENRY,"

our famous new introduction which proved such a success the past two seasons. Orders poured in from almost every corner of the globe and the reports received from customers are most gratifying. Again we offer it as the finest and most valuable of the Maximum varieties. We have no hesitancy in saying it is superior to any other Chrysanthemum ever offered. It is of a very set growth, averaging only about 18 inches high. Very floriferous. The plant is of globular shape and very decorative, the flowers open to four inches and more in diameter, and give an abundant and very handsome cutting material. Contrary to other varieties listed by many houses, this comes true from seed. It is not particular as to soil, coming up every summer in the same beauty for many years, and resists the most severe winters. We can especially recommend it, as its pure white flowers surpass all other varieties. Pkt 10c.

MORNING STAR (*Chrysanthemum Segetum*)—A superb Marguerite with immense flowers of an attractive soft yellow. Profuse bloomers. Height 18 inches. Pkt 5c.

SINGLE AND DOUBLE SORTS in finest mixture, including many new varieties not listed above. Pkt 5c.

CORONARIUM, Double—One of the latest introductions in the Chrysanthemum world. Owing to its magnificent golden yellow and white shades it is fast becoming a florist favorite. Pkt 10c.

JAPANESE CHRYSANTHEMUMS.

The seed we offer is saved from a collection of 50 different varieties from Japan. If this seed is sown in February and March, and properly treated, the plants will bloom profusely next fall equal to any plants started from cuttings. Pkt 20c.

CLEOME (Giant Spider Plant).

Large spikes of rosy purple flowers. Large bushy plant; very showy. 3 to 4 feet. HA.

PUNGEUS—The finest strain. Pkt 5c.

COLEUS.

Coleus grown from seed make very thrifty plants the first season. For subtropical groups the endless variety and combinations of brilliant colors are very captivating. The seed that we offer has been saved from a choice collection of large fringe-leaved Coleus hybridized by hand and will produce some grand varieties. Pkt 20c.

Dahlia: Double.

Chrysanthemum: Princess Henry.

DAHLIAS.

BUT few people know that Dahlias can be raised from seed and will bloom the first year. The Dahlias we offer, if sown early, will bloom profusely all fall. The seeds germinate as easily and certainly as Zinnias, and from the very first development are strong, stocky little plants. Plant them in a shallow box or pan early in March or April, transplant them carefully as their growth demands, and keep the soil moderately moist. When all danger from frost is over, plant them in the bed or border in the garden, and from then on they will prove no more trouble than if the tubers had been used instead of seed.

- DOUBLE MIXED 10c
- SINGLE MIXED 5c
- CACTUS MIXED 10c

CYCLAMEN. Cyclamens are among the most handsome spring and flowering plants for the window or green house. The foliage is also very ornamental. Our new offerings this season are without comparison. Our seed is produced by one of the ablest specialists in this line in Germany. We urge you to give them a trial this season. Our strains comprise all special colorings for florists. G.P.
 GIANT FINE MIXED, ALL COLORS, pkt 25c.
 WANT SEPARATE COLORS, pkt 25c. GIANT FRINGED, pkt 30c.

Cyclamen.

Calendula.

Campanula.

Coleus.

CALENDULA. Dwarf bushy annuals, blooming abundantly until frost; of easy culture; indispensable for summer garden or for pot culture in winter. 1ft. HA. **DOUBLE MIXED** (*Pot Marigold*)—HA. Pkt 5c.

CAMPANULA. (*Canterbury Bells*). A handsome decorative border plant. Especially fine when grown as single specimens. Must be sown early to bloom first year. HB. **CALYCANTHEMA MIXED** (*Cup and Saucer*)—Bell 3 in. across; perfect pyramids of bloom; frequently bear 200 exquisite blossoms; 24 in.; pkt 5c. **PRIZE MIXED**—Double and single; blue, white and rose; pkt 10c. **SPECULUM** (*Venus Looking Glass*)—A beautiful blue, profusing, blooming, bordering plant; pkt 5c.

Dianthus or Annual Pinks

In this large and greatly varied genus are some of our most beautiful and best-loved flowers, unsurpassable for color and fragrance. They are hardy biennials that bloom finely the first season, remaining green all winter and blooming the next year also, if lightly protected. Old plants flower the earliest, but as young ones give the largest, finest flowers, sowings are made every year. Seed can be sown under grass in spring, or in an open sheltered bed. The seedlings are easily transplanted and should stand 8 to 12 inches apart; dwarf ones about 6 inches. If especially large, brilliant flowers are desired, a bed of well-mixed turfy loam, leaf-mould and well-decayed manure should be prepared for them. Average height, 1 foot.

Heddewigii Japan Pinks—Unusually large and brilliant. Often oddly edged, striped and fringed. Pkt 10c.

Heddewigii Double Mixed—Very pretty. Pkt 10c.

Heddewigii "Fireball"—Brilliant scarlet; very compact and floriferous. Pkt 10c.

Diadematus (Diadem Pink)—Magnificent in color and variety. Pkt. 10c.

Heddewigii Double Atropurpurca—Very large double flowers of blackish crimson. Pkt 10c.

Heddewigii Double Snowball—Pure white; extra fine. Pkt. 10c.

Heddewigii Double Laciniatus. Salmon Queen—Beautiful rosy salmon. Pkt 10c.

Heddewigii Double Laciniatus, finest mixed—Exquisite. Pkt 10c.

Heddewigii Single Laciniatus, fringed Mixed—Flowers of all colors. Pkt 5c.

CHINENSIS.

(China or Indian Pinks.)
 One of the most beautiful and satisfactory of summer-flowering annuals. The plants are bushy, of symmetrical form, 1 foot high. The flowers are immense, averaging 6 inches in circumference. There is a wonderful diversity of colors, from purest satiny white to red shades so deep and intensely brilliant that the eye can scarcely penetrate their velvety depths. **Finest Mixed Colors.** Pkt. 5c; 1/2 oz 20c.

Imperialis Fl. Pl. (Double Imperial Pink)—Robust, bushy growers, with large double flowers. **Double Mixed.** Pkt 5c.

Dianthus, Lacinated.

Hardy Grass Pinks.

(Border or Spice Pinks.)

These form those dwarf bushy matlike plants above which are produced, on long stems, the beautiful fringed Pinks which have been valued for generations. For permanent beds and borders there is nothing better. Fragrant. Sometimes called May Pinks.

Plumarius Single Mixed. (Pheasant's Eye)—Pkt 10c.

Plumarius Double Mixed. Pkt 10c.

Pinks "Erfurt."

The flowers of this new type are larger, are borne more profusely on shorter, stiff stems, with a vivid and rich display of colors and markings. The colors include blood red, rose, maroon, purple, pink, blush, spotted, laced, variegated, etc., and they commence blooming about two weeks earlier than other varieties. Usually very double, beautifully fringed, and emit a grateful clove-like perfume. **Mixed colors.** Pkt 10c.

SNOWDRIFT DIANTHUS—(See yellow pages.)

Pinks Erfurt.

Don't Forget the Flow

It Means the Best

Datura.

DATURA.

(Angel's Trumpet.)

Large, handsome flowers. Large, spreading plant, most useful as single specimens. Fragrant. HHA. **DOUBLE MIXED**—pkt 5c.

DRACAENAS.

One of the best center plants for vases, urns and large pots. It stands full exposure to the sun, and its long, narrow, graceful foliage contrasts beautifully with other foliage and flowering plants. G. P.

INDIVISA—One of the finest sorts of the Dracaenas family. Pkt 10c.

Fine Mixed—Comprising the above variety as well as many other noted sorts. Pkt. 25c.

DOUBLE DAISIES.

Plants of Double Daisy will bloom the first summer and will continue to bloom for years if given slight protection during winter. They are very pretty when in bloom and deserve to be grown much more than they are. They commence blooming in April and continue to bloom until summer. They are very particular as to soil, but should be grown where they have a little shade. H. P.

- " Rose Longfellow. Pkt 10c
- " Mackima. Extra large; red 10c
- " Mixed 10c

DAISY—Double Perennial.

EDELWEISS.

This beautiful new introduction is a native of the Alps, where it grows in profusion, and is gathered by the natives on the towering peaks at the risk of their lives. It has proven itself the ideal of all foreign floriculture, and is now one of our famous hardy offerings. Very showy and effective. H P.
LEONTOPODIUM ALPINUM—Alpen Edelweiss. Pkt 10c.

ERYSIMUM.

This Annual Border Plant is one of the sweetest scented annuals in cultivation. It is of a beautiful orange yellow coloring, is of free flowering, of bright color and neat habit. It is rapidly becoming one of our favorite bloomers. H A. 3 ft.

PEROPSIS ANNUM—The favorite orange coloring. Pkt 5c.

ESCHSCHOLTZIA. (California Poppies.)

Eschscholtzias (popularly known as "California Poppies") have long been classed among our most beautiful and popular annuals, being of the easiest culture and giving great satisfaction. From spring-sown seeds they flower profusely until late in the autumn, making them invaluable bedding plants. The flowers of these new giants measure from four to six inches in diameter. They are beautifully and variously formed; some are flat and wide, some saucer-shaped, others very deep with flaring, wavy edges. These magnificent flowers, of immense size and lovely forms, call forth the most enthusiastic admiration from beholders; the colors are intense and shining yellows. In some an orange blotch almost suffuses the whole flower; in others it runs into the yellow in fine pencilled lines; others again have an orange center with a margin of clear yellow. H A.

ROSE CARDINAL—A grand variety. Intense carmine. Pkt 5c.

MANDARIN—Red-flowers, orange within and scarlet without. Pkt 5c.

CROCEA—Pure deep orange. Pkt 5c.

SINGLE AND DOUBLE MIXED—All colors, Pkt 5c; oz 40c.

EUPHORBIA (Poinsetta).

A beautiful plant of exquisite colorings. H A.

VARIEGATA (Snow-on-the-Mountain)—Is very popular. Green foliage, veined and margined white; 2 to 4 feet. Pkt 5c.

HETEROPHYLLA (Mexican Fire Plant or Fire-on-the-Mountain)—An annual, resembling the beautiful hothouse Poinsetta in habit and color. Smooth, glossy-green leaves, changing to a blazing scarlet, with just a tip of green left; about 3 ft. Pkt 10c.

FEVERFEW (Matricaria).

An old garden favorite. This is the annual feverfew, and one of the numerous flowers called "Bachelor's Button." Elegant for cutting and bouquet work. H A.

DOUBLE WHITE—About 2 ft. Good for cutting. Pkt 5c.

GOLDEN BALL—Dwarf. Very beautiful. Pkt 10c.

FUCHSIA (Eardrops).

This elegant pot variety is one of our showiest plants. Easily grown from seed. They produce flowers of the most beautiful colorings. G P. Grown extensively everywhere.

FINEST MIXED—Pkt 25c.

FERNS.

A beautiful plant, used for foliage, bouquets, etc. Are a favorite everywhere and very easily grown. Sow seed in a rich loam. Below we offer you the finest species.

FINE MIXED—Greenhouse species. Pkt 20c.

HARDY SPECIES—For out-door culture. Pkt 20c.

FOXGLOVE OR DIGITALIS.

The Foxglove is every year increasingly cultivated in shrubberies and woodland walks. It is a hardy perennial, easily grown, and the colors are varied and beautiful. It grows easily from the tiniest seed, and the seed germinates with remarkable ease. H P.

GLOXINIAEFLORA—This is a fine strain of the ordinary Foxglove, D. purpurea, with handsome Gloxinia-like flowers on long spikes. Pkt 5c.

MONSTROSA (Mammoth Foxglove)—Long spikes, surmounted by one enormous flower; very odd; all colors mixed. Pkt 5c.

FORGET-ME-NOT (Myosotis).

These daintily elegant little flowers are hardy perennials that love cool, moist soils, and like pansies, bloom most freely in fall and early spring. They make beautiful close borders, or edgings, thickly sprinkled with pretty flower-sprays, and will bloom nicely in winter in a cool room or coldframe. Once at home in a garden they establish themselves by self-seeding. All the varieties are general favorites. Sow in spring in a warm, sunny border. Most varieties bloom freely the first season and profusely the second. Average height, 6 inches. H H P.

ROYAL BLUE—Early and free-flowering, with the deepest indigo-blue flowers produced on long sprays, which are excellent for cutting; 9 in. Pkt 10c.

VICTORIA DISTINCTION (Alpestris)—Bright azure blue. Very early. Pkt 10c.

EARLY-FLOWERING TRIUMPH—Commences to bloom in eight weeks' time. Large blue flowers. Ever blooming. Pkt 10c.

MYOSOTIS ALPESTRIS—A pretty trailer, with blue flowers. Pkt 10c.

Edelweiss.

Euphorbia.

Fuchsia.

Feverfew.

Eschscholtzia.

Forget-Me-Not.

GAILLARDIA (*Blanket Flower*).

GREAT improvements have been made in these worthy garden plants the past few years. Flowers are of extraordinarily large size, many of them 4 and 5 inches across and very highly colored in great diversity of variations and blendings, including such combinations as dazzling scarlet with gold edge, blood crimson with yellow edge, yellow with orange disc, golden with scarlet border, pure yellow, fiery crimson, and many others. Gaillardias are hardy perennials, and they produce a constant succession of flowers all summer and fall; when grown in large groups they are gorgeously effective; as cut flowers they are almost unrivaled; the immense and brilliant flowers, on long, self-supporting stems, "vase" handsomely, and they last in water for days.

EXTRA LARGE FLOWERING, All Colors Mixed—These are undoubtedly among the choicest of hardy perennials; the flowers are large, very numerous, excellent for cutting, and of the most brilliant shades of orange, crimson, scarlet, and vermilion, and very often a combination of all these colors in one flower. Pkt 10c.

ANNUAL GAILLARDIA.

Produces very double flowers as round as a perfect ball, in the most varied color, and are borne on long, slender stems; when cut, will keep over a week.

LORENZIANA, Single—5c. **LORENZIANA, Double**—5c.

GERANIUMS.

These grow readily from seed and produce blooming plants the first summer. There is a great deal of pleasure in watching them develop from seed, and there is always the chance of securing something new and desirable in that way. G.P.

ZONALE, Mixed—Pkt 10c.

APPLE-SCENTED
—Pkt 25c.

GYPHOPHILA.

Gypsophilas are valuable for bouquet-making, either green or dried. They are very graceful, and easily cultivated. Should be in every garden. All flower the first season. *G. paniculata* continues to bloom for several years. H.A.

PANICULATA
(*Baby's Breath*)

—Flowers white. A hardy perennial which will stay in the ground all winter. Pkt 5c.

ELEGANS, Pink
—Is a delicate pink, splendid for carpeting in rose or lily beds. Pkt 5c.

Gaillardia.

Gypsophila.

CODETIA.

They are of a dwarf habit of growth. The flowers are of handsome shape, in the most brilliant as well as delicate colors, and are produced in marvelous profusion. Of easiest culture. H.A.

CODETIAS—Many sorts and colors, mixed. Pkt 5c.

Godetia.

Gloxinia.

GLOXINIA.

Gloxinias are most charming greenhouse plants, of dwarf habit. Their flowers are produced in greatest profusion, and of the most exquisite and gorgeous colors, many of which are magnificently spotted, mottled and blended. Under the commonest culture they bloom continuously for months. This new giant strain produces flowers of extraordinarily large dimensions, measuring from 4 1/2 to 5 inches across. The colors are rich, varied and strikingly beautiful. 1 foot. G.P.

GIANT HYBRIDS, Mixed—Pkt 20c.

Gilia.

GILIA.

One of the most beautiful of summer flowering plants. Excellent for bouquets and flower beds; is very hardy and grows in almost any location. They are profuse bloomers and are in universal demand almost everywhere. H.A.

TALL VARIETIES, Mixed—Pkt 5c.

HIBISCUS.

Robust garden annuals; large saucer-shaped flowers of creamy yellow with purple center; very useful for borders and groups. 2 feet. H.A.

AFRICANUS (*Marshmallows*)—Pkt 5c.

HEUCHERA.

Beautiful, hardy perennials. The foliage is evergreen, flowers fiery coral, shading to brilliant crimson, borne on graceful spikes. A charming cut flower. H.P.

SANGUINEA SPLENDENS—Pkt 10c.

HELIOTROPE.

A beautiful flower which produces trusses frequently measuring 9 to 14 inches across. Rich colors and unusually fragrant. 2 feet. G.P.

GIANT MIXED—Pkt 10c.

Hibiscus.

HOLLYHOCKS.

GRAND summer and autumn flowering plants, bearing long spikes of double flowers, 3 to 4 inches across. They are old inhabitants of our gardens, but are now so improved in doubleness and enlarged in size, under our special culture and hybridization, as to be revelations of gorgeous beauty to those who have not seen these improved sorts. A flower garden without Hollyhocks is unworthy of the name. They are very easily grown from seed, and when once seen in bloom is a sight never to be forgotten. Hardy biennial, 5 to 8 feet high.

NEW EVERBLOOMING DOUBLE ANNUAL HOLLYHOCK—As will be seen by the illustration this beautiful new Double Hollyhock supersedes anything ever before introduced in this family. It is indeed truly one of the greatest achievements of modern times. Blooming as it does, the first season beginning about the first of July. Its handsome colors are comprised (each flower being fringed in the manner of a Petunia) in all shades of white, flesh color, apricot, yellow, pink, carmine, deep red, purple, black, etc., as well single as double. They bloom until affected by increasingly severe frost. As will be seen, the leaves of this novelty remain bright and green until the autumn. As our old biennial Hollyhocks suffer from frost, and as it is not always possible to protect them adequately, hence this new Hollyhock will undoubtedly meet a long felt want, and we urge our customers everywhere to plant freely of it this season. Price per pkt 25c; postpaid.

Hollyhocks.
 Double Everblooming.

HUNNEMANIA OR BUSH

ESCHOLTZIA—One of the most beautiful plants we offer. The plants grow into a shrubby bush, 2 feet high, and produce large cup-shaped flowers 3 inches across on stems 12 inches long. The color is of clear, bright yellow, the petals are broad and crinkled, like crushed satin. The flowers keep in water for two weeks. A.

Hunnemania Tamaricifolia, Pkt 5c.

Kochia or Burning Bush.

IPOMOPSIS.

A beautiful biennial of exquisite coloring, showy and beautiful beyond description. Is of a handsome scarlet color and excellent for bordering purposes. Blooms in mid-summer. Height 3 feet. TB.

ELEGANS, the choicest variety of the Ipomopsis family. Pkt 5c.

KOCHIA OR BURNING BUSH.

A highly ornamental annual of unusually rapid growth which forms regular pyramids from 2 to 3 feet in height, having a cypress-like appearance. The leaves are slender and of a light pea-green until September, when they change to carmine and blood-red. Its bright autumn coloring has given it two other names: "Mexican Fire Plant" and "Burning Bush." Sow indoors in April and plant out in May, or sow in open ground about May 1st; plants do best in a sunny exposure about 2 feet apart. H. A. Pkt 10c.

ICE PLANT—(*Mesembryanthemum crystallinum*.) Handsome and curious plant for hanging baskets, rock-work, vases and edgings. Trailer. TA. 6 inches. Pkt 5c.

ALLEGHENY FRINGED, DOUBLE MIXED—Flowers mammoth in size, novel shape, being fringed. Shrimp-pink to deep red in color. Blooms very early and continues late. Blooms the first year from seed if sown early. Pkt 10c.

CHATER'S SUPERB DOUBLE MIXED—An extra fine strain. The plants are hardy and large, robust growers; the flowers are not closely huddled up, like other Hollyhocks, but gracefully and carelessly placed among the large leafy branches, which exactly suits the airy style of flowers, showing them off to the best advantage; every bud, clear to the top, develops into a flower, thereby considerably extending the flowering period, and as the flowers mature they drop from the stem, so that the plants are always objects of beauty. Pkt 10c.

NOTE—We also have Chater's Crimson, Rose, Sulphur Yellow and White in separate colors. Pkt 10c.

DOUBLE MIXED—Pkt 5c.

JACOBÆE—(*Senecio*).

A beautiful summer blooming flower with splendor and brilliancy that cannot be surpassed; useful either as a border or bedding plant; also for cutting, retaining their vitality for several days after cutting. HH. Tall Double Mixed. Pkt 5c.

KAULFUSSIA

A handsome small edging annual, notable for its thrifty blooming, being also planted extensively as a pot flower. Its coloring is of the finest blue texture. 1 foot. HA. Ameloids. Pkt 5c.

KENILWORTH IVY.

Lavender and purple. A charming, small, neat hardy perennial trailing plant, suitable for baskets, vases, pots and rockwork. HP.

LINARIA CYMBALARIA—Very pretty new variety of the above, with light green, glossy foliage and violet flowers. Pkt 10c.

St. L. S. CO.'S IMPATIEUS SULTANA.

The wonder of the flower world. The Zanzibar or Sultan's Balsam, the most beautiful flowering plant we have ever introduced. Beautiful beyond description, ideal for either pot or garden culture, a tender perennial that cannot be surpassed. We urge every lover of flowers to plant this new offering this season. It produces waxy bright flowers almost continually winter and summer; in fact, it may be classed an ever-blooming discovery. Grows about one foot tall, and of a handsome rose color. Price per pkt 10c.

LINIUM. (*Crimson Flax*.) An unrivaled red annual for small groups and bedding. Very showy. 1 foot. Large flowered scarlet. HHA. Pkt 5c.

Linium.

Our Great New Offering Last Season.

Impatiens Sultana.

LARKSPUR (*Delphinium*).

Annual Varieties. These include the Rocket and Hyacinth-flowered, so called rather cool, moist soil. Sow seed in the open border, either in spring or fall, preferably the latter, so that germination may take place very early in spring. As the seedlings grow, thin them to stand 6 to 18 inches apart, according to variety. The shades of color include light, dark and azure blue, white, buff, rose, apple-blossom, pink, brick-red, red lilac, dark lilac, violet and fawn. The varieties are seldom kept separate, as they are quite as pretty and convenient for cutting when sown in mixture. Some of these are really hardy biennials, but because they bloom the first season we treat them as hardy annual.

DWARF ROCKET MIXED—The earliest; flowers of charming colors produced in spikes. Pkt 5c; oz 30c.

TALL BRANCHING MIXED—Very effective and showy planted amongst shrubbery or against the fence. The graceful spikes of bloom are much valued for vases. 2½ ft. Fine mixed, pkt 5c; oz 30c.

We can also supply you with Tall Light Blue, White, Bright Rose and Lilac. Pkt, each 5c; oz 30c.

Perennial Varieties.

These are usually taller than the annuals, requiring more space between the plants. If sown in fall, or very early in spring, nearly all will bloom the first season. The foliage is clean and pretty; habit strong and neat; flower-spikes long and dazzling.

CHINESE MIXED (*C. Grandiflorum*)—The stems have many lateral branches, gracefully set with large flowers ranging from pure white to deep indigo-blue, the paler colors being especially admired. Young seedlings will bloom from midsummer until frost; 2 ft. Pkt 5c.

ELATUM, BLUE (*Bee Larkspur*)—Soft, clear blue flowers in tall spikes; 3 ft. Pkt 5c.

ELATUM, DOUBLE—Very showy. Pkt 10c.

FORMOSUM—Brilliant blue, white center; especially fine and attractive; 3 ft. Pkt 10c.

NUDICAULE—The most brilliant species of all and the only pure bright scarlet. Dwarf and compact in growth, with flower stems of fine length; 1 ft. A native of California. Pkt 10c.

ZALIZ (*Sulphureum*)—Very beautiful hardy perennial, with long spikes of yellow flowers. Pkt 10c.

1 Pkt Each of the Above Perennial Varieties for only 35c.

LANTANA.

Of tall and slender growth, they will be found a great improvement upon the newer sorts, and a splendid acquisition to our list of window and garden flowers. G. P.

LANTANA HYBRIDA—A very pretty perennial plant, suitable to outdoor use in summer and for house culture. Flowers Verbena-like in many colors. Pkt 5c.

Lupinus.

LUPINUS.

A beautiful garden annual of strong growth. Flowers of various colorings are produced on spikes. Elegant for groups or bordering. Height 1½ to 3 ft. H. A.

ANNUAL MIXED—Pkt 5c.

LEMON VERBENA.

The seed of this grand old favorite is very scarce. The leaves are delightfully fragrant and refreshing. It grows easy from seed and lives from year to year. G. P. Pkt 10c.

LEPTOSYNE *Stillmani*.

Beautifully formed flowers and elegant foliage. Has large golden flowers. H. H. A. Pkt 15c.

LYCHNIS (*Burning Star*).

Grand hardy perennials, which grow and bloom year after year, requiring no protection. H. P.

HAAGEANA HYBRIDA—White rose, vermilion; etc. Pkt 10c.

Extensively cultivated for bedding, edgings and as a pot plant for indoor decoration. Nothing prettier for window boxes and hanging baskets. T. A.

Lobelia.

LOBELIA.

CRYSTAL PALACE COMPACTA—Large, deep blue flowers and bronzy foliage. Of fine, close habit; 6 in. Pkt 5c.

WHITE GEM COMPACTA—Forms perfect balls of dense white bloom; 4 to 6 in. Pkt 5c.

FLORIST'S FAVORITE COMPACTA (*Pumila Splendens*)—Brilliant dark blue with white eye. Very dwarf. Pkt 10c.

TRAILING DARK BLUE (*Erimus Speciosa*)—Pkt 5c.

MARIGOLD.

The African and French Marigolds are valuable for their flowers in autumn, and can be grown to advantage in little clumps with other plants in the front of shrubberies or in the garden border. The African varieties are the taller in growth, and produce large self-colored blossoms. The French varieties are smaller, some of them being elegantly striped and spotted. The dwarf-growing kinds adapt themselves to spots where the taller varieties would be unsuitable. Seeds can be sown in a coldframe or in a seed bed in the open border, and the young plants transplanted late in the spring to where they are to remain. They succeed best in a light soil, with full exposure to the sun. H. A.

AFRICAN TALL DOUBLE MIXED—Taller in growth than the French, and the flowers are larger and self-colored. About 2 feet. Pkt 5c.

FRENCH DWARF DOUBLE MIXED—Many striped and blotched. Bloom earlier than the African. About 1 foot. Pkt 5c.

LEGION OF HONOR—Single golden yellow blossoms marked with red. Pkt 5c.

Marigolds, French Dwarf Double Mixed.

Larkspur, Tall Mixed.

MIGNONETTE.

This is one of the grandest garden flowers ever produced, and no garden is complete without an assortment of the following varieties. The color of the florets vary on account of the density of the florets and spikes, thus presenting almost solid columns of brilliant contrasted colorings against the healthy, rich green foliage. The fragrance is delightfully rich and powerful. For cutting they are superb, remaining fresh for 8 to 10 days in water. HA.

Mignonette
Pure Matchet.

PURE MATCHET—A dwarf French variety with broad spikes of flowers. Pkt 5c.

BISMARCK—Can best be described as an Improved Matchet. Good for florists. Has stout stalks, dark cream crimped foliage, flowers double the size of Matchet. Pkt 5c.

ALLEN'S DEFIANCE—Will throw flower stalks of a foot in length, and of an unequalled delicious fragrance. Good forcing variety under glass. 1½ ft. Pkt 5c.

GIANT PYRAMID—Very beautiful. Slender spikes of light flowers. Pkt 5c.

MIMULUS

Or Monkey Flower.

Admirable pot plants. The color and markings of the large Gloxinia-shaped flowers are rich in the extreme, ranging through crimson, maroon, yellow, white and pink, beautifully spotted and blotched.

FINE MIXED SPOTTED VARIETIES—One foot. Pkt 10c.

MOSCHATUS.

(Musk Plant)—Foliage emits a strong musky perfume; yellow; ¼ foot. Pkt 5c.

Nemophyla.

MARVEL OF PERU.

(Four O'clocks.)

Called Four O'clocks because they open their blossoms at that hour in the afternoon. They are also known as "Marvel of Peru." Handsome, free-flowering, sweet-scented; blossoms variegated and striped. HA.

Fine Mixed Varieties—Pkt 5c.

Dwarf Mixed Varieties—Pkt 5c.

Nicotiana.

NOLANA

Very showy when in flower baskets, and should be planted in the border; fine trailing or hanging plants. Fine Mixed—Pkt 5c.

Nigella.

MORNING GLORY.

A beautiful flower. Spreads its showiness of flowers over a space of two feet in all directions and blooms continuously from July to October. Flowers about the same size as the Climbing Morning Glory, but remain open longer, sometimes all day. HA. 1ft. Dwarf Mixed—Pkt 5c.

NEMOPHILA.

Splendid annuals for garden decoration; bright colored flowers, in shades of blue, white and violet. 1ft. Finest Mixed—Pkt 5c.

MIMULUS.

NICOTIANA Ornamental Tobacco.

A beautiful hardy annual, fine for its sweet-scented flowers and ornamental leaves. HA.

St. L. S. Co.'s NICOTIANA

SANDERAE—A Brazilian novelty, the entire bush being covered with large, brilliant carmine red flowers on a beautiful plant, growing to a height of about 2 feet. An ideal plant to be used for bordering and bedding purposes, as is Salvia. We know of nothing that approaches it in point of floriferousness, its graceful and copiously-branching habit making it one of the most handsome flowers we have ever been able to offer. It is of the hardy type, and produces flowers under nearly all circumstances and in almost any kind of soil; is of a decidedly sweet odor, and a plant that will please the most skeptical. We urge you to try it this season. Pkt 25c.

COLOSSEA.

An imposing foliage plant, 5 to 6 feet; immense leaves, at first rose and violet, afterward changing to deep green, with red veins. Pkt 10c.

AFFINIS.

An annual with sweet-scented, pure white star-shaped flowers, 3 inches across, blooming continually; 2 to 3 feet high. Pkt 5c.

NIGELLA Love in a Mist or Devil in the Bush

A compact, free-flowering plant with finely-cut foliage, curious-looking flowers and seed-pods; of easy culture, growing in any garden soil; hardy annuals; blue and white mixed; 1 foot. HA.

Damascena, the finest Nigella. Pkt 5c.

OENOTHERA.

A most desirable plant for summer and autumn blooming. The plants grow about 10 inches high and are covered with large flowers of a beautiful pink, with a white center. Useful both for pots and outdoors.

Mexican Primrose—Pkt 10c.

OXALIS.

Suitable for rock work, rustic baskets, etc.; largely used in parks. Flowers deep yellow, leaves brown; height 6 inches.

Oxalis Tropaeoloides—Pkt 5c.

Noiana.

PANSIES.

Below we offer you the choicest specimens of Pansies ever offered:

St. L. S. Co's "NONPAREIL" MIXTURE—This is certainly one of the grandest collections of the rarest and most beautiful varieties of Pansies. There is no end to the countless shades of color with which nature has endowed this mixture; it is nearly inconceivable. The flowers are of large size and the plants grow more compactly bushy than other seedmen's mixtures. You will become as enthusiastic as we are when you see the flowers; and will not fail to sow the "Nonpareil" mixture in preference to all others. You cannot buy this seed except from us; we control the crop of the European specialists who raise it—men whose lives are devoted to the perfecting of the Pansy. You can raise scores of plants from one of these packets. Pkt 15c.

FINE MIXED—Composed of all the separate varieties; remarkably showy and rich in color. Pkt 5c; 1/4 oz. 25c.

TRIMARDEAU GIANT MIXED—Extra large flowers, but not of such perfect form as the Imperial German. Most of the flowers have three large blotches or spots. Pkt 10c.

MADAM PERRET (*The Wine Pansy*)—A new giant-flowered strain, producing wonderfully large flowers and comprising all shades of red from light rose to bright reds and dark purples. The plant is of spreading habit, with large, broad leaves. Pkt 15c.

IMPERIAL GERMAN GIANT, Mixed—The Imperial German Pansies are famous for their almost endless variety of charming shades of color, united with large size and perfect form of flowers. They embrace all the solid or self-colors; delicately shaded flowers; edged or bordered flowers of various colors; dark and light marbled varieties; flowers with clear, distinct eyes; striped flowers of striking beauty, and vividly colored fancy varieties. Pkt 15c.

BUGNOT'S GIANT MIXTURE—One of the richest mixtures imaginable; contains the finest blotched varieties; of large size and exquisite colorings. Pkt 20c.

CASSIER'S 3 and 5 SPOTTED—One of the largest blotched flowering mixtures, with petals of the finest coloring, ranging from yellow white to dark and spotted. Pkt 20c.

PANSIES: St. L. S. Co's Large Flowering Mixed.

St. L. S. Co's LARGE FLOWERING MIXED—An extra fine strain. Plants compact, and produce flowers in a great variety of colors. Pkt 10c; 1/4 oz. 50c.

MASTERPIECE—This grand new giant Pansy is remarkable in having the borders of the petals waved or frilled, which gives the flower an almost double appearance; the type is altogether novel and distinct. Another noteworthy characteristic of Masterpiece is its novel tints and markings, certain of the colorings differing from any heretofore known in the Pansy. The flowers are very large and the plant is a profuse bloomer. Pkt 10c.

Any of the above 10c Pkts 3 for 25c or three 20c Pkts for 50c.

SEPARATE COLORS. ALL GIANT-FLOWERED VARIETIES.

Please do not compare the following new improved varieties with the old time strains of similar names:

FAIRY QUEEN—Delicate blue, margined with pure white. The only variety of its kind.

FIRE KING—Bright reddish-brown, lower petals margined with yellow. A true fiery shade.

KING OF THE BLACKS (Faust)—Pure jet black, of rich, velvety appearance.

LORD BEACONSHIELD—Lavender and violet; a most beautiful variety. **SNOWFLAKE**—Very large; satiny white. **YELLOW TRIMARDEAU**—With black eye; very large. **METEOR**—A Pansy of fiery brown; Pkt 15c. **EMPEROR WILLIAM**—Splendid; ultramarine-blue; very showy; Pkt 10c. **GOLD ELSIE**—Clear yellow color; very fine; a Pansy of the most brilliant hue; Pkt 15c. Any of the above Separate Colors, not priced, 10c per packet, 3 for 25c.

Type of Our Nonpareil Mixture.

PANSY: Masterpiece.

SPECIAL OFFER TO PANSY LOVERS

This diagram, when properly laid out as shown in illustration, and sown with the following named varieties as per their respective numberings, will produce one of the most striking sights obtainable in the floral world:

- No. 1. Snowflake, Pkt 10c
- No. 2. Faust, Pkt 10c
- No. 3. Lord Beaconsfield, Pkt 10c
- No. 4. Meteor, Pkt 15c
- No. 5. Emperor William, Pkt 10c
- No. 6. Gold Elsie, Pkt 15c
- Total 70c

SPECIAL! In order that everyone may try this magnificent collection, we will send the 6 packets, as described, for only **50c**. This Collection will produce a bed 6 feet in diameter.

Our Circular, "HOW TO GROW PANSIES," FREE—Ask For It.

PHLOX.

A grand flower for giving solid color effect. The flowers literally cover the beds with their brilliant hues. It is a wonderful bloomer and continues late in the season if not allowed to produce seed. **HA. LARGE FLOWERING MIXED**—This important strain is not only notable for variety and brilliancy of colors, but also for the perfection and size of flowers, which are very large and round, the petals overlapping each other. Pkt 10c.
STARRED AND FRINGED MIXED—Very odd and pretty effect. Pkt 5c.
FINE MIXED—Bright, showy flowers. Good for cutting; 1 ft. Pkt 5c; oz 40c.

DWARF PHLOX.

This strain grows only 6 inches in height. Plants form round, compact bushes, and are thickly studded with bright, showy flowers, like

the taller variety, in all colors. Splendid for bedding, edging and pot culture.

NEW "CECILY" PHLOX—In our new large flowering "Cecily" Phlox we have superseded all other varieties by the large size and noble style of their brilliant blooms. This new phlox will take the first place in the collection of dwarf phloxes. The flowers of our new "Cecily Phlox" are white and dark centered. They are, except the white ones, just like those of the tall large flowering Phlox. It grows to a height of about six inches, close, compact and robust, and the plants are covered with blooms. Its richness of shades and mixed colors are exquisite, and we predict for this new introduction a marvelous future. Price per pkt 10c; postpaid.

DWARF FIREBALL—Elegant scarlet flowers of fiery hue. Pkt 5c.
DWARF SNOWBALL—Similar to the above, only white in color. Pkt 10c.
DWARF MIXED—All colors mixed. Pkt 5c.
PERENNIAL MIXED—A fine herbaceous perennial for beds or mixed borders. Pkt 10c.

Cecily Phlox.

PETUNIA.

THE large-flowered varieties of Petunia, four or more inches in diameter, are best for single plants or small groups. The strains we offer are unrivaled in beauty and variety. The seeds are high-priced because of the great amount of labor and care in artificial fertilization. Seed sown in a hotbed or coldframe early in the spring will produce flowering plants in June. Set the plants about 18 inches apart. They come pretty true from seed, but are not reliable in this respect, being inclined to sport. The seeds of the double Petunia do not possess as much vitality as those of the single, and care must be used to get them to germinate. **HA. GIANTS of CALIFORNIA**—The richest colors, the largest flowers and the finest markings of all Petunias. Flowers of gigantic size, many of them measuring 5 to 6 inches in diameter, and of an astonishing variety of colors. They embrace every conceivable shade of crimson, pink, lavender, pure white, etc., with a diversity of beautiful throat veinings. As this seed is grown by a specialist, and saved from cross-fertilization, it is necessarily expensive, but we cannot offer you anything better, except our Forest Park Mixture (see yellow pages). Pkt 15c.
FINE MIXED—Many colors; fine for bedding. Pkt 5c; oz 50c.
EXTRA CHOICE MIXED—A very choice strain, partly made up from

Petunia, Giants of California.

named large-flowering sorts, which will give an abundance of the choicest flowers in the greatest variety of colors. Pkt 10c.

DOUBLE LARGE-FLOWERING FRINGED, MIXED—The grandest strain of Petunias. Flowers of immense size and variety. Pkt 25c; 3 pkts 60c.
DWARF MIXED—One of the finest dwarf Petunias, producing flowers of enormous size and beauty. Pkt 10c.

PORTULACA or ROSE MOSS—Brilliant garden annuals, 6 inches high, luxuriating in warm situations, and blooming profusely from early summer to autumn. For low beds and masses of color, from spring until frost, they are indispensable. Colors range through innumerable shades of red, yellow, pink, striped, white, etc. **HA. LARGE-FLOWERING SINGLE**, all colors mixed—Pkt 5c; oz 40c.
DOUBLE FINE MIXED—Produces large percentage of perfectly double flowers, all colors. Pkt 10c; Double White, Red, Yellow, ea 10c.

Phlox, Large Flowered

PENSTEMOM

These beautiful flowers are large and very numerous; in shape they somewhat resemble a Gloxinia and are borne on long stems. In color they vary from pure white, pink, rose and crimson to mauve and purple, including many which are beautifully edged with a fine contrasting color. If this seed is sown in January, February or March, in a fairly warm place, the plants will bloom in summer and fall; splendid cut flowers; also suitable for pot culture; 2 ft. **HA. LARGE FLOWERING**—The finest ever offered. Pkt 5c.

Phlox, Starred.

PHACELIA.

CAMPANULARIA—Flower a rich deep blue; height 1 to 2 feet. HA. Excellent for bees. Pkt 5c.

POTENTILLA. A beautiful border plant; flowers from yellow to light red. Leaves resemble strawberry plants; 1 ft. HP.

Portulaca, Double Fine Mixed.

POPPIES.

The recent development of Poppies has brought them into great and deserved popularity. It may safely be said that no other subject in our gardens affords a more imposing display of brilliant coloring during the blooming season. H. A.

Double-Cardinal. Round as a ball, red as fire. The flowers are of very large size and finely fringed. In color it is a glowing cardinal scarlet of attractive brilliancy, and the long duration of its blooming period makes it a very desirable variety indeed. About 16 inches. Pkt. 5c.

Double Carnation-Flowered Mixed. Large, showy flowers of great variety of colors. 2 ft. Pkt. 5c; oz. 15c.

Oriental Hybrids. Large, showy flowers, ranging in color from orange-scarlet to crimson. Very brilliant. H. P. About 2½ ft. Pkt. 10c.

Shirley-Mixed. This magnificent species sports to numberless shades of color; from pure white to rose, pink, carmine and deepest crimson. Pkt. 5c.

Tulip-Flowered Scarlet. Large, bright scarlet flowers. The two outer petals of the flower form a tulip cup. Strikingly beautiful. About 1 ft. Pkt. 5c.

Iceland Lacinated Mixed. White, salmon, rose and orange, with yellow stamens. Petals delicately lacinated and fringed. Dwarf. H. P. Pkt. 10c.

POPPY—Double Feathered.

Double Feathered. We have been successful in cultivating two new delicate colors of the white Feathered Carnation Poppy, namely: Soft Pink and Salmon Rose, and now offer them in mixed proportions. They are remarkable for the very soft shades as well as for the loose but noble style of their flowers, which distinguish them so prominently to the older somniferum sorts, and they will be gladly received as a valuable addition to this famous family. We urge our flower-loving friends to order a supply of this special strain early, as stock is very limited, and we are sure it will please you beyond doubt. Pkt. 10c.

PLATYCODON GRANDIFLORA—Known as Large Flowered Chinese Bell Flower. Hardy perennials bearing large, broad, bell-shaped white or blue flowers; very handsome for garden decoration. 1½ ft. The *Nana Compacta* or "Mariesi" type form sturdy little bushes only about 12 inches high and are profuse bloomers. H. P.

Grandiflorum. Color blue, very hardy. Height 2 ft. Pkt. 10c.

Mariesi is a fine dwarf, dark brown variety. Pkt. 10c.

POINCIANA.

A beautiful showy variety of flowers that is fast meeting with universal demand. GP.

Golosi. The best variety. Pkt. 10c.

PERILLA—Laciniata.

PRIMULA—Large Flowering.

Chinese. The culture of these lovely flowers is much easier than most people think. Our mixture includes all the choicest colors of the single flowering Primulas in all their dainty shadings. Large flowering and fern leaved mixed. G. B. Pkt. 25c.

Large Flowering Golden or English Primrose. An early-blooming primrose for spring flower beds or pot culture; the large umbels of flowers are borne on stocks 8 inches tall. Pkt. 15c.

Auricula. Beautiful low-growing, early spring-flowering plants, fine for borders, pot culture, etc.; the fragrant flowers of many rich colors are borne in clusters on the top of stalks 4 to 6 inches long. Pkt. 15c.

PERILLA.

A beautiful, showy plant. Highly prized for its foliage, producing leaves similar to the Coleus. 1½ ft. H. A. Laciniata. The popular specie. Pkt. 5c.

POPPY—Carnation Flowered.

PYRETHRUM.

(Perennial Feverfew and Golden Feather). They are treated as annuals and are very useful plants for edging beds.

Parthenifolium Aureum (Golden Feather). Beautiful yellow foliage. Very desirable for bedding and ribbons. 8 in. Pkt. 5c.

Salaginoides. Yellow fern foliage. Pkt. 10c.

Roseum Hybrideum Grandiflorum. Flowers of enormous size, ranging in color from light pink and rose to deep carmine. Very valuable for cut flowers and in borders. Pkt. 10c.

Primula or Primrose

Obconica. This is one of the most useful flowering plants. If sown early in the spring the seedlings will commence to bloom in May or June and continue to flower throughout the whole year. The flowers are of a soft lilac, pink, rose, lavender or crimson and very charming. It is one of the most useful Primulas for pot culture, also succeeds well in the open border during the summer months. H. P.

Grandiflora. Pkt. 15c.

PRIMULA—Polyanthus or English Primrose.

Ricinus or Castor Oil Plant.

Salvia FLOWERING SAGE.

The *Salvia splendens* is a standard bedding plant that keeps the garden bright with color until late in autumn. For pot culture, for cutting, for borders, and for forming bushy, hedge-like lines in the garden it is very valuable. The plants grow and bloom profusely in any light, rich soil.

Splendens Grandiflora, Scarlet. A rich-flowered bedder; 3 ft. Pkt. 5c.

Splendens Bonfire. Our well-known compact *Salvia*—the freest-blooming of all, seemingly on fire all the time with dense, flaming scarlet spikes. 2½ ft. Pkt. 10c.

Silverspot. Rich green leaves, elegantly spotted with yellow. The intense bright scarlet flowers are large and lavishly borne; neat and compact; 2½ ft. Pkt. 10c.

Salvia—Silverspot

RICINUS.

PICTURESQUELY showy and imposing, the Ricinus gives to the garden magnificent semi-tropical effects, and may be used in a variety of ways. Grown as a specimen, it makes a perfect pyramid of gigantic leaves; a dozen plants in a large bed show a glorious mound of glistening colors and may be admired from a long distance; planted thickly, it soon forms a handsome screen or hedge. 8 to 10 ft. H. A.

ZANZIBARIENSIS. Surpasses all in size and beauty of colors, which include glaucous-green, coppery brown, metallic red, brownish purple, red-maroon and bronze. 8 to 10 ft. Pkt. 5c.

BORBONIENSIS ARBOREUS. The tallest of the Ricinus family. 15 ft. Pkt. 5c.

CAMBODGENSIS. A beautiful black leaved specie, a handsome foliage. Pkt. 5c.

GIBSONI. Purplish leave and stems. 6 ft. Pkt. 5c.

MIXED SORTS. Pkt. 5c.

Rose Champion.

(*Agrostemma coronaria*). Exceedingly handsome and free-flowering. Rose pink. H. P. 1½ ft. Pkt. 5c.

Salpiglossis.

This we concede to be one of the most beautiful flowers in existence. Few plants can equal it, its rich distinct markings at once catch the eye, giving it one of the most pleasing appearances possible. As pot plants they are elegant and for cut flowers for vase and bouquets they are unsurpassed. H. H. A.

Salpiglossis.

EMPEROR. The New Emperor strain is a very great improvement on the older type in its increased size of flowers, their improved shape and larger variety of colors, and more than all else in their singularly beautiful veining of gold. These are the only flowers, to our knowledge, that show a glint of gold in their coloring. Pkt. 10c.

LARGE-FLOWERED MIXED. (*Painted Tongue*). A beautiful mixture. Pkt. 5c.

Schizanthus.

Butterfly Flower. What we have said about Salpiglossis we would repeat for Schizanthus as they are certainly one of the most beautiful flowers imaginable. The seed must be carefully sown and cared for. H. H. A.

WISETONENSIS. This wonderfully showy plant deserves to be widely known and cultivated. Attaining a height of about 16 in., branching freely and yet of a compact pyramidal form, it throws well above its charming feathery foliage a multitude of large panicles of beautiful blossoms. Its ground color is mostly white dotted with delicate rose, while the upper lip is adorned in the center by a spot varying in shade between golden yellow, carmine, rose and bright brown. These lovely Schizanthus, literally covered as they are with their dainty little flowers, make excellent pot and market plants. If planted in the open they require a somewhat shaded position. Pkt. 15c.

LARGE-FLOWERED MIXED—As pretty as miniature Orchids. Exceedingly profuse bloomer. Pkt 5c.

Stocks.

TEN-WEEK VARIETIES. HHA.

The Ten-Weeks or Annual Stock has nearly or quite all the requisites of a perfect flowering plant—good habit, fine foliage, and beautiful flowers of almost every desirable tint. They will flower finely in winter in a house that is tolerably cool and moist. For this purpose sow seeds late in the season. Although not a constant bloomer, like Phlox, the flowers endure for a long time, and the side shoots give a succession of blossoms when the plant can obtain a needed supply of moisture.

DRESDEN PERPETUAL (*Cut-and-Come-Again, or Princess Alice*)—Pure white. Plants of robust growth and branching habit. If sown early, commences blooming in June and continues until frost, producing flowers in September and October, when other varieties have faded. Fine for cutting.

Double German Mixed—The best for ordinary outdoor planting. Pkt 5c.

Large-Flowering Double Mixed—Select pot-grown German seed. Pkt 10c.

Autumnal Fine Mixed—(Intermediate Stocks.) Blossoms in the fall if sown early. H. H. B.; 1½ ft. Pkt 15c.

Winter or Brompton Mixed—Remove the plants indoors for winter blooming. Pkt 15c.

Stocks

SCABIOSA.

A beautiful, showy border plant, with beautiful variegated flowers; will grow in any ordinary soil; flowers are of handsome mixed colorings. HA.

LARGE FLOWERING DOUBLE MIXED—Pkt 5c.

SENSITIVE PLANT.

(*Mimosa Pudica*.) A curious and interesting plant with pinkish white flowers; the leaves close when touched or shaken; 1½ feet.

PUDICA—The favorite variety. Pkt 5c.

SILENA.

(*Catchfly*.) Bright-colored, free-flowering annuals, suitable for rockwork or open border. *S. pendula* is largely grown for spring flower gardening. They succeed in any light, loamy soil. HP.

PENDULA—Pkt 5c.

SOLANUM.

(*Jerusalem Cherry*.) This is a very useful pot plant for winter decoration. It is of dwarf, branching habit; leaves small and oval-shaped, bearing in the greatest profusion bright scarlet globular berries; very ornamental; 1 ft. **CAPSIKASTRUM**—A beautiful decorative variety; pkt 10c.

SUNFLOWER.

(*Helianthus*.) Far superior to common Sunflowers. The large, deep, rich golden yellow flowers are produced on each branch, as well as one at the base of each stem on the main stalk. Makes a beautiful hedge, and in addition to being ornamental, produces seed abundantly for feeding to poultry or birds. They are more like big yellow *Chrysanthemums* than Sunflowers. HA.

GOLDEN BALL—A beautiful large double variety; pkt 5c; oz. 10c. **DWARF DOUBLE VARIEGATED**—Similar to the above variety, only of a dwarf nature, with variegated leaves; pkt 5c; oz. 15c. **DOUBLE CALIFORNIA**—A beautiful large golden double variety; pkt 5c.

SINGLE FLOWERING SORTS.

The single Sunflowers are indispensable for cutting. Sown on a sunny spot in April or May, they come into bloom early in summer, and keep up a constant supply of flowers until cut down by frost.

CUCUMERIFOLIUS (*Miniature Sunflower*)—Small-flowered dwarf; single; rich yellow; an abundant bloomer; pkt 5c; oz. 25c; **STELLA** (*Improved Miniature Sunflower*)—Differs from the above by its larger and better formed flowers of the purest golden yellow, with black disc; pkt 5c; oz. 30c. **MAMMOTH RUSSIAN**—5 to 8 feet (see Farm Seed Dept.); oz. 5c.

Scabiosa.

VERBENA: Mammoth.

VERBENA.

Verbenas raised from seed are superior to those grown from cuttings and less liable to disease. HHP.

FINE MIXED—All the good colors. Pkt 5c; ¼ oz. 15c.

CHOICE MIXED—Seeds saved from named sorts. Pkt 10c.

St. L. S. Co's MAMMOTH STRAIN, Mixed

—The individual blossoms are frequently larger than a silver quarter; in fact, many are scarcely covered by a silver half-dollar. Ours is a strain of truly Mammoth Verbena that produces uniformly magnificent trusses of flowers which embrace a wide range of colors. Pkt 15c; 2 pkts 25c.

Mammoth White, 10c; Mammoth Purple, 10c; Mammoth Scarlet, 10c.

GREAT FLORAL CLOCK MIXTURE—Our great novelty mixture, which has taken the country by storm. Our greatest Verbena offering. Pkt 15c.

ZINNIA.

This is one of the most charming of annual flowers. The plants form handsome little bushes about 15 inches high, and fairly bristle with tiny, short-stemmed, very double flowers, hardly exceeding a Daisy flower in size. They are exceedingly pretty plants, and bloom all summer long and until late in the fall. 1½ to 2 ft. HA.

EXTRA DOUBLE MIXED—HA. 2 feet. Pkt 5c.

ZEBRA DOUBLE MIXED—A very pretty strain of striped flowers. Pkt 5c.

MAMMOTH DOUBLE MIXED—Of unusually robust habit of growth and immense size. Perfectly formed, very double flowers of various striking colors. Pkt 10c.

DOUBLE LILIPUT MIXED—Smaller than the ordinary Zinnia; long, stiff stems. Valuable for bouquets. Pkt 5c.

DWARF DOUBLE MIXED—Pkt 5c.

WALL FLOWER.

A beautiful hardy perennial of exquisite coloring, producing long, showy spikes in abundance. Highly prized for bouquets. HP.

EXTRA EARLY PARISIAN—Blooms in August and continues until checked by frost; magnificent golden yellow single flowers on long spikes; deliciously fragrant. Pkt 10c. **DOUBLE MIXED** Pkt 10c.

SINGLE MIXED—1 foot. Pkt 5c.

ANNUAL GARDEN MIXTURE.

Contains from 40 to 50 varieties of standard hardy flower seeds. Pkt 5c; oz. 25c.

SWEET ROCKET.

(*Hesperis*.) Old-fashioned garden plant, and among the most desirable of hardy flowers; also known as

Dame's Rocket and Dame's Violet; grows from 2 to 3 feet high and bears spikes of showy white lilac and purple fragrant flowers. HP.

Fine Mixed—Pkt 5c.

SWEET WILLIAM.

(*Dianthus Barbatus*.) These plants, when in full bloom, present a beautiful sight, and for a fine display are unsurpassed. Blooms freely the first season from seed. HP.

Double Mixed—This mixture contains the finest colors, the seed being saved from a splendid double-flowering collection by specialists in this line; impossible to find anything that can compare with it; pkt 10c.

Single Mixed—Pkt 5c.

STOKESIA.

(*Corn Flower Aster*.) Highly valuable for cutting, supplying a shade of color not overly plentiful at any season of the year.

It should be set where it can make a permanent bed. HP.

Cyanea—The earliest and best sort. Pkt 10c.

VIRGINIAN STOCK.

Charming dwarf annuals, with bright-colored flowers, making the garden gay in early summer.

½ foot. HA.

Mixed—Pkt 5c.

VIOLETS (Sweet Scented).

Viola odorata is the well-known

perennial. May be grown from seed, though somewhat slow in germinating. Succeeds best in a partially shaded, moist place. HP.

Viola odorata (semperforens)—Deep violet-blue, and deliciously fragrant; pkt 10c.

The Czar—Blue and White, sweet-scented; pkt 10c.

VINCA—Madagascar Periwinkle.

The Vincas are among our most satisfactory bedding plants; they are very ornamental, and bloom freely from early summer until destroyed by frost. In the fall they can be potted for the house, and kept in bloom through the winter. Seeds can be started in the window or under glass. TP.

ROSEA—Fine rose color. Pkt 5c.

ROSEA ALBA—White, rosy eye. Pkt 5c.

ALBA PURA—Clear, pure white. Pkt 5c.

ALL COLORS, MIXED—Pkt 5c.

ZINNIA: Mammoth.

SEE YELLOW PAGES FOR OUR NEW OFFERINGS IN SWEET PEAS.

SWEET PEAS.

Countess
 Spencer

QUEEN VICTORIA—Light primrose yellow. More easily grown than Mrs. Eckford. Black seeds.
RAMONA—White, flaked and striped pale pink. Grand, large variety.
ALOPHAN—The best red for general purposes. Long stems; does not fade.
THE HON. MRS. KENYON—The finest primrose yellow ever introduced. Elegant for cutting.
PAWONA—Heliotrope, distinctly striped white. Very effective.

DWARF VARIETIES Compact, dwarf plants, 7 inches in height, covering the ground like Verbenas. Fine for beds and pot culture.
LUPID, WHITE—A large, snow white variety. Very beautiful.
LUPID, MIXED—Similar to the above, only a mixture of different sizes.

BUSH VARIETIES These grow in perfect bush form, 16 to 18 inches high. They require trellis when grown in hedge form, but when grown as individual bushes the support of light crossed sticks should be given. They freely produce flowers of large size.
All Colors, mixed. Oz 15c; 2oz 25c; 1/4 lb 35c; postpaid.

Double Flowering Varieties These produce usually 40 per cent. of beautiful double blossoms; generally doubles and singles are borne out half-and-half on each stem. In some uncongential situations they produce no double flowers at all, but in such cases bear in profusion the single flowers.

DOUBLE, WHITE—A pure white flower; oz 15c; 2oz 25c; 1/4 lb 35c; postpaid.
DOUBLE, MIXED—An assortment of handsome colors; oz 15c; 2oz 25c; 1/4 lb 35c; postpaid.

This season we offer you the finest assortment of Sweet Peas obtainable, all old worn out sorts having been omitted and nothing but the choicest recent varieties have been permitted to retain their places. The following list cannot be surpassed.

PRICES Pkt 5c; oz 10c; 2oz 15c; 1/4 lb 20c; postpaid, except where otherwise noted in description below.

AVRORA—White, magnificently flaked and striped orange.
BLACK KNIGHT—Very deep maroon, almost black. Large flowers.

BLANCHE BURPEE—Originated by Mr. Eckford. One of the best white sorts to-day.

BLANCHE FERRY—The popular pink and white variety. Largely used by florists for cut flowers.

COUNTESS OF RADOR, IMPROVED—Pure light lavender; free from any reddish tinge.

COUNTESS OF LATHOM—Creamy pink; a new variety; excellent for cut flowers.

DOROTHY ECKFORD—The grandest pure white. In addition to its pureness it is a grand giant flower, also robust in growth and stem, with no tendency whatever to tinge or go pink; the plant is very short jointed, and grows an enormous mass of bloom. One of our finest offerings. Oz 15c; 2oz 25c; 1/4 lb 35c; postpaid.

EARLIEST OF ALL—The best sort for forcing. Flowers pink and white; famous everywhere.

EARLIEST SUN-BEAMS—An elegant forcing variety; flowers are of a rich primrose color, stems strong and of good length for cutting.

EMILY HENDERSON—Very early free blooming, white. Popular for forcing. One of our best varieties.

JENNIE GORDON—One of our finest new offerings; color, standard rose.

KING EDWARD VII—A true giant flowering variety, with strong stems and growth. Much brighter than either Mars or Salpoian; in fact the best dark red in existence. Ounce, 15c.

KATHERINE TRACY—A lovely bright pink. Stands our hot sun better than others.

LADY GRISEL HAMILTON—Attractively lavender blue. Flowers extra large.

Dorothy Eckford

LADY MARY CURRIE—Orange pink, delicately shaded lilac. Free bloomer.

LADY NINA BALFOUR—A beautiful Sweet Pea, rosy lavender with silvery lilac wings; a handsome large flowering variety.

MAID OF HONOR—(Improved Butterfly.) White, shaded blue, edged violet.

MARS—The best red variety, although it will fade at times under a strong sun.

MONT BLANC—The earliest white. Not very tall. Excellent for forcing. Ounce 10c.

MRS. WALTER WRIGHT—One of the finest of the lavender colored varieties. The flowers are of a pinkish cream tint, changing to a reddish violet, wings of extra large size. Oz 15c; 2oz 25c; 1/4 lb 35c; postpaid.

NAVY BLUE—The only true blue variety. Beautiful beyond description.

OTHELLO—Termed the best dark Sweet Pea. Deep maroon. Elegant for bouquets.

PRINCE EDWARD OF YORK—Brilliant scarlet; wings brightest rose. Very showy.

PRINCE OF WALES—Bright rose pink. Larger and superior to Her Majesty.

11 PKTS FOR 25c

Eleven Packets of Finest Sweet Peas For a "Quarter"

Eleven popular varieties, selected by us from our list of named sorts, of the largest flowered and most attractively colored kinds. There is sufficient seed in the eleven packets to sow a 65-foot row, and with each collection is sent a copy of our Sweet Peas circular telling how to successfully grow them. 25c. postpaid.

COLLECTION CANNOT BE CHANGED.

Ornamental Gourds.

Rapid growing, interesting annual climbers, with ornamental foliage and singularly shaped fruit. They attain the remarkable growth of from 10 to 20 feet in height and are grown extensively for household as well as ornamental purposes.

DIPPER—Useful for many household purposes. When grown on the ground produces differently shaped gourds than on a trellis. Pkt 5c.

DISH CLOTH OR LUFFA—Sponge-like, porous lining is dried and used in the bath or for dish cloth. Pkt 10c.

HERCULES' CLUB—The longest of any of the gourds. Pkt 5c.

MOCK ORANGE—Pkt 5c. **POWDER HORN**—Pkt 5c.

Mixed Gourds.

ORNAMENTAL
Pipe Gourd

JAPANESE NEST EGG.
 Resembles hens' eggs in color, size and shape. Pkt 5c.

SUGAR TROUGH.
 Very light, but durable. Used for buckets, baskets, soap and salt dishes, etc. Pkt 5c.

SMALL VARIETIES, MIXED—Oz 35c; pkt 5c.

ORNAMENTAL PIPE GOURD—This unique little Gourd is of a rich, deep green color; the light portion, bright orange-yellow, both sharply marked with white. The vine is useful in covering fences and trellises and the Gourds are useful for various purposes, as well as being exceedingly ornamental. Pkt 10c.

Everlasting Flowers and Ornamental Grasses.

Helichrysum.

Rhodanthe.

Gomphrena.

Job's Tears Grass.

We Are Headquarters For Seed Novelties.

EVERLASTING FLOWERS.

These are mostly annuals with straw-like flowers that keep their form and color for years. With few exceptions they should be cut just as the buds begin to expand. Hang in the shade, stems upward, till dry. All are easily started from seeds, and attractive in the garden as well as useful for bouquets.

ACROCLINIUM ROSEUM—Very elegant and pretty. Rose and white mixed. 1 ft.

HELICHRYSUM, MIXED—(Bachelor Buttons). Very ornamental and much admired when dried. Fine double mixed. 3 ft.

GOMPHRENA, MIXED—(Globe Amaranth). Very well known.

HELIPTERUM SANFORDII—Pretty, everlasting, producing large clusters of yellow flowers.

RHODANTHE, MIXED—Well known. Very pretty for bouquets.

STATICE, SUWOROWI—Free-flowering, remaining long in beauty. Bright rose color.

XERANTHEMUM, MIXED—(Papierblume). Very showy. Extra double, fine mixed.

Any variety, 10c per packet. The above 7 pkts 45c postpaid.

ORNAMENTAL GRASSES.

The Ornamental Grasses serve the double purpose of rendering the mixed flower-bed or border attractive during the summer and for the use of the spikes or pinicles in a dried state in winter bouquets.

For large beds or groups on lawns nothing gives a finer effect, and they are now largely used in prominent positions in many of the finest public parks, etc. The following are the most popular varieties:

AGROSTIS PULCHELLA—Elegant for bouquets. Feathery. 1 ft.

BRIZA MAXIMA—(Quacking Grass). A very beautiful specie.

BRIZA GRACILIS—(Slender Quacking Grass). Similar to the above.

COIX LACHRIMA—(Job's Tears). 2 ft. One of the prettiest. (See cut).

GINERIUM ARGENTEUM—(Pampus Grass). The most noble grass in cultivation.

LAGURUS OVATUS—(Hare's Tail Grass). Bushy and puffy. Very handsome.

PENNISETUM LONGISTYLUM—A favorite among florists for bouquets, etc.

STIPA PINNATA—(Feather Grass). Beautiful beyond description.

ORNAMENTAL GRASSES, MIXED—Best varieties. Pkt of any of the above 10c each, any 6 pkts 40c postpaid.

Nothing adds more to the beauty of a home than climbing Vines

Coboea scandens

ADLUMIA

SMILAX

CLIMBERS

JAPANESE HOP

ANTIGONON

ANTIGONON leptopus (*Mountain Rose*)—A grand and effective vine when grown in a sunny spot. Bears numerous clusters of deep pink blossoms completely covering the vine. If outdoors it does best in the South. GP. Pkt. 5c.

ADLUMIA cirrhosa (*Mountain Fringe* or *Allegheny Vine*)—A charming hardy biennial climber. Feathery foliage, rose-colored flowers. 15 ft. (See cut.) Pkt. 10c.

AMPELOPSIS Veitchii (*Boston and Japan Ivy*)—Clings to the walls of wood, stone or brick. Dense foliage; glossy green, changing to red and yellow in autumn. H.P. 40 ft. Pkt. 10c.

ARISTOLOCHIA siphon (*Dutchman's Pipe*)—Excellent for shade or screen purposes. HP. 10c.

BALLOON VINE (*Love-in-a-puff*)—A rapid growing annual climber; succeeds best in light soil and warm situation; flowers white; seed vessels look like miniature balloons. (See cut.) 5 to 10 ft. HHA. Pkt. 5c.

BALSAM

BALSAM APPLE (*Momordica balsamina*)—A beautiful climbing plant; handsome apple-shaped fruits. Makes dense shade. The fruits preserved in alcohol make a useful liniment. (See cut.) HHA. 15 to 20 ft. Pkt. 5c.

BALSAM PEAR (*Momordica charantia*)—Fruits are longer than the apple. Pkt. 5c.

CALAMPELIS or **EC-CREMOCARPUS**. A beautiful annual climber. Trained to a trellis it is highly ornamental throughout the summer; bright orange tubular flowers. (See cut.) HP. 10 ft. Pkt. 10c.

CANARY BIRD FLOWER (*Tropaeolum peregrinum*)—Charming little canary-colored blossoms resembling canary birds. Very pretty for trellis. (See cut.) HHA. 10 to 15 ft. Pkt. 10c.

COBOEA SCANDENS (*Cup and Saucer Vine*)—A good tall vine. Foliage heavy, suiting it for shade purposes, and its flowers are attractive. Good for pot culture indoors. (See cut.) TP. 20 ft. Pkt. 5c.

CYPRESS VINE Beautiful twining vine. Its foliage is quite as attractive as the flowers. A continuous bloomer and adapted for any purpose. (See cut.) TA. 15 ft. or more.

Scarlet, pkt. 5c;
White, pkt. 5c;
Scarlet, Ivy-leaved, pkt. 5c;
Mixed, pkt. 5c; oz. 25c.

DOLICHOS (*Hyacinth Bean*)

A rapid growing twiner, with attractive flowers and lots of foliage. Will grow anywhere and is very popular. (See cut.) TA. 20 ft.

"Daylight." This grand Hyacinth Bean comes from Japan. Seed sown late in May will by the middle of July often attain a height of over 10 feet, and are covered with spikes of snow-white, pea-shaped blossoms from then on until late fall. The heart-shaped foliage is bright green, and not affected by insect pests of any kind. Pkt. 5c.

SONDANIEANSIS—The most beautiful purple ever discovered. Similar to the above only in color. Pkt. 5c.

MIXED—Pkt. 5c; oz. 10c;

HOP

Japanese variegated—An excellent rapid climber. Twines. Leaves are never injured by insects or weather. TA. 20 feet. Pkt. 10c. (See cut.)

MAURANDIA

Fine mixed—Suitable either for house or garden culture. TP. 10 ft. Pkt. 10c.

MINA

Lobata—Half hardy Mexican climbing annual. The buds are at first of a vivid red, but turn to orange-yellow before they open, and when fully expanded the flowers are of a creamy-white shade. They are freely produced from the base to the summit of the plant, which attains a height of from 18 to 20 feet. Seed should be sown early. HA. Pkt. 10 cents.

Calampelis

Morning Glory

See Yellow Pages For Our Great New Climbing Novelty Kudzu Vine

Balsam Apple

Cypress Vine

MORNING GLORIES

NEW JAPANESE IPOMEA—This exquisite new Morning Glory offering which we now introduce for the first time, is without doubt the finest new specie ever offered. So rich and beautiful are its gorgeous markings of handsome blotched petals that it cannot be compared with the ordinary Japanese Morning Glory. The flowers are of enormous size, and the vines of a beautiful clinging nature. In fact, say what we may cannot praise its wonderful beauty. Pkt 10c; oz 25c. (See cut.)

IMPERIAL JAPANESE, ALL COLORS—All shades, from the faintest pink to the deepest red and blue; many being spotted, striped, blotched or veined in five or six different colors and tints. The flowers are varied, many being gold-leaved and hairy. HA. Pkt 5c; oz 15c.

FINE MIXED—The well-known variety now rapidly being discarded for the Japanese. Pkt 5c; oz 10c.

HEAVENLY BLUE—Beautiful, large flowers; light blue with yellow throat. Pkt 5c; oz 10c.

BRAZILIAN IPOMEA SETOSA—Large rose-colored flowers, and ornamental, hairy foliage and curious seed pods. Blooms very late. TA. 20 ft. Pkt 5c.

Canary Bird Flower.

MOONFLOWER.

WHITE LARGE FLOWERING—The most rapid growing of all annual twining vines. Grows to a height of 50 feet or more in favorable seasons. TA. Pkt 10c.

WHITE SEEDED VARIETY—Larger in flower, firmer in texture and more fragrant than the black-seeded varieties. Pkt 10c.

BLUE (Ipomoea Bona Nox)—Beautiful large violet flowers. Pkt 10c.

PASSIFLORA (PASSION VINE)

COERULEA—Very popular for window decoration or sunny locations in the garden. Blue, HHP. 10 feet. Pkt 10c.

PERENNIAL PEAS.

(LATHYRUS LATIFOLIUS)—If you have a fence or stump to cover with a vine that makes lots of growth, bears attractive, large clusters of flowers, and never dies, but increases in size every year, plant this. A very small growth will be made the first year, but you will be rewarded the second year. Fine for cutting. HP. Pkt 10c.

SOLANUM SEAFORTHIANUM

—Beautiful climber, 10 to 15 ft. high, with immense clusters of light blue flowers; tender perennial, blooming the first summer from seed. GP. Pkt 10c.

SCARLET RUNNER BEAN.

Pkt 5c; 2 oz for 10c; postpaid.

SILAX.

Beautiful greenhouse climber. Pkt 5c.

THUNBERGIA, MIXED.

(Black-eyed Susan)—Handsome foliage and flowers. Used for a screen or baskets. HHA. 6 ft. Pkt 5c.

WILD CUCUMBER.

A rapid climber and free bloomer. Very popular for small city yards. We highly recommend it for porches, fences or out-buildings. (See cut) Pkt 5c.

MIXTURE OF RAPID CLIMBERS.

Includes vines which succeed in shady, cool positions, and those that do best in dry, sunny ground. The different types of leaves and changes in color amongst the various flowers give a beautiful effect. Pkt. 10c; oz 75c.

Wild Cucumber

Baloon Vine

Giant Dolichos.

NASTURTIUMS

FOR ease of culture, duration of bloom, brilliancy of coloring and general excellence, nothing excels Nasturtiums. All they need is a moderately good soil in a well drained, sunny position, and from within a few weeks from the time they are sown until hard frost comes there is an endless profusion of their gorgeous blossoms.

For cut flowers the tall varieties furnish the largest supply. The plants need not always be run up on something, as they will do very well if allowed to scramble at will over the ground. However, it is for trailing over fences, trellises and the like that they are most commonly used. Do not sow too early.

Tall Varieties.

HYBRIDS OF MADAME GUNTER—The richest strain of all. These new Hybrids make a strong growth, climbing about six feet and covered from spring to fall with large substantial flowers of the most brilliant shades. They are remarkable for their wide range of color, embracing many unknown shades. The foliage is generally dark and contrasts effectively with the rich colors of the flowers. Pkt 5c; oz 15c; ¼ lb 50c; postpaid.

CROESUS—Flowers of superb size, ranging from primrose to deep orange, blotched crimson in the throat and on the upper petals. Pkt 10c; oz 25c.

GOLDEN-LEAVED SCARLET—Pkt 5c; oz 20c.

PEMLIGHT JUPITER—A most striking and handsome sort. Bright salmon rose. Quite effective at a distance. Fine for verandas. Large size pkt 10c; oz 20c.

SALMON QUEEN—An exquisite shade of salmon. Pkt 10c; oz 15c.

TWILIGHT—Very large buff colored, heavily blotched rosy salmon, the three upper petals penciled with crim on. Pkt 10c; oz 20c.

MIDNIGHT—One of the finest dark colored Nasturtiums. Very pretty and popular. Pkt 10c; oz 20c.

HEMISPHERICUM—Of a beautiful orange color. Handsome beyond description. Pkt 5c; oz 15c.

KING THEODORE—The darkest of the dark leaved varieties. Very showy. Pkt 5c; oz 15c.

SCHULZI—Similar to the above only not quite so dark in color. Pkt 5c; oz 15c.

TALL MIXED NASTURTIUMS—A mixture of all the good separate varieties. Each season we sell many tons of this famous mixture, which is considered the best assortment grown. Pkt 5c; oz 10c; ¼ lb 20c; 1 lb 60c; postpaid.

Lobb's Climbing Nasturtiums.

This class is remarkable for the intensely brilliant colors of its flowers, which are a trifle smaller than those of other sorts. In moderately rich soil they climb high and bloom brilliantly. Average height, 6 feet.

ASA GRAY—A beautiful yellow and white flower, a favorite everywhere. Pkt 5c; oz 15c.

CROWN PRINCE OF PRUSSIA—Similar to the above, only a beautiful blood red. Pkt 5c; oz 15c;

MARGARET—Also called **PRINCE VICTORIA LOUISE**—A very pretty yellow and white variety. Pkt 5c; oz 15c.

REGINA—The favorite salmon colored variety. Pkt 5c; oz 15c.

BLACK PRINCE—One of the handsomest black climbers. Pkt 5c; oz 15c.

FINE MIXED—An assortment of the finest climbing Nasturtiums obtainable. Pkt 5c; oz 15c.

SPECIAL.

Any seven 5c packets on this page for only 25c, postpaid.

Dwarf Nasturtiums.

AURORA—Lovely and distinct; salmon-rose, mottled blush white, garnet blotches. Pkt 5c.

BEAUTY—Beautiful yellow and scarlet. Pkt 5c; oz 15c.

CHAMELEON (*New French*)—Produces flowers of many different colors on the same plant. A magnificent variety. Pkt 5c; oz 20c.

CLOTH OF GOLD—Golden yellow foliage, light scarlet flowers. Very effective. Pkt 5c.

EMPRESS OF INDIA—Brilliant crimson, dark foliage. Very rich. Pkt 5c.

KING THEODORE—Dark scarlet maroon, dark foliage. Pkt 5c.

LADY BIRD—Orange yellow, red spots. Pkt 5c.

PEARL—Pure pearly white. Pkt 5c.

VESUVIUS—Beautiful salmon-rose. New variety. Pkt 5c; oz 20c.

KING OF TOM THUMBS—One of the finest dwarf scarlet varieties. Pkt 5c; oz 15c.

PRINCE HENRY—A handsome yellow marbled scarlet specie, that is fast attaining popularity everywhere. Pkt 5c; oz 15c.

"SHAW'S GARDEN" HYBRIDS—One of the prettiest strains of Dwarf Nasturtiums. There's really no comparison in the beauty and color of the flowers. They are larger, produced in greater profusion, with longer stems, and in colors much more varied in the hundreds of beautiful shades not found in any other mixture. Pkt 10c; oz 15c.

LOBBS "LILLIPUT"—The plant is smaller than the Tom Thumb, and the little flowers of varied showy colors are produced in the greatest profusion, well above the small foliage. Highly effective for beds and borders. Mixed colors. Pkt 5c; oz 15c.

ST. L. S. CO.'S DWARF MIXTURE—In offering you this celebrated mixture we do so with the knowledge that after you have once tried it. You will plant no other. Our mixture contains all the good standard sorts and colors. Pkt 5c; oz 15c.

ST. L. S. CO.'S DWARF NASTURTIUMS
